## STOP OILY SKIN TO CHECK PIMPLES!

Don't pick, scratch, squeeze or merely "cover them up"

Doctors know that acne or pimples are caused by the germ called the *acne bacillus*. These germs invade overactive oil glands in the skin, cause blackheads and pus pockets; then your skin "breaks out."

What's needed is (1) to dry up the excessive oil that collects on skin; (2) to destroy acne germs on the skin, and (3) to stop itching and irritation so pimples can heal.

A doctor's formula, liquid Zemo has this effective 3-way action; also keeps skin looking cleaner!
