In The Day's News

By FRANK JENKINS
The 40-million-member National Council of Churches, which is meeting in San Francisco, hears a report this morning by its Division of Foreign Missions. The report deals with conditions and problems in two of the hottest spots in the foreign affairs field—the Congo and Cuba.

Here are some of the high spots of the report:
The communists miscalculated in Africa (the Congo).
They have gained a strong foothold in Cuba, but haven't necessarily WON OUT yet.

The Congo report is based on the findings of a missionary — Dr. George Carpenter, of New York, who is one of the secretaries of the International Missionary Council.
He says:
"The communists stalked too much on a very small group of Congolese leftist leaders. But they underestimated the basic INTEGRITY and discernment of most Congolese leaders, who fear Russia and are aware of the danger of falling under communist domination."

Which is to say:
Dr. Carpenter thinks there are DEDICATED people among these Congolese leaders. He doesn't say so in so many words, but he obviously believes we should back these dedicated leaders with sympathy and understanding — not necessarily military force.

The Cuban report is based on the findings of Dr. Howard Yoder. He too is a missionary. His field is Latin America. He says:
"A social revolution was long overdue in Cuba. The fact that Castro accepted (and solicited) communist aid and backing does not necessarily make him a communist." Dr. Yoder thinks Castro probably tried to use the communists to help him set up a dictatorship of his own (perhaps after the pattern of Batista, whom he overthrew) and got caught in the web he spun for that purpose.

The report (to the National Council of Churches, by its Division of Foreign Missions) concludes with these significant words:
"We must not write off REVOLUTIONARY situations as lost to the Christian cause. THE GOSPEL ITSELF IS THE ROOT CAUSE OF CREATIVE REVOLUTION."
Can anyone doubt that?
I think not.
Jesus was the GREAT REVOLUTIONARY of all time.

I can't help thinking that perhaps we need to rely more on the reports of these dedicated missionaries than even on our diplomatic services. More, possibly, than on United Nations, which governs itself by diplomatic procedures.
We need to be brutally realistic on that point. Of necessity, everything considered, our diplomatic services tend to operate in the rarefied upper atmosphere of diplomatic procedures. They seldom get very close to the kind of people who start social revolutions as a means of bettering the lot of the people who live at the lowest levels.

The missionaries (the real missionaries), the DEDICATED missionaries, get CLOSE to the people. They tend to be governed NOT by protocol but by the simple doctrines of Christianity. They feed the hungry. The medical missionaries among them minister to the sick. They mend broken bodies. Things like that IMPRESS the kind of people whose urge is to REBEL against what is in the hope of getting for themselves something that is BETTER than what they have.

This report to the National Council of Churches opens up some subjects that are worth thinking about.

Airlines Buy 80 'Midget' Jet Airliners
NEW YORK (AP)—Eastern Airlines and United Air Lines have signed contracts to buy a total of 80 "midget" jet airliners from the Boeing Airplane Co. for \$350 million.
The two airlines said they have each ordered 40 jet transports. Boeing promised to deliver before the end of 1963.
Boeing President William M. Allen said each plane will cost more than \$4 million.

Weather

Klamath Falls and vicinity — Fair through Wednesday, with low tonight 12-20 and the high Wednesday 30-36.
High yesterday 34
Low last night 13
Precipitation none
This year 4.37
Last year .62

Weather

Northern California—Fair with little temperature change through Wednesday; strong winds today along central coast, and over mountain ridges and passes. Mount Shasta-Siskiyou area — Fair with little temperature change through Wednesday; strong east winds today over ridges and through passes.

