

MARKETS and FINANCE

Stocks	
WALL STREET	
NEW YORK (AP) — The stock market closed irregularly higher today as a late rally improved the list. Trading was more active in final dealings.	
Volume for the day was estimated at 2,100,000 shares compared with 2,600,000 Thursday.	
Pivotal stocks showed narrow gains or losses with few exceptions.	
The electronics and other "glamour" stocks which took such a beating Thursday were mixed. Polaroid extended its 14 1/2 point loss of Thursday by about 4 points. Zenith, Philco and Motorola advanced more than a point each.	
No outstanding group leadership was shown.	
Steels did very little. U.S. Steel was off a fraction. A slightly higher trend prevailed among motors. Ford, American Motors and General Motors added fractions.	
U.S. government bonds were mixed; corporates declined.

OBITUARY	
MARTIN	
Ida Louise Martin, 55, a native of Holstein, Nebraska, and a resident of this city since 1936, died here April 1. She is survived by the widower, Wayne Martin of Klamath Falls; four brothers, Carl Granstrom of Aurora, Nebraska; August Granstrom and Albert Granstrom, Holstein, Nebraska; Ed Granstrom, Hastings, Nebraska; four sisters, Anna Nedham of North Platte, Nebraska; Hannah Kimle, Holstein, Nebraska; Nora Nelson, Hastings, Nebraska; Minnie Lange, San Diego, California; mother, Mrs. Christina Granstrom of Holstein, Nebraska; O'Hair's Memorial Chapel will announce funeral arrangements.	

Traps Used In Survey Of Insects

This weekend, if the weather breaks, four green, metal devices that look like oversized camp lanterns will be placed at four strategic outside locations.

The devices are mosquito traps. Their placement will mark the beginning of a much-discussed mosquito survey of Klamath Falls and its suburban areas.

Mosquitoes are lured into these traps by the warmth and glow of a 25-watt light bulb. Once inside the screen interior, they are funneled down into a trapping jar.

The jars will be emptied twice each week. Collections should show what types of mosquitoes are in this area, and should give a realistic indication to their numbers.

Collections will be made all through the mosquito season, a period of biting and scratching that normally begins about now and lasts until September.

Moreover, and perhaps more importantly, entomologists from the State Board of Health or the Agricultural Extension Service will make a monthly survey of larvae producing areas—irrigated pasture lands, canals, grassy and swampy areas and other mosquito breeding spots.

With this information, the State Board of Health will be on its way toward a comprehensive census of mosquitoes around town—about the same time federal folks are counting human noses.

Dr. Seth Kerron, county health director, and Bob Kent, director in charge of the Upper Klamath Lake Development Committee of the Chamber of Commerce, were leaders in the effort to make a survey of mosquito conditions here.

The survey is designed to determine conditions and needs for a possible mosquito control district.

J. D. Vertrees, county agent, said at a November, 1959, meeting on the subject that a survey was essential before any plans for control could be approached realistically.

"If the county court were to make \$10,000 available tomorrow," he said at the time, "I don't know of a single entomologist who would know where to start a mosquito control program. That's why a survey is so vital to provide the basic information on which we can build a control program."

The traps are to be set in four locations, Moore Park, the northeast section of Klamath Falls, the South Suburban Area, and the Agricultural Experiment Station near Henley.

They were brought here Thursday by two authorities, Laverne S. Miller, a sanitarian for the State Board of Health, and Fred Lewis, research entomologist for the Department of Agriculture.

LEADERLESS but undaunted these Camp Fire Girls are going ahead with their program without skipping a step. They are, from left to right, Marian Troyer, Linda Vigen, Dawn Veitch and Mikell Totton. They were invited to tell their story to Herald and News reporter Norm Cardoza.

Four KF Camp Fire Girls Become Self-Sufficient

By NORM CARDOZA

Along with other ideals expressed in the Camp Fire Girls' creed, four girls from Klamath Falls have learned to be self-sufficient.

They are going right ahead with their Camp Fire program, though their unit has no leader.

