KLAMATH FALLS, OREGON, FRIDAY, OCTOBER 21, 1960

Telephone TU 4-8111 No. 6312

Weather
Mount Shasta-Siskiyou — Cloudy and cooler afternoons through Saturday.

Northwestern California — Clouds in extreme north and coastal fog, otherwise fair through Saturday; showers possible north of Eureka late Saturday; cooler northern interior Saturday.

Candidates Vie Tonight In Debate

NEW YORK (AP) — Vice President Richard M. Nixon and Sen. John F. Kennedy meet tonight in the fourth television and radio debate. The program will be the same length as the others — one hour.

The debate goes on the air at 9 p.m. Eastern Standard Time from the American Broadcasting Co.'s TV center on West 66th street. It also will be broadcast and televised by NBC and CBS, and broadcast by the Mutual Radio network.

Representatives of both presidential candidates finally agreed Thursday to limit tonight's debate to one hour. There had been talk of making the program two hours, with the final 60 minutes devoted to answering questions from viewers by telephone.

The issue of an extended program grew out of a proposal by Kennedy, the Democratic nominee, to hold a fifth debate as close as possible to the Nov. 8 election.

Nixon, the Republican candidate, turned Kennedy's proposal down and suggested instead that the fourth debate be extended to two hours.

However, Thursday night Herbert G. Klein, Nixon's press secretary, said "the door is slightly open" to a fifth debate. But other Nixon aides have said it would be difficult to revise campaign tour plans for the closing weeks and work in another debate.

While campaigning here Thursday, Kennedy, needing Nixon on the question of a fifth debate, said: "It is an interesting fact that he is willing to debate with a mimeograph machine that permits only one side, but is unwilling to make his answers and charges in direct TV confrontation with 70 million people watching."

Kennedy's camp said Thursday it would file another formal demand for a fifth TV meeting.

It will be Nixon's first telecast from the New York ABC studio. Kennedy appeared there last week when he debated Nixon, who was in a California studio.

Bomb Hoaxer To Pay Charity

LOS ANGELES (AP) — For telling an airline stewardess he had a bomb in his suitcase, Stanley Carlson must pay \$10 a month to charity for the next five years.

Carlson, 27, boarded an American Airlines jet last June 16 to fly to New York. A stewardess asked him to put his suitcase under his seat. He said perhaps he had better not because it contained a bomb.

Later he said he was only joking. U.S. Dist. Judge William Mathes Thursday fined him \$1,000 and sentenced him to a year in prison on a charge of making a false bomb report. The judge then suspended sentence on condition that Carlson give \$10 monthly to charity for five years.

A NEW PROGRAM of the Klamath Fire Department is known as "Operation I." Special luminous stickers have been purchased by the city which show a large "I," standing for invalid. These emblems are to be placed on front areas of homes where a person is invalidated so that in any emergency it will be known that such a person is in the house. In addition, another such emblem is placed on the window of the room if an invalid is confined to bed. Mrs. Mrs. (Helen) Jaschke watches as Sgt. John Matthews, center, and Battalion Chief Harold Uglum, right, place a sticker on her porch. There are 435 stickers available for all city fire departments. TV 4-4626.

Weather
Klamath Falls and vicinity — Variable cloudiness tonight with lows of 35-42. Increasing cloudiness Saturday, with a high of 65-70.

Demo Claim Draws Blast From Chief

SAN FRANCISCO (AP) — President Eisenhower says claims that America is becoming a second-rate power with prestige already at an all-time low are debasement of the truth and irresponsible.

Retorting, Sen. John F. Kennedy's camp accuses Eisenhower of an attack on the Democratic presidential nominee in making such assertions and has demanded equal free television and radio time for a reply.

Roger Kent, Kennedy's California campaign chairman, contends that Eisenhower — on a cross-country speaking tour which the White House has billed as nonpolitical — made a partisan campaign speech Thursday night before San Francisco's Commonwealth Club. The President's speech was carried by radio and television stations in the area.

James C. Hagerty, presidential press secretary, declined comment on that charge but said Kent didn't know what he was talking about in declaring Eisenhower had asked for free TV and radio time.

