## Care Needed In Choosing Plywood Nail

One of the big advantages of use with the proper thickness of alternating plys in panels of plywood is that the material won't split if nailed a reasonable distance from the edge. But for best nail-holding properties, certain sizes are recommended for

use with the proper thickness of alternating plys in panels of plywood.

For joints, the following sizes, used with glue, will do the job.

For 1/2 and 3/4 inch in plywood, use 1/2 inch heads on 10 for backs where there is no objection to heads showing. Trench blue both nails.

Substitute casing for finish nails wherever a heavier nail is needed.

For exterior work, use galvanized or hot-dipped zinc-coated nails to avoid rust.

### MEN TREAD LESS

NEW YORK (UPI)—A test of men and women in all walks of life shows the wife, the secretary and the girl friend walk more miles in an average day than the male.

The pedometer study showed an average wife walked nine miles a day to her husband's average of 4 1/2 miles per day.

### matter of FACT

The English and Scottish got pretty sick of waiting and going strong women in Queen Elizabeth's time. So they devised a fitting punishment. The "scold's" head, an iron cage was fitted over the transgressor's head. A piece of iron stuck into the mouth, stopping all speech. Often an iron rod was used with holes only for eyes, nose and lips. The woman was left to rot in the market place for all to see.

## Transistors Aid 'Escape'

NEW YORK (UPI)—Toy transistor radios with earpieces are apparently growing in popularity among those who want to "get away from it all."

When the Japanese electronics firm of Toshiba, world's largest manufacturer of transistors, asked its American retailers to query some of their customers on how they use their toy radios, the answers included:

For "tuning out" the boss at dull sales meetings and the wife during one of her monologues, for passing the time while hunting and fishing, for relieving the monotony of long truck rides, and for listening to jazz while attending the opera.

### ONIONS FOR TEXAS

COLLEGE STATION, Tex. (UPI)—Texas onion crop, valued at \$14,925,000, was the state's top income producer among market vegetables in 1959, according to Texas A&M College horticulturist Clyde Singletary.

Herald & News, April 24, 1959, Page 12

Traffic fatalities of the U.S. totaled 2,370 in January, 1960, as compared with 2,760 a year earlier.

### INTEREST IN RELIGION

EAST HARTFORD, Conn. (UPI)—A half-century ago Frank A. Graham deposited \$100 in a bank on behalf of his church, with the stipulation that the money not be touched for 50 years. Now the bank has paid the \$200 to the church, plus \$407.99 interest.

Is that Pacific Supply Cooperative? Aquas Ammonia hadn't made that barley about ten feet tall! I bet I'd have caught that rabbit!

Give up, son! His horse sense tells him there's an easier way to get Aquas Ammonia! Just phone Pacific Supply Cooperative at either Klamath Falls, Hatfield, or Tulelake.

I thought I'd need all my money for farm equipment, but the man in the Circle P truck got me started with liquid fertilizer.

What'd you mean, You're tired? You ain't done no heavy work since the Pacific Supply Camp man told you about liquid fertilizer (both liquid nitrogen and liquid sulfur).

Boy! I bet she seems quick, or then the crop man. Did you bet the Pacific Supply Cooperative Golden Harvest Aquas Am?

Careful with that stuff, Charlie! Last year when you let the cap off we had to keep the main road mowed all summer!
