

Supreme Court Justice Cites Stats On Youths

WASHINGTON (AP) — Eleven per cent of our children reared in broken homes. Eleven per cent victims of racial discrimination in search of education and jobs. Fifteen per cent reared in abusive poverty.

A Michigan Supreme Court justice recited these grim statistics today, then asked: "have you heard and do you believe that in our great land there is equal opportunity for all?"

NW Papers Plan Return To Own Sites

PORTLAND (AP) — Plans to resume separate publication April 18 were announced Tuesday night by the Oregonian and the Oregon Journal.

The two Portland daily newspapers have published a joint edition in the Oregonian building since the Stereotypers Union went on strike last Nov. 10. Supervisory and non-union personnel have done the work.

A brief announcement on the front page said the dailies April 18 "will resume publication as separate and individual newspapers," with the Journal returning to its own plant.

Publishers refused to elaborate on the announcement.

The unions had no immediate comment.

Most other union members have refused to cross Stereotypers' picket lines although a few Portland Newspaper Guild members are back on their jobs. Some 900 workers have been idled by the strike.

Among issues in the dispute between the Stereotypers and the publishers are: The number of men required to operate a new type of casting machine which the Oregonian says it has ordered; whether foremen should belong to the union; and the pay rate for substitutes.

Navy Claims New Success

CAPE CANAVERAL, Fla. (AP) — The Navy has claimed another significant success in one field of missilery in which the United States is believed far ahead of the Soviet Union—the Polaris submarine missile.

A near-operational model of the Polaris bolted from a moving ship Tuesday night and the Pentagon announced that early indications were the test was completely successful.

However, it appeared to many observers that the second stage performed abnormally. Some said it seemed to blow up and fall into the ocean.

The Navy denied the missile exploded. But an informed source reported there were "anomalies in the telemetry received from the second stage."

The test was the first in which all operational equipment except the nuclear warhead was carried on the missile.

Singer, Mate Adopt Child

LOS ANGELES (AP) — Singer Nat (King) Cole and his wife have adopted a 13-month-old boy.

The adoption was approved formally in court Tuesday. The child, Nat Kelly Cole, has lived in the couple's home since he was 5 months old.

The Coles have two other children, Carol, 15, adopted when she was 4, and Natalie, born to the couple 10 years ago.

Justice George Edwards told the White House Conference on Children and Youth that the constitutional guarantee to all of life, liberty and the pursuit of happiness is still only a vision.

It has been nearly 100 years, he said in a prepared address, since passage of the 14th Amendment, designed to give full citizenship to those who had been slaves.

"It is time we honor it," he said. "I am glad that both the Supreme Court and the youth of our land are making clear that the days of segregation and second-class citizenship for Negroes are numbered."

Justice Edwards said 30 per cent of the mothers with children under 18 are now employed and "I don't think there is a single juvenile court judge in the country who doesn't shudder at that figure. Every working mother who leaves children below high school age continually unsupervised is practicing brinkmanship with delinquency."

The justice said "in the dangerous world in which we live, America will need sons and daughters deeply dedicated to its beliefs. Instead, we are turning out too many young people trained to seek personal belongings, personal security, and personal ease."

"The hard, lean youths with the questioning minds, who will provide this country's future leadership, he said, "demand a better inheritance than municipal corruption, political filibustering, payola, and advertising of sex and crime by TV, radio, magazines, and newspapers."

Robert H. Macfay, executive director of the Welfare Council of Metropolitan Chicago told the conference it is no wonder that so many of the younger generation have discarded the principles and ideals this country has long held so dear.

"For an entire generation," he said in a prepared address, "we have been surrounded by violence. The media of mass communication glorify that violence daily. Human life and personality have been cheapened."

"Bribery of policemen, political and industrial chicanery, trade union corruption, and glorification of the violence of war—all these speak louder than Fourth of July orations."

Building For Sale

BUILDING FOR SALE
INVITATION FOR BIDS
36-UNIT ROOMING HOUSE
1217 Bismark Street
Shippington Addition

This property may be purchased together with the land whereupon built (160x134') for continued use in that location, or it may be purchased for removal from site or demolition for salvage.

In the latter instance, the purchaser must furnish bond guaranteeing that the land will be left in a clean and level condition with all foundations removed, all holes and excavations filled and leveled and all debris removed.

Call at our office for additional details and an appointment to inspect the premises.