The President, traveling on to San Diego, Calif., today for a mid-day speech, did not mention Kennedy by name in his talk to an audience of about 1,900 at the Commonwealth Club dinner.

There was a round of applause when Eisenhower said, "While maintaining a healthy critical insight, let us not be misled by those who, unexpecting, seem so fond of deprecating the standing, condition and performance of the entire nation."

"Surely we must avoid smugness and complacency. But when in the face of a bright record of progress and development, we hear some misguided people wall that the United States is stumbling into the status of a second-class power and that our prestige has slumped to an all-time low, we are simply listening to debasement of the truth."

Kennedy has contended that United States prestige abroad deteriorated during the Eisenhower administration.

The Democratic candidate has declared he does not regard this country as a second rate nation. He has said America is strong but needs to be stronger in the decade ahead because of the Soviet Union's gains in military might and in its economic growth.

The President's speech was made public in advance of delivery. Even before he went before his dinner audience, the Kennedy camp was firing back.

Kent said there was no question the address was a partisan campaign speech.

"It is a mockery of justice for any office-holder—including the President of the United States—to ask free radio and television time for an openly partisan, political speech unless equal free time is given to the opposition."

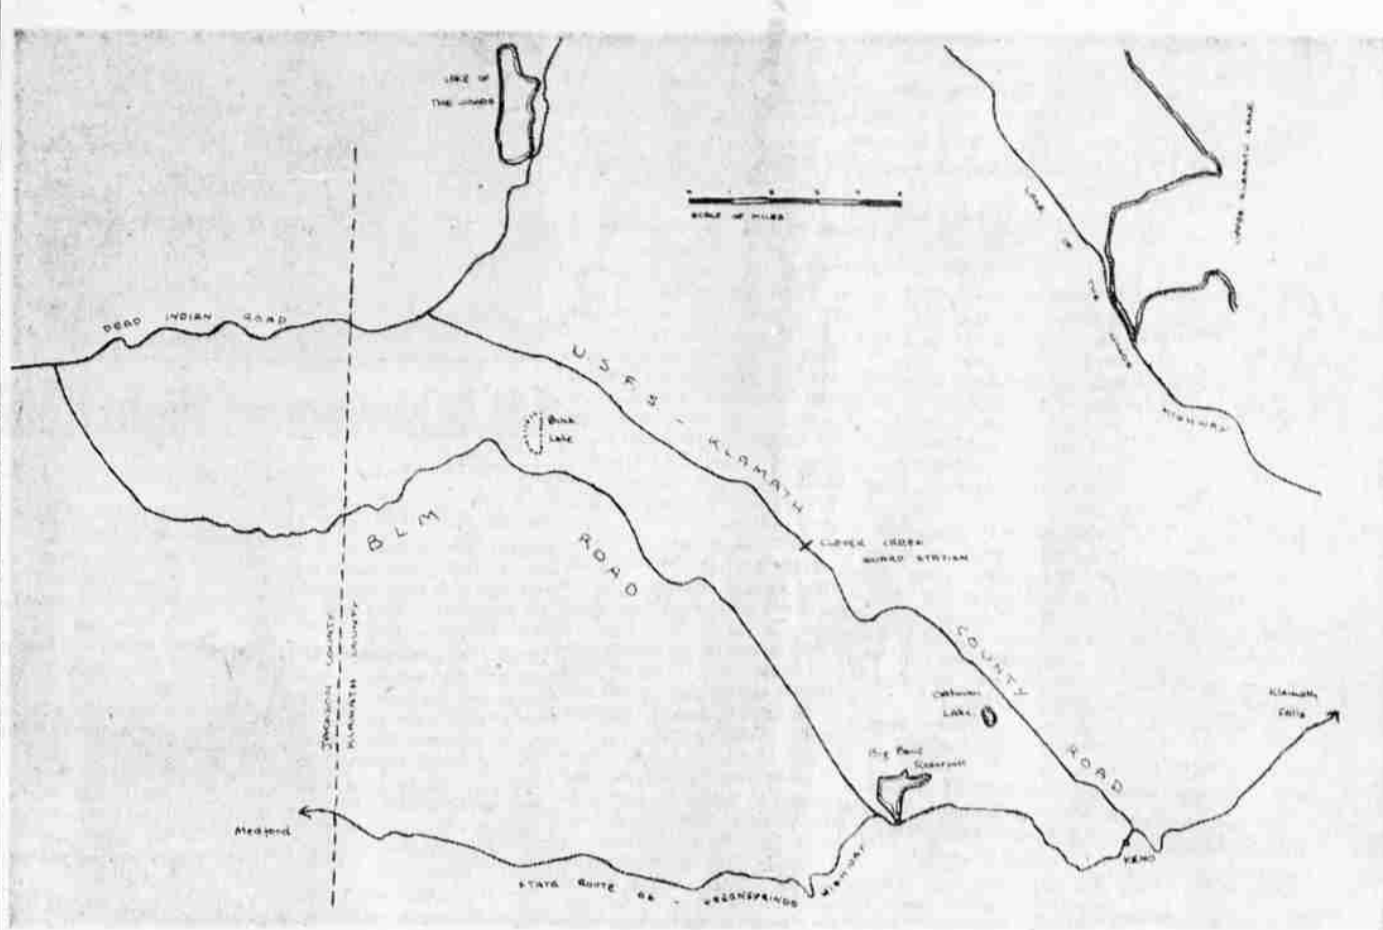

Robert H. Finch, Nixon's campaign director, leveled the attack at Kennedy as the vice president prepared for the last of the televised campaign debates tonight.

Finch said a five-minute televised political commercial which appeared in New York Thursday was altered by Kennedy technicians. They changed the sequence of appearances, Finch said, to portray Nixon as agreeing with Kennedy during a single speech by the Democratic candidate.

Aid To Laos To Resume

VIENTIANE, Laos (AP) — The U.S. Embassy in Laos finally got orders today to resume military aid to the Laotian army, five days after the State Department announced the resumption.

An embassy announcement did not specify whether the pay was to go only to forces controlled by the neutralist government of Premier Prince Souvanna Phouma, or whether soldiers supporting rebel right-wing Gen. Phoumi Nosavan would also share.

