Nikita Sends Telegram To New York Schoolgirl

NEW YORK (AP) — The most flabbergasted girl in town is Gail Bartley, 14.

She has a 200-word cablegram from Soviet Premier Nikita Khrushchev, wishing her and her 2,000 schoolmates "best health, success in your studying and happiness in your lives."

It was delivered by the Soviet

information chief at the United Nations, Nicolai I. Borov.

Last December the student yearbook editors at Bronx Junior High School 142 got up a list of famous men whose greetings on the theme "reverence for life" they wanted to print.

Besides Khrushchev, the names included President Eisenhower, British Prime Minister Harold Macmillan, Prime Minister Nehru of India, Israeli Premier Ben-Gurion, New York Gov. Nelson A. Rockefeller and Dr. Albert Schweitzer.

Gail drew Khrushchev's name, spent three days composing her request and figured she'd be the last to get a reply if she got one at all.

So far, Khrushchev is the only one to reply in person.

Early last month Borov showed up at the school, met Gail, had a tour, ate lunch and left.

He came back with the message from his boss.

"I'm flabbergasted," exclaimed Gail, a Negro, Monday. "I didn't really expect a reply. Maybe from his office, but not from him directly."

This is what the Soviet leader's

message said:

"Dear American school children:

"On receiving your letter I was moved deeply. I thank you for your greetings and in my turn I wish you best health, success in your study and happiness in your lives."

"You say in your letter that about 2,000 boys and girls of various nationalities and faiths study at your school. I hope this doesn't prevent you from studying together, playing together and singing songs merrily. I would like you to know that in our country people of many nationalities live and work together joyfully and happily. They are united in their aspiration to live in peace and friendship with all the people throughout the world."

"Our country, the Soviet Union, is doing its best to enable the children of all lands to live, grow up, study and play happily and to let all the people on earth

work in peace without giving a single thought to the threat of a new war, without fear for your future."

"I wish that you and the whole rising generation of America as well would learn what war is like from history books only, with-

out ever seeing it with your own eyes. Once again I wish you much happiness and a (sic) very good luck."
