

Foresters Hear Warning Of Conflicting Interest

VICTORIA, B. C. (AP) — A warning of sharpening conflicts on land-use and a call for reasonable cooperative thinking and planning in the matter were made at the opening session Wednesday of the annual Western Forestry Conference.

President Hugh J. Hodgins of Vancouver, B. C., told the more than 500 delegates from the United States and western Canada:

"Land use policies must recognize the urgency of adopting and following a fully-integrated multiple-use plan whereby recreational, industrial and other uses are combined harmoniously."

He said it was extremely important that the "ivory tower attitude in land use management" be eliminated.

Hardin R. Glascock Jr., of Portland, forest counsel of the West-

ern Forestry and Conservation Association, said:

"Land use conflicts have sharpened. A gigantic, 10-year crash program has been launched to grab lands in the U.S.A., including commercial forest lands, for exclusive and limited recreation use."

"The frantic slogan 'what we get in the next 10 years will be all we'll ever get' is spurring on these efforts."

Hodgins, vice president of Crown Zellerbach Canada Ltd., said the association has an admirable tradition in that it considers forestry matters under two flags.

HIGH RAILROAD

First railroad across the Andes Mountains was completed in 1909. It links Argentina with Chile and is one of the highest railroads found anywhere in the world.
