entered, a hush rested over the crowd.

Here is no cry of the huckster, no barker selling tickets and badges. Here is the calm of the cathedral, the endless rooms illuminated by their repeated interpretations of a Man who lived and died. And lived again.

The people who came to see Him as He was seen in other centuries by other eyes are common folk. Some of them are dusted by miles of travel. Some of them are marked by Florida sun and wind. And some are too poor to come on any day except the Sabbath when the great gates are open free to any man.

They walk here and see Christ born on canvas, Christ healing the blind in marble, and they do not laugh nor eat popcorn nor speak among themselves except as they might find necessary in a place of worship.

Among them is a woman who came on crutches and lifted herself and her spirit up the stone steps.

Here is preserved the beauty of art for all men to see. Here the gentle figure of Christ is forever taken tenderly from the cross.

And the great unseeing eyes of the boy David in the courtyard look out forever over hibiscus and oleander.

Plain talk about power mowers

How to pick a power mower

There is a big difference in power mowers that goes past the price tag, beyond the pretty paint. Certainly price is important. That's why some mowers are made to sell for less. But where value is concerned, even high price is no guarantee. How do you know you're getting your money's worth? Don't settle for sales talks. Find out for yourself fast, with the six-step test for power mower buyers.

Take any power mower. Look it over. Lift it. Start it. Listen to it. Then look at LAWN-BOY. Measured by any yardstick, this is the mower built for value! The nationally known, nationally serviced brand. The one that sets a standard others would like to live up to. This time, get more mower for your money! Go LAWN-BOY! Wide selection for every kind of lawn, starting at \$59.95.

SIX-STEP TEST OF A MODERN POWER MOWER

Standard to judge any power mower by—before you buy!

1. TILT the mower, as you would to clean it or to mow along a hillside. Oil should not leak out or spill. A drip-free LAWN-BOY mower keeps oil in the engine for full-time lubrication.

2. FLEX the blade. It should be pre-stressed, under tension. A long, whippy blade cuts unevenly, can cause crankshaft damage. LAWN-BOY uses a short, hard shaft, with bronze main bearings.

3. TAP blade housing. It should be solid as a rock... yet lightweight. Thin steel stamped housings will vibrate, can spring out of shape. LAWN-BOY light, strong, durable aluminum housings never do.

4. LIFT the mower. It should be light, easy to push or turn. Not too big, not too heavy. LAWN-BOY is aluminum-light, nimble and comfortable to use. Even the handle is designed to fit you better.

5. START the engine. Several times. Starting should be easy, fast, sure. LAWN-BOY is famous for fast starting. Hottest ignition spark on any mower delivers years of easy one-pull starting.

6. LISTEN to it. Does it roar? Or spit fumes a step ahead of you? It shouldn't. LAWN-BOY has the biggest mufflers of any power mower. And exhaust is under the mower, away from you.

AT LAST! Complete automatic lawn care in one modern mower! New LAWN-BOY Grass Catcher rakes and sweeps as it mows!