The girls are Marian Troyer, Mikell Totton, Linda Vigen and Dawn Veitch. Their parents are Mr. and Mrs. Emory Troyer Jr. of 819 Rose Street, Mr. and Mrs. Dave Totton of 1218 Crockett Avenue, Mr. and Mrs. Harold Vigen of 1303 Sargent Avenue, and Mr. and Mrs. Gordon Veitch of 1302 Lookout Avenue.

All the girls are 11 except Miss Vigen, who is 12. All are in the sixth grade at Fairview School.

And all, as a consequence of a remarkable activity Sunday, will soon be Woodgatherers. That is a Camp Fire rank of the first water.

The four cooked a spaghetti dinner for their parents and families. Eighteen guests were present at the Totton home.

Miss Veitch and Miss Totton cooked the spaghetti, Miss Troyer prepared a salad and relish dish and Miss Vigen whipped up a gelatin dessert.

Thus they fulfilled a requirement to be eligible for Woodgatherer rank, the second up the Camp Fire scale, which they hope to attain around the end of April. Later they will try for Firemaker and later for Torch Bearer, the top rank, before they are 14.

Then they will have the opportunity to become Horizon Club members. Horizon is a club for girls 14 through 18.

Since the group leader, Mrs. Veitch, abdicated recently to make time for other pressing duties, the girls have had to improvise. Now when someone says "take me to your leader," they introduce Miss Troyer. She is currently the president, a highly irregular Camp Fire office manufactured to hold the unit together during the current crisis.

Miss Totton was president last month, and the other girls will get their turn.

They named their group Wa-Ki-Ta, which in Indian means "have fun, be friendly and be helpful."

Marian's Camp Fire name is Wa-An-Gi-Ta-Ha. Linda's is Tan-Ki-Ta, Dawn's is Ki-Ton-Va, and Mike's is Wi-A-Ta. They declined to explain what those names mean.

Mrs. Naomi French, meanwhile, is keeping an eye open for a prospective leader. She is the local council executive secretary.

STEPHANIE JONES, 15, Butte Valley High School student, placed first in the recent essay contest sponsored by Butte Valley Auxiliary to Veterans of Foreign Wars, Post 5944. She also placed third in the California 20th District competition. Stephanie is the daughter of Mrs. R. E. Jones and granddaughter of Mr. and Mrs. Archie Christensen, Dorris.

Police Quiz Two Youths

Two youths were taken into custody for questioning concerning drunkenness Tuesday, city and county juvenile officers reported.

One was so charged and sentenced to pay \$25 or spend five days in jail. He was 19 years of age. The other, 16, was lodged in the county juvenile home.

Officers said they had to subdue the older youth with force. The younger, though belligerent, offered no resistance, they said. The elder became so violent he was handcuffed.

Officers also questioned two 9-year-old boys regarding theft Tuesday. One was referred to county juvenile officers for further questioning. Both were released to their parents.

A Herald and News story Wednesday said only one youth, 16, had been taken into temporary custody and sentenced to the fine or jail term. It also said both 9-year-old boys were referred to county officers for further questioning.

Seen For Shasta Good Skiing

Mr. Shasta Ski Bowl received 34 inches of powder snow during the stormy week. The management expects excellent conditions for a college ski meet over the weekend.

Skiers from Oregon State College, the University of California, Chico State College, the University of Nevada, College of the Siskiyous, San Jose State College, American River Junior College, and possibly others will compete in a cross-country race Friday, a giant slalom Saturday and a 30-meter ski jumps Sunday.

The pack is 126 inches deep. The road is clear, but chains were advisable, though not mandatory Friday. Reports indicated skies would clear by Friday afternoon, with warmer, clearer weather Saturday. The report also mentioned possibilities of high cloudiness Sunday.

Low temperature Friday morning was 34—the same as the high temperature Thursday.

Essay Test Winners Told

DORRIS—Awards were presented recently to three Butte Valley winning contestants in the National VFW Auxiliary essay contest.

