TANGY-SWEET RAISINS, combined with apple, dill pickle and onion make a refreshing relish mixed with lemon juice and French dressing. Serve "Savory Raisin Relish" with fish, meats or poultry. The photo and recipe are courtesy of California Foods Research Institute.

NEW BREAD MIX IS SEA-GOING

Homemakers who now may receive the grand old art of home baked bread without any of the labors associated with that delicious treat... can thank Father Neptune for the creation of Spruce Bread Mix.

During World War II the need for fresh breads and rolls might

have seemed a trifle against the larger needs of full scale war. But for the men risking the long, dangerous voyages fresh bread was a tremendous trifle. At the same time, the problems of weighing and mixing ingredients in small galleys on the high seas were nearly impossible to solve.

The Russell Spruce Company was called upon to develop a mix so reliable and easy to use that even the greenest of cooks could turn out delicious bread... fresh every day. They were so successful that Spruce Bread Mix was required for the bread and rolls served on all U.S. Government chartered ships during the war years. Today, it continues to be a standard enjoyed by American seamen traveling to every port in the world.

Packaged now for home use... a three-pound bag of mix makes four large loaves. Directions are also included for easily making rolls, coffee cakes, raisin, potato breads and many other treats.

MORNING FRUIT
Step up your family's vitamin intake by serving two fruits for breakfast. Start the meal with orange or grapefruit juice, and serve a broiled cling peach half along with the bacon and eggs or French toast.

BASTE LAMB WITH WINE
Heat California Rose wine and butter with a crushed fresh mint sprig. Remove mint and use mixture to baste leg of lamb while roasting. Chill remainder of bottle of Rose to serve as the dinner beverage.

RAISIN RELISH

Relishes give zest to fish and meats. Here's one that's a refreshing change from ordinary bottled kinds. Tangy-sweet, crisp unpeeled apple, dill pickle and onion are drizzled lightly with lemon juice and French dressing and then allowed to mellow an hour or more. For a creamy relish, simply add a little mayonnaise. "Savory Raisin Relish" is delicious with trout, salmon or other fish. Good, too, with chicken, roast pork or ham.

Feature "Savory Raisin Relish" for a spring supper of grilled trout, French fried potatoes and a garnish of lemon wedges, pickled cranberries and pitted ripe olives stuffed with green onion make an attractive plate. Cucumber fingers and tomato wedges with your favorite greens and dressing is a good salad choice.

SAVORY RAISIN RELISH
1 cup light or dark raisins
2 cups finely chopped unpeeled apple
2 1/2 cups chopped dill pickle (1 large)

1 tablespoon instant minced onion
or 1/4 cup finely chopped green onion
1 tablespoon lemon juice
3 tablespoons French dressing

Rinse, drain and coarsely chop raisins. Combine all ingredients and let stand an hour or so in refrigerator to blend flavors. Serve as relish with fish or meats.

Makes about 1 1/2 pints.
Note: For a creamy variation add 3 or 4 tablespoons mayonnaise to above ingredients.

ADVANTAGES of providing your fireplace with a glass screen were pointed out at Bell's Hardware's exhibit at the Klamath Basin Home Show. Regular sliding or portable fireplace screens emphasized the importance of brass and black in combination in modern decor. During the spring housecleaning season is a good time to think about modernizing your fireplace. Savings in loss of heat pay for the new installation in a short time, according to Rod Bell of the hardware firm.

YOU CAN'T BLAME a little girl for wanting to grow up and be "just like Mommy." There's a certain magic about growing up, wearing high heels, furs and jewels. And when you are a Mommy, you get such exciting presents on Mothers Day, like Chanel No. 5 Perfume, spray cologne and bath powder.

MOTHERS DAY

Every member of the family, whether he banks at the Second National or the Piggy Bank, can afford a sweet-smelling present for mother.

Some families make it a family affair by having each member give a different form of fragrance, all in a matching scent.

And to be sure that the fragrance suits your mother, whatever her type, choose a perfume that is not extreme but right in the center of the fragrance scale.

Chanel No. 5 is such a perfume. It is neither too dry nor too sweet, but is a perfect blend of harmonious floral notes with a sparkling quality that makes a woman feel wonderfully alive whenever she wears it.

The line is available in the classic crystal bottle or spray perfume or spray cologne, both in handsome black and gold, Chanel-designed spray containers.

MODERNIZE THE FIREPLACE

Have you ever had the experience of returning home from a trip and finding your living room swarming with bees which have found their way into the house by way of the fireplace chimney?

That happened to friends of ours.

The woman of the house did some quick-thinking and picked up the bees from the floor and walls, using her vacuum cleaner.

Then, she said to her husband, "That wouldn't have happened if we had put on the glass fireplace screen I wanted."

Bell's Hardware devoted one of its two booths to fireplace equipment at the Klamath Basin Home Show this year. Here, the hardware firm has featured power tools and hardware items exclusively.

Highlight of the exhibit, which showed a fireplace equipped with a glass fireplace screen, and all the fireplace tools and accessories, including a simulated blaze coming from the pile of wood in the grate, was a Thermo-Rite glass fireplace enclosure.

Ken Morgan, of Bell's who

named the booth most of the time, pointed out advantages of safety from sparks, cleanliness, and elimination of heat loss as elements to be considered in choosing a glass screen.

"Sales of the glass screens were a little slow when they were first introduced in this area," he commented, "but this year's sales will more than double those of last year and the item is gaining rapidly in popularity."

And here are new "just a touch of the old West," according to the store. Grates have been found to be more efficient for the burning of all kinds of wood, Presto-logs and charcoal.

For sliding screens and portable screens, the most popular combination now is brass frame with black curtain. The brass gives a decorative highlight and the black mesh doesn't show the smoke smudges so the upkeep is much less trouble.

These screens come with engineered clamps making them simple to install as there is no drilling required.

The glass enclosures are available in 15 factory sizes.
