Key Club Endorses Plans For Little League Diamond

DUNSMUIR — Endorsement of creation of a Little League ball park on land adjoining the community swimming pool was given the Dunsuir Little League Monday night by the Key Club. Members of the Little League Board appeared at the club meeting at the request of Judge A. A. Smith, club president. The Key Club had been instrumental in getting the city of Dunsuir to lease the land in question from the state Division of Highways. The land is eventually slated to become part of a highway interchange and cannot be used for any permanent structure. Support of the project by the Key Club was promised Little League directors who were asked to make specific plans, including a timetable, for ball park development. Final approval of the project will be up to Dunsuir City Council. Gary Girdler offered to serve as the Key Club coordinator with the Little League, and Harold Walsh volunteered to assist with plans and engineering. Dunsuir Little League has used Dunsuir's ball park for the past nine years. This had meant doubleheader games for the six teams now playing in the league. Sid Fischer, Little League director, said he thought the project could be accomplished with volunteer labor. He said parental support of Little League has been very good.
