Don't Use Ruler In Seeking Wife

By ANN LANDERS

Dear Ann: I'm a business man who has been around plenty tused to be in the merchant marine. For the life of me I don't know why so many guys who write to you with their troubles mention the dimensions of their babes. Maybe that's why they have trouble—they go looking for a wife with a tape-measure instead of using common sense.

One jerk who wrote to you said he hated to lose the chick (who lifted his wallet, yet) and added mournfully, "she's 38-24-34." He wanted to know if she could be "rehabilitated." It would serve the clown right if after he married her she turned out to be 26-24-36. Linger shops have the most amazing gadgets these days. Not only should these morons consider the possibility of an optical illusion, but the shape of things has been known to change with the passing of time and the arrival of three or four kids.

Thanks for letting me have my say. Ann, I couldn't resist the chance to play—ANDY LANDEBS

Dear Andy: Thanks for those words of wisdom. Coming from a male they should have more impact. If more men listened to, instead of looked at, what they were marrying, my mail would be much lighter.

Dear Ann Landers: I'm a widow who is going with a widower. We are both in our 50's, sensible, educated, and we get along well. Lawrence has many friends about whom he speaks often. I have not met them. He has suggested we just drop in on them. I say it's impolite to "drop in" on people. Lawrence says I'm too formal and his friends have expressed a desire to meet me and suggested he bring me over any time.

It is my contention that "drop in anytime" is no invitation. We've discussed this a good bit and he suggested I write to you for the final word. I was delighted, because I've been reading

Beef Group Names Chief

E. E. Davis, North Powder cattleman and recent appointee to the Oregon Beef Council, has been elected chairman of the year. Former chairman of the council was Ted Hyde of Bly.

E. E. (Ernie) Davis was the president of the highly successful "Beef, Inc." promotional organization that was created for the sole purpose of participation in the Oregon Centennial by Oregon's Cattle Industry.

In taking over the duties as chairman of the council, Davis calls the attention of Oregon Cattle Producers to the wide field of assistance through research, industry relations, education as well as promotion in which the council is permitted to participate. Generously supported, Davis pointed out "the council could prove to be most effective in providing the means for immediate action in reaching solutions to many problems that are constantly facing the cattle industry, in addition to necessary promotional activities."

Also appointed to the Beef Council for a three year term as dairy representative is Orville Brown of Gervais. Membership in the council consists of three beef and two dairymen, a cattle leader and an industry representative. The director of agriculture and the dean of the School of Agriculture are ex-officio members.

KEEPING IT SHORT

LOS ANGELES (UPI)—Harold A. Henry, president protempore of the City Council, had an electric sign installed in the council chambers Thursday to prevent long speeches.

When a council member starts speaking, the neon sign will flash "Talk." Ten minutes later, it will flash "Don't talk."

Violators, said Henry, will be "jay talkers."

your column long enough to know what you'll say. So—please say it.—CONFIDENT

Dear Confident: Tell Lawrence that when his friends get so eager to meet you that they tell him exactly when to bring you over (like a specific evening) you'll be happy to go. Not until. A suggestion that you "drop in sometime" is not an invitation. It's a meaningless conversational gambit.

Dear Ann: A child in our neighborhood is mentally ill. When the mother goes shopping she leaves the girl to roam the streets. There are other children in the family but they seem to be busy with their own playmates.

This child is in her early teens now and I'm afraid some unscrupulous scoundrel may take advantage of her. She's not bad-looking but it's obvious that she has the mentality of a 6 or 7-year-old.

Last year I carefully broached the subject to her mother. She lit into me saying she didn't need any suggestions on how to care for her children. Will you please tell me what I can do to help this girl without getting into trouble with the family? — A FRIEND

Dear Friend: Notify the local juvenile authorities. I'm confident they'll come through with the help the girl and her mother need.

NATIONAL FOREST PRODUCTS WEEK ... commemorates the forest industry's contribution to a better way of life with useful products made from wood.

forest product sales provide jobs and pay checks for Northwest people

Today, wood is used in more than 5,000 products—and with the aid of research and new product development, the list grows daily. To produce these products for expanding markets, the forest industry of Washington and Oregon employs 150,000 people, with an annual payroll exceeding \$784 million. These pay checks are spent locally for food, clothing, automobiles, personal services, homes and taxes which support schools and government. Your purchases of products made from wood return important dollars to this area and help insure steady jobs. This in turn contributes to the economic stability of the Pacific Northwest.