Mystery Car In Peyton Murder Said Seen Here

A red car thought to hold an important clue to the brutal Portland lovers lane slaying of Larry Ralph Peyton, 19, was reported to have been seen in Klamath Falls Monday afternoon.
City police said the car, a deep red 1949 Ford, was spotted in front of a laundromat on East Main Street. The informants stated that the car was a two-door model, had a broken grill and had primer spots on both sides and the hood. Two men and a woman were supposedly seen in the car.
This description matches one put out Sunday by Portland police in an all-points bulletin.
Three teenage youths called city police and reported the sighting at 6 p.m. after they read about a similar car in Monday's Herald and News. They said they had seen the car in front of the laundromat during their school lunch hour. The report was too late for police to set up roadblocks and a complete check of the city was made, including motels and hotels. No trace of the car was found.
Peyton's body was found in a wooded area in northwest Portland a week ago Sunday. He had been stabbed 23 times. His girl friend, Beverly Ann Allan, 19, Port Townsend, Wash., has been missing since the murder. It is thought that she has been kidnapped by Peyton's murderer. Young Peyton was a nephew of Calvin and Frank Peyton of Klamath Falls.
City and state police have been alerted in an attempt to relocate the mystery automobile. Persons who have information regarding the car are asked to call the nearest law enforcement agency. A \$1,000 reward has been offered for the capture of Miss Allan's abductor by the girl's parents.

Lillian says "thank you" for helping OPERATION 1-3-9

OPERATION 1-3-9 will feature these drop boxes in each of the banks during the coming week to assist the United Fund in its over-the-top drive toward its \$139,000 goal. As her thanks for the proposed trip to Disneyland, Lillian is urging everyone to boost the United Fund to its necessary goal. These boxes will be available at the drive-in windows of the Bank of Klamath Falls, south suburban branches of U.S. and First National banks, and inside at U.S. and First National and First Federal Savings and Loan downtown.

Baritone Will Sing At Concert

A gifted baritone will highlight the second program of the current series of the Community Concert tonight at Mills School Auditorium.

Theodor Uppman, Metropolitan Opera Association, who has proved to be one of the most exciting and versatile opera stars in recent years, will present an entertaining concert program.
A busy as well as a talented singer, Uppman portrays a wide variety of roles in performances for both the Metropolitan and San Francisco operas, and during the summer when the opera is not in session, he appears on radio and television.

Uppman has sung in every state in the union, and has appeared as major soloist with such major orchestras as those of San Francisco, Philadelphia, Los Angeles, Montreal and Toronto.
He has appeared on "The Telephone Hour," "The Voice of Firestone," and has played leading roles in the Omnibus productions of "The Merry Widow" and "La Perichole."

He will be assisted at the piano by Paul Jackson.
The doors to Mills School auditorium will open at 7:30 p.m. with the concert set for 8 o'clock.
Uppman will open with Christoph Strattner's "I Pray To Thee." His program will include the music of Handel, Mozart, Schumann, Strauss and Verdi in the first half, and Rachmaninoff, Brahms, Berlioz and others in the second portion.

Denies Tale Of Torture

LEOPOLDVILLE, The Congo (AP)—Col. Joseph Mobutu today denied that ex-Premier Patrice Lumumba has been tortured and disfigured in prison. But he refused to release a report by two doctors who examined Lumumba.
Mobutu said the doctors, Belgians serving in his Congolese army, found Lumumba's "general state of health perfectly satisfactory."

He then read from a certificate by the doctors that Lumumba is receiving "all the medical care required of his condition."
The certificate as read said nothing specific about Lumumba's condition but Mobutu said the expert has "one foot slightly sprained and his left eye swollen" as a result of the beating he received from Mobutu's soldiers when they arrested him last week.
U. N. Secretary-General Dag Hammarskjold asked Congo President Joseph Kasavubu to permit examination of Lumumba by the International Red Cross. He said Lumumba's seizure raised general fears for his safety.

U.S. Invasion Threat—By Owls

NEW YORK (AP)—The United States may be facing an invasion of snowy owls from the arctic.
The owls, about two feet long from beak to tail tip, have been seen as far south as Long Island, the National Audubon Society said Monday.
The birds are likely to go on exodus once every four years. The owls—white but flecked with brown—are harmless and are protected by law in New England and New York, among other states. They hunt in the daylight feeding on rats and mice.

