CHEVY! YOU CAN'T BUY ANY CAR FOR LESS ... UNLESS IT'S A LOT LESS CAR!

Anyone who's looked around knows the majority of Chevrolet models—6's and V8's together—list for less than comparable models of other low-priced cars. But the price tag alone is only one of a whole raft of reasons a Chevy does better by your dollars.

Nothing near Chevy's size and price can match the Full Coil cushioning of its ride, or the fine, finished workmanship of its Body by Fisher. That even applies to some cars that cost a lot more. You're up in the higher price brackets before you find a car that moves as quietly as a Chevrolet or offers the inner space that Chevrolet does.

Or look at the extras Chevy gives you—at no extra cost—that others in its class can't offer at any price. Shock-cushioned steering. Safety Plate Glass in every window. Keyless locking of all doors. Crank-operated vent windows. Chevrolet offers the widest choice of power teams, too. Drive a Chevy just once. You'll have a tough time settling for anything less.
