

Rifkind Issues His Final Report On Plan To End Colorado Dispute

NEW YORK (UPI)—Special Master Simon F. Rifkind issued his final report Tuesday on a plan to end the half-century dispute over the water of the lower basin of the Colorado River.

Rifkind, appointed by the U.S. Supreme Court to hear the case, called for pro-rating use of the water in future dry years between the states of Arizona, California and Nevada.

The decision was a victory for Arizona, which had lost four previous suits filed against California in an attempt to win more water. It abandoned the West's traditional "first come, first served" water priority rule.

Terms of Plan

Under the plan, Arizona will get 2.8 million acre-feet of water a year; California, 4.4 million acre-feet; and Nevada, 300,000 acre-feet when the mainstream flow is 7.5 million acre-feet a year.

When the flow is more than 7.5 million acre-feet a year, California and Arizona will share the surplus equally. However, four per cent of Arizona's share of the surplus goes to Nevada—if that state requests it and the U.S. Secretary of Interior approves.

The plan submitted by Rifkind would allow extensive irrigation in central Arizona. It would remove the doubts of a number of Southwest communities concerning their water supply—including some in

Attorney General Says Service Plan Is Illegal

SALEM (AP)—Atty. Gen. Robert Y. Thornton Wednesday said the dental service plan offered by Dental Services, Inc., constitutes an unauthorized practice of dentistry by a corporation.

Thornton issued the opinion at the request of the Oregon State Board of Dentistry.

The corporation's plan would allow it to keep 75 per cent of the membership fees under contracts with beneficiary members and distribute 25 per cent to participating dentists, he said.

The attorney general said that the dentists in turn would give beneficiary members a 50 per cent reduction on dental bills.

Thornton said a corporation cannot engage in the practice of dentistry for profit by employing the services of dentists.

He said plans such as this are to be distinguished from those of nonprofit corporations, associations

Man, Children Blaze Victims

BEL AIR, Md. (AP)—An elderly man and two of his grandchildren perished in the flaming ruins of a small bungalow Wednesday when gasoline from a broken jar caused a wood-burning stove to explode.

The victims were Charles W. Minnick, 63, and his granddaughters, Ellen Marie Minnick, 5, and Sandra May, 6. Five other children, aged 9 to 14, fled the one-floor frame house before it was destroyed. Flames scorched the clothing of several survivors.

State police said the fire apparently started when a 14-year-old boy was pouring gasoline into a power chain saw in the kitchen and the jar broke, spilling the gasoline under the stove.

Seeks 'No Fee' Lawyer In Gun Case

EUGENE (AP)—Joe Gerske is looking for an attorney who will serve without holding the gun and filed a damage suit against him, asking \$50,000 exemplary damages and \$75,000 for the gun and holster.

Gerske's trouble began in 1953 when he was jailed on a disorderly conduct charge and surrendered his .32 caliber revolver to police.

After serving a six-month sentence, Gerske tried to get his gun back. He says he has been trying unsuccessfully ever since.

He said he determined that Justice of the Peace John Wells was attorney who will serve without pay on the basis of civil rights principles.

Gerske now lives at Vancouver, Wash., where he has a part time job.

REPRODUCTIONS

Biologists, as late as the 16th Century, still were producing books adapted from the writings of Aristotle 20 centuries earlier, according to the Encyclopedia Britannica.