Tax Fight Brews On State Ruling

A battle over the new recommendation from the State Tax Commission that fraternal organizations be placed on the property tax rolls is shaping up in Klamath County as well as elsewhere in the state.
County Assessor Hap Caldwell indicated that his office is going to follow the recommendation of the State Tax Commission.
He pointed out that the fraternal organizations of the area have not paid any property taxes in the past.
"We intend to follow the recommendation of the Tax Commission," Caldwell said.
He added, "We are now preparing a letter which will be sent to each organization regarding this decision. An application for exemption is being included with each letter mailed out."
Caldwell indicated that the organizations may submit the application for exemption, but that a copy of the club's charter and bylaws must be included with the application.
He stated that whether the organization qualified for the exemption would depend on how and why the club operates.
"They may claim an exemption," he stated, "if they are an

incorporated literary, benevolent, charitable or scientific institution. "Another section of the statute really spells it out," Caldwell added. He quoted the additional section as reading, "Provided only such real or personal property or proportion thereof as is actually and exclusively occupied or used in the literary, benevolent, charitable or scientific work."
He estimated that property involved would be valued in excess of \$500,000, although this figure was merely a cursory appraisal since no preliminary figuring had yet been done.
Caldwell stated that the tax levies would be made Jan. 1, 1961, on all this property involved. Then, if the property is adjudged exempt such taxes would become null and void.
He expected decisions on the property involved to be made not later than May 1 and indicated that the State Tax Commission would assist his office in making the final decisions.
Whether the organizations involved would take the issue to court should the decisions go against them was not known at this time, although most indicated a wait and see attitude toward the new move.

UF Appeal Gets Hand From Lillian LeFever

The United Fund drive to reach the goal of \$139,000 gets a big helping hand from little Lillian LeFever this week.

Receptacles for persons to drop pledge cards for this special all over the top drive have been placed in all banks in the area. Special provisions have been made for drive-in customers at both the U.S. and First National banks' south suburban branches. Bank of Klamath Falls will also provide a special container for pledges for their customers.
Indoor containers will also be available at U.S. National Bank, First National Bank and First Federal Savings and Loan.

The climax of the week-long promotion will come Saturday afternoon from 3 to 4 o'clock when a special program on KOTI-TV will shoot for the \$20,000 necessary to enable the United Fund to reach the minimum requirement goal of \$139,000 for its member agencies.

Boy Is Killed By Sled Runner

SOMERSET, Pa. (AP)—A boy was killed Sunday when his sled hit into the rear of another sled on his grandfather's farm near here.
Authorities said a runner on the front sled fatally pierced the throat of Daniel J. Lenio, 12, of nearby Stoystown.

Russians Ask Urgent Meet Of UN On Congo Situation

Putnam Wins District Post By Big Majority

Ned Putnam, a logging contractor, won a post on the South Suburban Sanitary District board of directors by a landslide during an election Monday.
He defeated his closest competitor, incumbent Fred Lewis, nearly two votes to one. Putnam's total was 232 and Lewis', 148. Other candidates and the votes they received were:

Arthur Anderson, 91; Ray Bramwell, 61; Ray Broilier, 122; William Goen, 51, and George Schriber, 139.
Putnam will serve for three years beginning Jan. 3. A member of the three-man board is elected each year. Other members are Carl Yancey and Walter Nitzel.

More people than ever, since the district was formed, turned out to vote in this election and their interest may have been prompted by some problems the district faces, including the pending quarter-million dollar lawsuit filed by a contractor involved in construction of the South Suburban area's sewerage system.
Putnam has lived in the Klamath Falls area most of his life. He was born in Long Beach in

1918 and attended high school at Keno. He established his logging contracting business in the early 1940s.
Putnam was married 21 years ago. He and Mrs. Putnam and their two sons, Dean, 19, and Tommy, 7, live at 2742 Homedale Road.
Putnam's business is one of the largest of its kind in Southern Oregon. Some of his trucks and

NED PUTNAM

AF Unveils New Capsule

WASHINGTON (AP)—The Air Force unveiled today an experimental model of a satellite capsule designed to carry a monkey explorer in the most dangerous part of the sky, the lower Van Allen radiation belt.
The Air Force is particularly interested in that region, 600 to 1,000 miles above the earth, as the most likely orbital zone for a hostile satellite.

The 50-pound model was built for the Air Force Ballistic Missile Division, Inglewood, Calif., by Lockheed Aircraft Corp. under a hitherto unannounced contract for about \$80,000.
It is called Alpha ABC, for Advanced Biomedical Capsule, and was put on display at the annual meeting of the American Rocket Society.

