The Seven Deadly Sins

(Continued)

But although the association can give you facts and ideas, and articles such as this can point out some of the pitfalls and opportunities, only *you* can avoid the seven deadly sins against leisure in your own life.

Let me urge you to make time both for work and for leisure; to develop a capacity to remove yourself from your business or your profession the way that Lord Burleigh, the foreign minister of Queen Elizabeth I of England, did. Lord Burleigh would become a new person and forget the cares of state the moment he changed from his official robes to his private clothes.

Finally, let me urge you to open yourself to your leisure so that the overflow of inspiration from work to leisure, and then again from leisure to work, will infuse each other with a hitherto undreamed-of richness and vitality. And as you seek your true leisure, devote yourself not to the pursuit of happiness but to the happiness of pursuit!
