

BARBRA MEDLEY

Music Pupil To Perform

Barbra Medley, a junior at Henley High School, has been selected to participate in a concert by the all-state high school band at 3 p.m. Friday, March 18, at Portland Civic Auditorium.

She plays clarinet and helps instruct beginning elementary school clarinetists.

She is the daughter of Mrs. Dorothy Moore, 2046 Ogden Street. She came to the area as a freshman from Central Point.

Miss Medley and her mother will drive to Portland in time for rehearsals March 16 and 17.

The band will be directed by Warren Bellis, band director at the University of Idaho. LaMar Jensen of the Klamath Union High School Music Department is in charge of arrangements.

On the program are "The Gods Go A-Begging," a ballet suite; "Portrait of the Land," "Two Chorale Preludes," "Finale from the Second Symphony for Band," and "Coat of Arms March."

Engineering Office Set

Pacific Telephone-Northwest has established a new engineering office here to be responsible for planning service for the Klamath Basin area, according to Thayne W. Cole, local manager.

Two engineers in the company's plant department, Walter Haring and Ed Altenhofen, staff the new facility here. The office will serve the area from Klamath Falls to Bly, north to Chemult, south to the California-Oregon state line and west to Klamath River.

Kingsley Field, Haymaker Mountain, Stukel Mountain and long distance lines to Rocky Point are all part of the engineering responsibility of the new office. The telephone engineers plan location of cables and wires to serve homes and businesses and engineer future telephone service, Cole explained.

Haring worked in Klamath Falls since 1955 out of the Medford office until last June when demand for additional facilities here made the Klamath Falls assignment a full-time job. A new home at 1875 Van Ness Avenue is being completed for Mr. and Mrs. Haring and their daughter, Judy Kay. Their son, Jack, attends Oregon State College.

Altenhofen was assigned to the Klamath Falls office from the company's Salem operation. He and his wife and their two children, Kirk and Kelly, live at 1426 Crescent Avenue. They have sold their Salem home and plan to purchase a residence here.

Camp Grounds To Be Improved

TULELAKE — A reconitioned, improved camp ground awaits visitors to Medicine Lake next summer. Modoc Forest Service fire crews were employed at the close of the 1959 fire season on the project.

Jim Olson and Elmer Belcastro, who drove a sno-cat into the lake recently, found much less snow than usual.

Additional stretches of the road into the lake have also been surfaced with native pumice and cinders.

PAUSE THAT REFRESHES
NEW YORK (UPI) — When a Long Island Railroad commuter train bogged down about 30 miles east of Manhattan a considerable conductor announced the delay would be a long one.

"You guys will want to phone your wives and there's also a friendly tavern in town," he said. "I'll blow the train whistle loud and long when we're ready to pull out. You won't have to worry about a thing."

An hour later the whistle blasts were heard — loud and long. The happy commuters reboarded the train and continued homeward.

Custodian To Retire

Hip Largent, an oldtimer at Klamath Union High School, was feted during a gala birthday party at Midland Grange Hall recently.

Largent plans to retire at the end of the school year as custodian and bus driver, jobs he has handled there since 1927.

That was two years before the present high school building was constructed, so Largent is one of the few men around who worked at the old school site.

His reign in the athletic department. There, he issues gear to physical education classes, makes repairs to equipment, keeps tabs on everything, and generally supervises maintenance. He also handles a bus route.

He and Mrs. Largent plan to remain on their farm on Miller Island Road about five miles south of Klamath Falls where they have been for 40 years. They also want to do some extensive traveling and "just see the country," friends report.

Largent has been a member of Midland Grange for 25 years, and he has held every important office at least once. He presently is a member of the grange executive committee.

The couple has two daughters, Mrs. Helen Schneider of Klamath Falls and Mrs. Richard Takacs of Malin, and seven grandchildren, Fred, Michael, Diane and Sue Ann Schneider and Richard, Sandra and Tommy Takacs.

Largent remembers easily when he began his school duties under the county system before Klamath Union High School district was organized.

Paul T. Jackson was principal then. Dwight French was there and is now dean of boys.

Grange members decorated the hall appropriately in red and white.

Mrs. Dickey Freeman and Mrs. Robert McClurg served coffee. Verda Urback, Mrs. Vera Clemens and several women grangers served punch. Mrs. John Brazeale served the birthday cake.

Mrs. Wynona Brazeale was in charge of the guest book. In charge of hospitality were Mr. and Mrs. W. E. Carter and Mr. and Mrs. Alex Cammock. Ellen Ely and Laura Walker made and presented a "money tree."

Out-of-town guests were Mrs. L. E. Wakeman of Rainier, Oregon, and Mr. and Mrs. Elmer J. Holmes of Fort Jones, Donna Gleason and Stephen Holmes, niece and nephew of the Holmes', also were present.

H. E. "HIP" LARGENT was honored recently by Midland grangers for his birthday and for 33 years of service with Klamath Union High School and 25 years as a member of the grange unit. He is shown repairing athletic gear at KUHS.

TIRED-FEET TRIPLETS
NEW YORK (UPI) — Mrs. Elsa Panico, 35, stopped in at Brooklyn's Jewish Hospital for treatment after complaining of sore feet and aching legs.

The cause was quickly determined and Mrs. Panico was ordered to bed. Wednesday she gave birth to triplets — less than 24 hours after she entered the hospital.

Scout Week Observed

Klamath Area Council Girl Scouts are observing Girl Scout Week, now in progress, with a variety of special troop programs.

Today, they are stressing health and safety, one of the major Girl Scout training fields.

Girls of Troop 32, under leadership of Mrs. I. Spomer, have been working toward earning their first aid merit badges. That is part of the system used to train them to be prepared for emergencies to the best ability of a junior high school-age girl.

The troop's 10 girls have built their own first aid kits, and they have had to learn when and how to use the kit's contents.

They also have had to learn to prevent accidents, to be calm under stress and to administer first aid with adult supervision. To get the first aid badge, girls must pass 10 proficiency requirements.

The work must all be done under supervision of a doctor, a nurse with first aid experience, or anyone who has earned a standard or advanced first aid certificate within the past three years.

Dip Predicted In Cavities

PORTLAND (AP) — Dental research in the next 10 years may find ways to eliminate 50 per cent of tooth decay, a dental school dean said.

Dr. J. P. Volker told the Oregon State Dental Assn. that the reduction of tooth decay will require cooperation between the dentist and the food processor.

Dr. Volker, dean of the University of Alabama Dental School, said a combination of carbohydrates in the human diet and bacteria cause all cavities.

Peace Proposal

PHNOM PENH, Cambodia (AP) — Prince Norodom Sihanouk, prime minister of Cambodia, said today that if the world is to have lasting peace, Red China must be allowed to participate in discussions to that end.

Men who like real beer choose real lager beer

Lucky Lager has a straight-forward quality, a "character" you just don't get in other beers

Here's why: Lucky Lager is brewed by the special German lager technique — a special process from start to finish. It begins with the best: large-grained barley, purest water, the most flavorful hops, the most modern breweries. Then old-world brewing skills and extra-long ageing give the renowned body, aroma and flavor of true lager beer to Lucky Lager — the real lager beer.