The capsule contains a contour couch, somewhat like that of the Mercury capsule, for the monkey passenger.
Col. Ed Cole, director of the bioastronautics office of BMD, said the capsule could be launched with equipment now available, and the recovery system successfully used for the ejection and recovery of capsules from Discoverer satellites.

The capsule would be launched into an orbit in the heart of the Van Allen radiation belt, the area in which scientists dare not send human beings for a protracted stay.

Herter Orders Buying In U.S.

WASHINGTON (AP)—Secretary of State Christian A. Herter has issued an order designed to force countries receiving U. S. aid to spend more of that money in the United States.
The order carries out one of a number of moves directed by President Eisenhower last month to reduce the flow of gold and dollars from the United States to other countries.
It does not force the countries to buy American goods but it forbids them to spend the money in most of the other Western industrialized countries.
The order, issued Monday, put 18 countries and the British colony of Hong Kong on the forbidden list for purchases with U. S. foreign aid money. The State Department said the United States considers them in strong economic shape.

UNITED NATIONS, N. Y. (AP)—The Soviet Union has asked for an urgent meeting of the U.N. Security Council tonight on the Congo situation.

The request for the 8:30 p.m. session was handed to Secretary-General Dag Hammarskjold late this morning by Soviet Deputy Foreign Minister Valerian A. Zorin.
The Soviets want a full airing of the arrest and detention of deposed Congo Premier Patrice Lumumba.

Zorin, current president of the 11-nation council, also circulated at U.N. headquarters a declaration demanding the immediate release of Lumumba, disarming of the army directed by Col. Joseph Mobutu and expulsion of all Belgian civilian and military personnel in the Congo.
The United Arab Republic became the third member of the U.N. Congo conciliation commission to withdraw amid growing doubt that the Asian-African group would ever get to Leopoldville. Guinea and Mali, two support-

Bulletin

UNITED NATIONS, N.Y. (AP)—Soviet Delegate Valerian A. Zorin failed today in his efforts to call an emergency night session of the Security Council on the Congo. Angry Western delegates denounced the move by Zorin, the council president, as arbitrary.
The U.N. announced: "There will be no Security Council meeting tonight."
Zorin had sought the meeting for 8:30 p.m. EST. But Western members made known they did not consider the situation in the Congo as warranting such haste. They said they had not been consulted by Zorin, and charged him with abusing his powers as president.
Members of Lumumba, previously had withdrawn in protest against the decision of the General Assembly

Kiwanis Clubs Will Get Charters

Thursday night will be unprecedented in the history of Kiwanis clubs when three separate clubs receive their charter at special ceremonies at the Willard Hotel.
The newly organized Linkville Kiwanis Club and the Kiwanis-sponsored Key Club at KUHS and the Circle K Club at OTI will receive their charters at a special dinner meeting.
The capsule contains a contour couch, somewhat like that of the Mercury capsule, for the monkey passenger.
Col. Ed Cole, director of the bioastronautics office of BMD, said the capsule could be launched with equipment now available, and the recovery system successfully used for the ejection and recovery of capsules from Discoverer satellites.

A PRECEDENT SHATTERING activity of the Kiwanis Club will be marked Thursday night at the Willard Hotel when three newly organized Kiwanis clubs are chartered on the same evening. Top Kiwanis officials will be here for this event which will feature charter presentation to the Linkville Kiwanis Club and the Kiwanis-sponsored Key Club at KUHS and the Circle K Club at OTI. Shown here are, left to right, Gene Favell, president of the sponsoring club; Dag Laudenschlager, house and reception chairman; Joe LaClair, lieutenant governor of District 15-A; Gary Dawes, house and reception chairman for the Linkville Club; James Crismon, Linkville Club president, and Don Crider, program chairman.

CHRISTMAS TREES, stylized by girls of 55 Girl Scout troops in Klamath Area Council, were displayed to the public Saturday in the First Presbyterian Church, then distributed where they could best be appreciated all over the county — and a few outside it. These girls are Rosemary Johnck of Roosevelt School Troop 70, left, and Sally Elliott, Conger School Troop 79. The public liked the show so well, scouts may have another display next year.
