SHRINK

Has your dollar been getting smaller? Can we hope to avoid sky-rocketing prices in the future? We can! This is the studied opinion of 64 leading representatives of education, government, labor and business, who conferred recently at the American Assembly. They agreed that America should strive for three goals: dynamic growth... low unemployment... reasonably stable prices. But it won't be easy! Needed is the whole-hearted cooperation of all Americans in working to achieve a steadily rising productivity.

Find out what must be done... and the role you can play. Write for free booklet, "Prices, Growth and You," to American Assembly, Columbia University, New York 27, N. Y.
