New Pay Scale For Bracers Recommended

SACRAMENTO (UPI)—The California Department of Employment has announced its recommendations for minimum wage rates to be paid to Mexican workers picking three crops in five counties.
The recommendations, based on surveys of wages paid to domestic workers in the areas, have been forwarded to the U. S. Department of Labor. Barring protests from growers, the federal agency was expected to make the recommended rates mandatory.
The state's findings:
Sonoma—To pick wine grapes in vineyards with 50 to 75 per cent of normal yield, 25 cents for a 50-pound box; 20 cents for a 40-pound box. In vineyards with under 50 per cent of normal yield, 30 cents for a 50-pound box, 24 cents for 40 pounds. Hillside vineyards pay the higher rate.
Monterey, San Mateo, Santa Cruz—\$1 per hour to cut and pack artichokes.
Riverside—Pick of Whitewater, 50-cents to work up a 60-pound sack of walnuts already shaken on the ground; 25 cents for a 25-pound sack, \$1 per hour to shake walnuts and pick them up.
Federal law requires that the Mexicans be paid rates equal to prevailing rates for domestic workers.

School Board Contemplates Locker Buys

DUNSMUIR—Purchase of lockers for use by the seventh and eighth grades was contemplated by the Dunsmuir Elementary School Board of Trustees at the monthly meeting Tuesday night.
Roger Ellis, principal, estimated the 140 lockers needed would cost about \$1,200. He reported that he has sought used lockers for some time and recently obtained 36 from other Siskiyou County schools. However, he said, some of these are in need of repair and chance of obtaining sufficient used lockers seems slim.
A group of parents supporting junior high school activities, such as band and sports, has offered to help with the locker purchases.
Ellis said. The board conceded the school budget could possibly meet half the expense of lockers if fund-raising projects could raise the other half.

Attorney Makes Plea

LOS ANGELES (UPI)—Attorneys for Hal B. Hayes Monday appealed a Superior Court order that the playboy contractor submit to a physical examination in Mexico City.
Hayes, in Mexico for nearly four months, was ordered examined Oct. 7 when he claimed he was to go to leave Mexico to give a deposition here in his \$4.1 million damage suit against Continental Casualty Co.
He claims he is being treated for "circulatory disturbances, extreme exhaustion and an undetermined malignant ailment."
In the suit filed with the California District Court of Appeal Monday, Hayes sought through his attorneys to have the Superior Court ruling set aside or, that failing, to have an order issued giving him the right to have his attorneys present when the examination is given.
Hayes last spring stopped construction on \$60 million worth of housing projects on five federal military bases around the country when subcontractors began filing liens against him for nonpayment. He claims Continental Casualty misled him into accepting the contracts.