TWO ROADS, being built by different agencies, will provide access to timber in the area south of Lake of the Woods. One would be built by Klamath County and the U. S. Forest Service as a joint project; the other would be built by the Bureau of Land Management.

Protests Mount

30 College Professors Blast Deport Decision

PORTLAND (AP) — Protests mounted today against the imminent deportation of two workmen who once joined depression organizations now listed as subversive.

Thirty college professors at Portland are the latest to join in the protests. They signed a petition to President Eisenhower urging clemency "until such time as Congress may act to reconsider their appeals."

One of the men facing deportation is William Mackie, 51, a house painter who is scheduled to be deported Sunday.

The other is Hamish MacKay, 55, a carpenter who came to this country from Canada when he was 21. He is married and has sons 25 and 17 years old. He is scheduled to be deported Monday.

"I'll go with him," said his weeping wife as the time grew near. MacKay, who said he has had difficulty getting work because of the deportation stigma, added he has no job prospects in Canada. He wondered if unemployment help would be available in Vancouver, B. C. He designated that city for his deportation. He said his sons may stay behind.

Sen. Wayne L. Morse, D-Ore., introduced bills this year to stop the deportation, but Congress adjourned without acting on them. He has indicated he will introduce them again if the deportation can be stopped.

The Immigration Service said, however, it is going ahead with the deportations unless the President or a court intervenes. Attorneys for the two men have asked presidential clemency.

They also have asked a court injunction, attacking constitutionality of the McCarran Act of 1949, the law under which the men are to be deported.

An earlier court action for the men lost in a 5-4 decision by the U. S. Supreme Court.

The troubles of Mackie and MacKay stem from the depression of the 1930s, when they joined organizations working for unemployment relief. Those organizations now are listed as subversive. An Immigration Service officer ruled that Mackie was a Communist, but both Mackie and MacKay deny they were Communists.

Hot Canary?

It wasn't Santa Claus who came down Mrs. F. C. Adams' chimney Thursday morning.

Mrs. Adams, who lives at 1929 DelMoro Street, called police Thursday morning to report that a large bird had come down the chimney and showed no intention of going back up.

