

READY FOR YOU...

ON DISPLAY ... JOHN DEERE DAY

the new John Deere 95 Combine

New low compact lines and many other features

We now have a new Hi-Lo 95 Combine on display. This new machine has new compact lines... a fold-back unloading auger... cylinder and concave spacing from the operator's platform... more engine power... and a host of other new features you'll want to see. Be sure to stop in this week—for here's a machine that's right for you no matter what crops you grow.

TV commentator Walter Kronkite presides over variety-packed John Deere Day film "Network"

"Let's go places!" Set theme for family fun

Visitors at John Deere Day, Tullake Fairgrounds, Wednesday, March 9, will see a fast-paced variety of colorful film subjects closely coordinated by TV professional, Walter Kronkite. John Deere Day guests will recognize some other regular performers, too—including unpredictable Tom Gordon. The Gordon family this year undergoes the pains and pleasures of watching Tom take another lesson in farming the hard way, but winding up on top as usual. Useful facts for all farmers will be included in the "What's New" portion of the program, and there'll be an interesting sidelight on farming in the film story on automatic production of high-speed shares at the John Deere Plow Works in Moline, Illinois.

★ The Gordon Family

Tom Gordon locks horns with Progress again! After the bottle, both come out on top, and the audience takes its bonus in laughter.

★ Walter Kronkite

This nationally-famous TV commentator uses his skill to coordinate the wide variety of subjects in this year's John Deere Day film.

★ The Flying Farmers

As a John Deere Day guest, you can travel as wingman to a group of Flying Farmers as they rendezvous at a convention site.

★ and ...

There'll be colorful musical numbers by the John Deere Singers and Dancers, some remarkable "Oddities in Farming," a visit to the John Deere Plow Works to see automatic share production, and more!

*It's Here Again
...Another Big*

Remember the Time

Remember the Place

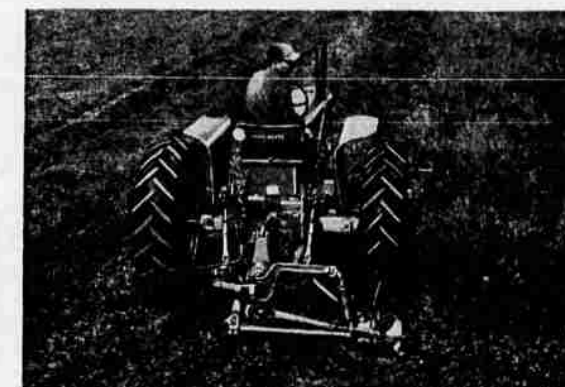

WEDNESDAY, MARCH 9

ALL DAY!

Tulelake Fairgrounds

In two hours and thirty minutes, some 775 feet from this point in the John Deere Plow Works, this steel stock will emerge as a package of high-speed plowshares. John Deere Day audiences will see the highlights in this dramatic story of modern production.

Here's a new mower that gives a full-width cut behind the rear tractor wheel, even when tread is set at its widest. It's just one of many advances in farm equipment which will be shown to farmers and their families attending the forthcoming John Deere Day.

We're Expecting You on JOHN DEERE DAY
