Team Studies Fat Problem

CHICAGO (AP) — It's not only the embarrassing bulges that make you fat. If you're still trim—but never will see 20 again—the odds are strong you're a lot fatter than you used to be.

The sad fact is you can be underweight and overweight at the same time. A scientist from Cornell University's Graduate School of Nutrition described advanced studies on body weight today to the American Institute of Nutrition.

A scientist from Cornell University's Graduate School of Nutrition described advanced studies on body weight today to the American Institute of Nutrition.

Where does the excess fat go? Dr. Fryer suspects it is deposited internally as well as under the skin.

The study involved 60 men of age 60 and over and in good general health. It stemmed from the casual observation of the body composition of a 63-year-old man who had been ill.

Rights Bill Big Problem For Johnson

WASHINGTON (UPI) — Senate passage of the civil rights bill brought reassessments today of Senate Democratic Leader Lyndon B. Johnson as a candidate for the Democratic presidential nomination.

Johnson still is not an announced candidate and is unlikely to become one so long as the regards management of the Senate program this year to be his first responsibility.

However, he was reported to be under pressure to make an announcement from supporters who are worrying that Sen. John F. Kennedy (D-Mass.) may get too far ahead and have the nomination in the bag by convention time.

Although Congress has not yet finished with the civil rights issue, Johnson got most of the credit or blame — depending on the critics' viewpoint — for the bill approved by the Senate Friday night.

Even among Johnson partisans, there was no agreement on how the two-month struggle would affect the Texas' future. Some felt he came out with the same political strength he had at the start, without damaging his support in the South and Border states and without making much headway among liberal Northern Democrats.

Others were convinced that his stature had increased because twice within three years he had piloted civil rights bills through the Senate where none had passed for more than 10 years.

After an early flare-up when he brought the issue before the Senate, Southern criticism of Johnson subsided, particularly as Southern senators succeeded in softening the House-approved bill.

However, this same softening process offended Democrats from the populous Northern states, some of whom think the nomination of Johnson for president would be an invitation to disaster.

Sen. Pat McNamara (D-Mich.) said Sunday there was "nothing in this bill that would justify thinking that Johnson was a great leader in the civil rights area."