Patrolman Fred Olin was dispatched to the scene. He found the bird wedged into a corner behind a cabinet, virtually impossible to reach. Olin described the bird as being "a long-billed bird twice the size of a robin."

A half hour later, Mrs. Adams called the station again and said that the bird was in the kitchen and had broken some dishes. This time Olin was successful; he caught the intruder and set it free to fly again another day.

Mrs. Adams is considering plugging up her fireplace.

AT&T Requests Authority To Put Up Orb

WASHINGTON (AP) — American Telephone & Telegraph Co. today asked authority to put up a space satellite as the first station in a proposed international communications system. It said it wished to do this within a year.

The first station, the company said, would be telephone experimental transmission of voice calls, television and other types of communication between the United States, the United Kingdom and Europe.

This would be the first satellite launched under private, as distinguished from government, auspices and the first commercial application of satellites.

Henry T. Killingsworth, AT&T vice president in charge of long distance service, said: "We believe the commercial application of satellite communications is a job for private enterprise. This new project is still another indication of our readiness to take on that job and pay our own way."

In applying to the Federal Communications Commission for the necessary authorities, AT&T said it is now prepared to contract for the launching of the satellite and to proceed with construction of ground transmission and receiving stations.

In Same Area

Government Agencies Plan 2 County Roads

By TOM STIMMEL
Separate governmental agencies are planning to build two separate roads in the same area of Klamath County.

For almost half their length, the two roads would be roughly parallel — at distances from two to six miles apart. At their greatest distance, they would be nine miles apart.

Construction of both roads is expected to begin within a few weeks; completion is expected late next fall.

The roads are designed to reach different timber areas south of Lake of the Woods. They would be similar, however, in many respects.

Both would link State Route 66 near Reno with the Dead Indian Road south of Lake of the Woods.

Both would be designed to reach timber desperately needed by lumber mills here and in Medford. Their secondary function would be fire control, recreation, hunting, and camping access.

High Standard Roads
Both would be two-lane high standard roads of a quality considerably greater than usual timber access roads. They would be cleared and graded now, and surfaced with cinders or rock later.

Considerable doubt has been expressed whether two roads are necessary, particularly on the lower, parallel portions.

"They agreed right here in our own room that they didn't need it," said County Judge Bob Walker. "We thought we had them talked out of it."

The "they" Walker referred to is the Bureau of Land Management.

Challenge Given Nixon

NEW YORK (AP) — Sen. John F. Kennedy today challenged Vice President Richard M. Nixon to declare during his television debate tonight that he is willing to meet Kennedy again before a nationwide TV audience.

The Democratic presidential candidate wired his Republican opponent:

"Only in this way will the American people be able to evaluate the arguments and issues which are raised in the closing days of the campaign."

Kennedy told Nixon, who has consistently said no to a fifth TV debate, "in fact I believe that more than five debates would be helpful if the record were to be corrected properly."

"If you should relent in your opposition to further debates—and I invite you to do so tonight's debate—I hope your representatives can contact mine to work out one or more dates at the earliest opportunity."

Kennedy sent the telegram to Nixon as his staff happily seized on a windfall assist from a Republican senator in preparing for tonight's debate, the last scheduled under existing arrangements.

Dollar Price Of Gold Shows Decline

LONDON (AP) — The dollar price of gold dropped to \$36.40 per fine ounce by the close of transatlantic dealing on the London bullion market today.

The day of relatively low traffic seemed to signal at least a temporary end to the frenzied speculative activity that gripped the world's gold markets this week, reaching its climax in Thursday's feverish trading.

Dealers on the London bullion market fixed the day's opening price at \$36.40 a fine ounce. This compared with the top price of \$40.60 reached during feverish dealings Thursday.

The official U.S. Treasury price is \$35 an ounce.

Queen Launches Atom Sub

BARROW-IN-FURNESS, England (AP) — Queen Elizabeth II today launched Britain's first nuclear submarine, the 3,500-ton Dreadnought.

The whale-shaped vessel — designed to kill other submarines — slipped gently into the water after the queen had given her the famous name.

The ceremony, on the 153th anniversary of the Battle of Trafalgar, spotlighted the great advance in designing undersea craft made in America. Dreadnought's nuclear engines are of American design.

