

A CRIPPLED FREIGHT TRAIN was patched up quickly after three boxcars mysteriously left the Southern Pacific Company tracks at Dunsmuir recently. Traffic was held up only briefly. No injuries resulted. Here a handy rolling crane prepares to remove the wreckage. — Photo by Peggy Walsh.

Club Backs Candidates

DUNSMUIR — Encouragement to women in politics was given at the last meeting of the Dunsmuir Business and Professional Women's Club at the Travelers Hotel.

Mrs. Pauline Davis and Katherine T. MacMillan, both candidates for the state legislature, were endorsed by the club.

Particular emphasis was given to support for Mrs. Davis, incumbent assemblywoman from the Second District.

The program for the dinner meeting was provided by Terri Fawcett who showed colored pictures of Denmark. She spent the summer with a Danish family under the American Field Service program.

She was introduced by Marjorie Young, legislative chairman for the club, who announced the program was in special observance of United Nations Day. Dinner was served on blossom-strewn tables, similar to Danish custom encountered by Miss Fawcett.

The club Educational Fund will be boosted in November by two money-raising activities. A food sale will be held November 10 and on November 14 items of merchandise will be given away following a drawing at the Travelers Hotel. Virginia Martin is chairman of the latter event.

HE'S NO STOOLIE
RENO, Nev. (UPI)—One witness was present when burglars entered the Big Hat restaurant and bar and stole more than \$220 Thursday—but all he would say to police was "Hello Pete" and "Hello Myrtle."

The witness was a mynah bird, which one officer observed "is not the same as a stool pigeon."

Three Boxcars Leave Track Near Dunsmuir

DUNSMUIR—Three boxcars on a southbound freight train left the tracks about one mile north of Dunsmuir recently, and careened into the Sacramento River near Mossbrae Falls.

The derailment did not tear up the Southern Pacific Company main line and trains were delayed less than an hour. The wreckage, as it did not impair the tracks, was not removed immediately.

Shasta Division officials could not determine cause of the accident when they gathered at the scene shortly after it happened. Investigation is continuing. No one was hurt.

Validations Show Increase

YREKA—An increase in deer tag validations this year by the Klamath National Forest was reported by Gene Newton, forest dispatcher. He reported that a total of 693 deer have been validated to date as compared to 569 last year.

Validations in Callahan were the highest—222 and one bear. Mount Hebron was a close second with 281 deer and one bear.

Other stations of the report show Fort Jones, 60; Oak Knoll, 110; Happy Camp, 49 and one bear; and Sawyers Bar, three.

Newton explained that although more than three deer were taken out of the Sawyers Bar area, most of the hunters travel either to Callahan or Etna to have their deer validated.

New Firm Welcomed

DUNSMUIR—A fun party welcoming Slate-Hall-Hamilton Construction Company to this area was hosted on Wednesday night by the chamber of commerce.

Slate-Hall-Hamilton, a Portland concern, has the current contract for the final stretch of Highway 99 Freeway just south of Castella.

Gary Girdler served as master of ceremonies following dinner at the Travelers Hotel. He was introduced by Ted Fay, chamber president.

Guests of the evening included Mr. and Mrs. Elton Slate, Mr. and Mrs. Jim Leimbach, Mr. and Mrs. E. W. Yoder, Mr. and Mrs. Elmer Bruce, Mr. and Mrs. Velt Case, Mr. and Mrs. C. W. Dillon, Mr. and Mrs. Larry Groves, Mr. and Mrs. J. Huckaha, Mr. and Mrs. Lynn Johnson, Mr. and Mrs. Howard Nelson, Mr. and Mrs. Jules Ringsmyer, Mr. and Mrs. C. J. Runey, Mr. and Mrs. A. H. Seim, Mr. and Mrs. Maurice Stratton, Mr. and Mrs. Ellis Engle, Mr. and Mrs. Gus Robrecht and Mrs. Charlotte Thornton.

Townpeople were also introduced with comments about their roles in the community. Invitations were extended to the new residents to join in community activities. Businessmen and women brought their respective spouses to this social occasion and over 100 persons were present.

First ship recorded to be sunk by a submarine was the U.S. Navy's Huzatonic, sunk by the Confederates off Charleston in 1864.

J. S. GOTNER, Kansas City, a recent visitor to Mount Shasta, has often been mistaken for Will Rogers. Gotner has the same mischievous grin as did Rogers. His hair appears to be unruly as was the Rogers trademark, and the two men were about the same age.

Supervisors Approve Proposal

YREKA — Siskiyou County supervisors approved a proposal last week by County Road Commissioner A. A. Powers to set up a "kitty" containing \$205,000 as a result of larger than anticipated revenues from forest service timber sales this year.

The County Road Department has been notified it will receive about \$500,000 in December as its share of timber sale receipts.

Road department personnel had budgeted for an anticipated \$205,000 timber sale receipts. Thus, the department will be left, happily, with a tidy surplus.

Powers proposed the money pool or "kitty" to be used for cash-basis operation next fiscal year. The department will be able to pay its road building and maintenance bills readily, rather than having to wait for timber sales revenues to arrive, Powers said.

Each year, a quarter of forest service timber sale receipts goes to the county where the timber grew. Half of the county's share goes to the school system and the other half to the road department.

Powers also proposed that about \$150,000 be used for building and developing county shops. He said about \$45,000 will be needed to build a carpentry shop at the present equipment maintenance and radio repair shops, located south of Yreka city limits, and for construction of shops in Etna and Dorris.

