FREEZER IDEA

Making sandwiches for a crowd or the freezer? It's easy when you set up a production line. First, set out all your ingredients in orderly fashion. Then, spread the bread slices with softened butter or margarine. Next, add the filling to half the bread. Top the sandwiches with remaining slices of bread. Finally, cut and wrap the sandwiches.

Brother, there's a cool figure!

ABOUT 46 CALORIES PER SLICE. A girl with a real cool figure seldom gets left out in the cold. Hollywood Bread let's you watch your diet for there's only about 46 calories in an 18 gram slice. It's vitally packed, too, for there are 16 vegetables and grains in its special formula. De-licious. Your family will love it.
