DIOR SUGGESTION

The House of Dior suggests that you wear bangle bracelets above the elbow this spring.

THE JUNE BRIDE-TO-BE is queen of May showers, and let that be your theme in decorating a gay and charming party table. Instead of the usual parasol, suspend a May hoop over a punchbowl, for a centerpiece that also makes delectable refreshment. This idea is equally appropriate for anniversary parties. The heart is in the punchbowl, an outline of fresh strawberries frozen in a heart-shaped mold of ice, to chill an orange-flavored "blossom" punch. The sandwiches are in bloom, too, with tiny tulips of radishes, caviar lilies of the valley, and stylized flowers made of miniature egg slices.

which girl has glasses?

BOTH — one wears CONTACTS!

Actually, both pictures are of Dr. Noles' 13-year old daughter who has worn contact lenses 16 hours a day for the past two years. And . . . she wears dark green tinted contact lenses for swimming and skiing.

A dramatic illustration of the cosmetic and psychological benefits to be derived from wearing contact lenses.
