Declares Farm Produce Can Be Major Aid Factor

PORTLAND (AP)—American farm products can be a major factor in financing foreign aid programs, Sen. Wayne L. Morse said today.

Morse, who is chairman of the Senate Committee on Foreign Relations, said in an address prepared for delivery at the 20th annual convention of the Oregon Seed Growers League Tuesday.

"This country, he said in an address prepared for delivery at the 20th annual convention of the Oregon Seed Growers League Tuesday, has earned tremendous sums in foreign currencies through the sale of American farm products under Public Law 480."

"We have a great opportunity to use these currencies for the aid programs we have been financing with American dollars," Morse said.