Freight Increase Given Railroads

WASHINGTON (AP) — The Interstate Commerce Commission today authorized the nation's railroads to hike their basic freight rates effective next Monday, Oct. 24.

However, the commission temporarily suspended proposals for various increases in special rail service charges pending further investigation.

The railroads gave public notice of the proposed increases in late September, on a basis designed to yield \$147 million additional revenue annually.

In approving the major part of these proposals, the commission made no immediate estimate of subject to further review and possible revocation.

All of the increases were allowed on a pledge by the railroads that refunds will be made to shippers in any case where the hike is later found by ICC to be unreasonable.

US Embargo Places Cuba In Difficulty

HAVANA (AP) — Cuba's economic czar said Thursday night the U.S. embargo on most exports to Cuba will not seriously harm the island nation partly because black marketeers in the United States will defy it.

Ernesto Guevara, president of the National Bank, conceded that Cuba faces difficulties. He said the nation "must have confidence in the solidarity of the nations that have offered to stand by us, extending economic aid and even volunteering, figuratively speaking, rockets" — an obvious reference to Soviet Russia and the Communist bloc.

Guevara spoke on a two-hour TV program before leaving today with eight other officials on a trade-building trip to the Soviet Union, Red China, Czechoslovakia, North Korea and East Germany.

Black marketeers in the United States have worked against Washington's trade bans in the past, and they will evade this one, Guevara declared.

Guevara said that "there is a serious threat" of what he called U.S.-financed invasion in the near future from Guatemala.

"I believe they'll come," he said, "but I also believe they will never get out."

The Castro regime tightened its state control of the economy today by decreeing that all future imports will be handled only by the government's Bank for Foreign Trade.

Commerce Minister Raul Cepero Bonilla signed the decree, which puts controls on all imports in the hands of the new bank.

Preparations Finished As Spud Festival Opens

By RUTH KING
MERRILL — It takes more than the wave of a wand to bring about a successful festival.

Today, committees that have been working for many weeks were ready for the opening of the 24th annual Klamath Basin Potato Festival. The two-day fete that will continue through Saturday, October 22, was officially kicked off with the judging of potatoes, other agricultural and home economic exhibits, potato food entries and flowers from Basin gardens.

Judges named the 1960 state potato growing champion during the morning and results will be announced and awards presented during the banquet tonight in the grade school gymnasium.

More than 300 guests are expected to see the crowning of Queen Donna Micka of Malin who will receive her royal raiment from Secretary of State Howell Appling Jr. The state official will also introduce members of the royal court, Princesses Sharon Bagbott, Tulelake; Carol Merri- loes, Merrill; Patricia Trulove, Chiloquin; Dana Reed, Henley; and Katherine Toffel, Bonanza.

Junior attendants who will assist in the coronation ceremony are Nancy Coulson, daughter of Mr. and Mrs. Carl Coulson, and Nancy Trotman, daughter of Mr. and Mrs. Robert Trotman.

Immediately following the coronation which begins at 6:30 p.m., dinner, catered by the Sportsman's Hotel, Tulelake, will be served.

U. S. Congressman Al Ullman will give a brief, nonpartisan address followed by entertainment arranged by Mrs. Halbert Wilson, Merrill.

Agricultural and commercial exhibits will be open following the banquet and all day Saturday in the high school gymnasium and the Merrill Recreation Hall.

Merrill's tradition for colorful festival parades will continue Saturday when many floats, musical groups and other entries move through town starting at 11 a.m. Lewis Kandra, marshal, will be followed by the beautiful queen's float, made under the supervision of Dan Geany, Tulelake.

Immediately following the parade, a free beef barbecue will be served to an expected 3,000 visitors. Beef, donated by Klamath Basin businessmen and individuals, will be cooked in the

Barrow-in-Furness, England (AP) — Queen Elizabeth II today launched Britain's first nuclear submarine, the 3,500-ton Dreadnought.

The whale-shaped vessel — designed to kill other submarines — slipped gently into the water after the queen had given her the famous name.

The ceremony, on the 153th anniversary of the Battle of Trafalgar, spotlighted the great advance in designing undersea craft made in America. Dreadnought's nuclear engines are of American design.