Each year the contest is sponsored locally by the Butte Valley Veterans of Foreign Wars Auxiliary to Post 3044, Butte Valley High School students to place this year were Stephanie Jones, 15, \$25 war bond; Larry Meyers, 14, \$10; and Darrell Hanks, 15, \$5.

Essay winning medals were pinned on the students and the bonds were presented by Mrs. Robert Carnini, essay chairman.

The VFW Auxiliary essay theme this year was "Civil Defense—An American Tradition."

Essay contest judges were Mrs. Woodie Wilson, Mrs. Lino Andreatta and B. B. Fisher, Dorris Elementary School principal.

Mrs. Carnini received a letter Monday from Mrs. W. D. Houston, Yreka, district essay chairman, informing her that Stephanie Jones had placed third in the 20th District competition. Awards will be presented at the 20th District meeting in Redding in May.

Business Chief Attending Meet

Leslie B. Robertson, director of the Robertson School of Business in Charleston, South Carolina, is attending a board of directors meeting for the National Association and Council of Business Schools.

In addition to serving as a director of the association, Robertson is regional vice president, representing business colleges in the states west of the Rockies.

The NACBS board meeting is held in conjunction with the meeting of the Southeastern business colleges.

Cancer Crusade Chairman Picked For Klamath County

Dave Totton of the Crater Lake Machinery Company, Klamath Falls, has been named chairman of the Klamath County Cancer Crusade by Mrs. Harold Cloake, county unit chairman.

In accepting the chairmanship of the annual educational and fund-raising drive, which begins April 1, Totton urged "all public-spirited citizens of our community to make this a full-scale offensive against cancer."

"Public enemy disease No. 2," the chairman called it, pointing out that cancer is second only to heart disease as a cause of death.

April has been designated Cancer Control Month by presidential proclamation. Throughout the month, volunteers will distribute life-saving information through free film showings and the distribution of literature pointing out the seven danger signals of cancer, the county chairman said, and continued:

"Of course cancer control is a year-round program. But this is the time of the year when we go all out to try to save more lives. And it's the time when we ask for voluntary contributions to sustain the ever-increasing momentum of war against this ancient enemy of mankind, a war that must ultimately end in the defeat of cancer and the saving of countless lives in the generations to come."

More than 65,000 of the 265,000 who now die from cancer each year could be saved right now. They are wasted, literally thrown away, simply because cancer isn't diagnosed and treated early enough, either because people don't know the facts, or because they procrastinate.

Totton said a quota of those wasted lives are to be found here in Klamath County. "So our local drive must be a drive to save those lives," he added. "If our literature reaches every single household, and if a member of every household makes himself, or herself, responsible for safeguarding the rest of the family, we could eliminate this shocking loss of loved ones."

The ultimate defeat of cancer is the great objective of the cancer society's research program. It supports more than 1,000 top-flight scientists in hundreds of laboratories in all parts of the country.

Totton will have the help of the following leaders in launching April's Cancer Crusade: Dr. George Nicholson, pathologist, Klamath County medical adviser; Mrs. George Clark and Mr. Robert Thompson, educational chairman; Mrs. R. O. Miller and Mrs. George Meade, film showing chairman; Mrs. C. E. Pernigotti, service chairman.

In The Day's News

(Continued from Page 1)

... sus is very old indeed.

Getting closer home— This newspaper printed a frivolous piece the other day on the more or less frivolous subject of daylight saving time. We quoted quite a few people, among them Clyde Horsley, of Midland. We quoted Mr. Horsley as saying: "Listen, we don't need this daylight saving business. But I'll say one thing; it sure comes in handy for those guys who swing the golf clubs, if you know what I mean. Sure, it would be good for them, but what would it get us?"

Mr. Horsley says he didn't say it that way and adds that many of his best friends are golf players. He resents being misquoted and, naturally enough, wants to be put right in the matter.

Comment: The writer of the inaccurate story isn't with us any more.

Clerk's Office Lists Suits

These civil suits have been filed in the county clerk's office:

Investment Service Company of Portland has filed two suits on behalf of the U.S. National Bank of Portland. One seeks payment of