Supervisor Earl Ager of Tulelake said Dorris needs a shop badly. None exists there. Supervisor Don Avery, Etna, said the shop there is located too close to a church and Etna Elementary School.

He said he has received complaints that noise of machinery is disturbing to the school and church.

The board authorized Avery to look for a prospective new site in the area.

Lumber Study Being Made

McCLOUD — Shasta-Trinity National Forest officials are cooperating with the forest service forest products laboratory at Madison, Wisconsin, on fir lumber study. Tests for density, structural strength and possibility of using the timber for plywood are being made.

Frank Fry, McCLOUD District assistant ranger, said "a concentrated study is being carried on to increase markets for presently less desirable species. Samples of timber from McCLOUD and Hayfork districts of Shasta - Trinity National Forest are presently being tested."

SISKIYOU COUNTY PEACE OFFICERS Association members hosted several special guests during a meeting recently in Mount Shasta. Shown here are guest speaker J. Everett Barr, left, Yreka, Siskiyou County Superior Court judge; Richard B. Eaton, center, Redding, Shasta County Superior Court judge, and Bill Auman, Weed, California Department of Fish and Game warden and association president. — Photo by Lucile Gaynor.

Dam Work Must Progress, Says Pat

SACRAMENTO (UPI) — Gov. Edmund G. Brown said Friday that simultaneous construction of Oroville Dam with the Feather River aqueducts "cannot be gained—it must move ahead."

And Harvey O. Banks, state director of water resources, said "the problem is one of funding. I'm confident that the Legislature will take whatever steps necessary and the department will take the necessary steps as a high priority item."

Both indicated at Brown's news conference that more money besides the \$1.75 billion bond issue on the November ballot probably will be needed to build Oroville Dam.

Asked if he would ask the Legislature for it, Brown said "I don't know. I would favor not moving ahead on the authorization from the Central Valley project."

The Department of Water Resources now has authority to sell unlimited amounts of revenue bonds for the water project.

Stresses Flood Control
Brown said two consulting firms recommended two ways extra money could be gained—from revenue bonds and by direct appropriations of the Legislature.

Banks said "I think we can raise the money to build the full dam initially."

Brown spelled out his water plan priority again—"getting water over the Tehachapi" into Southern California and "right alongside of it is flood control on Oroville Dam."

"When we lose 39 lives and millions in property damage as in

the 1955 Yuba City floods, that cannot be ignored," he said.

Brown also said that his proposed surcharge on agricultural water for landholdings over 160 acres is valid. The consultants recommended against such a surcharge because it would run into legal difficulties.

Hired experts told a news conference Thursday that it would be financially "unsound" to attempt to build the Southern California aqueducts and Oroville Dam simultaneously with the bond money.

But Harvey O. Banks, state director of water resources, said "my assumption is that the Legislature will provide additional funds from some source or other to construct Oroville Dam simultaneously with the aqueducts."

Wants To Delay Dam
The news conference was called so reporters could question state experts and two consulting firms on inch-thick reports issued Thursday on the California water plan.

The reports were filed by Charles T. Main Inc., engineering consultants of Boston, and Dillon, Read and Co. Inc., financial consultants of New York. They were hired for \$555,000 by the department of water resources to study all aspects of the water plan.

They said that the \$1.75 billion bond issue would pay for all but \$57 million of the Feather River Project and the huge plan would pay for itself under these conditions:

—If the start of Oroville Dam were delayed until 1975.

—If construction costs do not increase in the next 30 years.

—And if master water districts

College Prof Gives Talk

WEED — Dr. Phyllis Bush of Chico State College was the keynote speaker during the College of the Siskiyou Future Teachers of America Conference here Saturday.

Her topic and the conference theme was "A Teacher Affects Eternity." Augusto Breschi, COS Italian instructor, spoke on the topic "Teaching in Two Nations—Italy and the United States."

The conference opened with registration and refreshments at 9:30 a.m. Rita Ojeda, FTA president at COS, delivered the opening address. Dr. Ken Young presented a tape recording-slide photograph program called "Tribute to a

Teacher." Bud Nobill, COS student body president, delivered a welcome address to open the afternoon session. Conference delegates then participated in specific panel discussions.

Area Principal Attends Meet

HAPPY CAMP — James R. Foote, principal of Happy Camp High School, represented the school at a meeting at Mount Shasta High School for principals of Siskiyou Union High School District this month.

Carl Hoberg, superintendent of Mount Shasta High School, presided during the luncheon meeting. The principals opened bids for equipment for new school buildings.

All articles, including stoves, refrigerators, washing machines, horizontal bars and tumbling mats, will be purchased from state aid funds.

Other principals attending were F. Freeman, Robert Burrell, Kenneth Cleland and Charles Green.

CANDIDATES!

There's still time to advertise!

Under Bureau of Advertising Direction a study was conducted by the research firm, Leonard J. Bisbing, of Milwaukee, during the 1960 Wisconsin primary. It disclosed that . . .

Only four days before voting, 40% of those intending to vote hadn't decided on a candidate . . . proving that advertising is vital right up to election day.

The Wisconsin study also showed that people most familiar with the candidates stressed newspapers as their prime source of information.

"The American Voter" a book recently published by the University of Michigan Survey Research Center says the same thing . . . "Printed media projected a much stronger image of a candidate."

Herald and News advertising deadlines are two working days prior to publication. The last day for political advertising will be Monday, Nov. 7. Copy for that publication will be accepted up to 5:00 p.m. Friday, Nov. 4.

Let the Herald and News advertising staff help you plan for final political advertising now.
