

# One Killed, 3 Wounded In Shooting

SONOMA, Calif. (UPI)—A man with a .22 caliber rifle killed a Sonoma man and wounded three others in a wild shooting spree Monday night and then surrendered meekly to sheriff's deputies.

William Chamberlain, 30, of Sonoma was being held by police in Santa Rosa on suspicion of murder. Chamberlain identified himself as a hypnotist with offices in nearby San Francisco.

The dead man was Elmer Ghiglioli of Sonoma. His 6-year-old daughter, Sandra, was reported near death with wounds in the head and back, while his 13-year-old daughter, Sharon, was in serious condition with wounds in the stomach and arm.

Ghiglioli's stepson, 21-year-old James Morgan, was shot through the arm but received only a flesh wound.

Investigating officer Robert Hayes said that Chamberlain was visiting friends who live across the street from the Ghiglioli home. He went out "for a breath of fresh air" and went over to the victim's home. He already knew Mrs. Ghiglioli and Sandra since they had been baby sitters for Chamberlain's two children.

When Sandra answered the door, Hayes said Chamberlain tried to kiss her and invited her out to his car. She ran into the bedroom, where her mother, father and sister were sitting.

Chamberlain walked in right behind her. He pulled out the weapon, which had been concealed in his coat, and began firing without saying a word. Ghiglioli was killed outright and the daughters wounded. Mrs. Ghiglioli hid in a closet and was not harmed.

Chamberlain then went out to reload his weapon, according to Hayes.

Morgan, an airman at Hamilton Air Force Base, dove up, Chamberlain walked over to him and fired. Morgan turned and fled, blood dripping from his wounded arm.

Sheriff's deputies arrived moments later after neighbors had reported a family row.

Chamberlain was found sitting in a tree across the street from the Ghiglioli home. He had his gun pointed at unsuspecting sheriff's officers Ted Riss and William Weyl, but he tossed it down and surrendered without a fight.

# France Detonates Nuclear Device On Sahara

PARIS (UPI)—France detonated a nuclear "device" today at its proving grounds in the Sahara Desert. It was the third successful test since a determined President Charles de Gaulle made France a member of the world's "atomic club" 11 months ago.

The government authorities described the device as a "small force," or roughly five times as powerful as the first atomic bomb dropped on Japan in August 1945 by the United States.

The device was set off at 7:30 a.m. (1:30 a.m. EST) at the French atomic test center at Reggane in the desolate Sahara in southern Algeria.

Fallout Precautions Taken

The communique, announcing the test, said that "as in the case

# Cuba's Economic Leader Tells Of Red Promises

HAVANA (UPI)—Maj. Ernesto (Che) Guevara, Argentine-born economic czar of Cuba, says his recent tour of the Communist world produced promises of at least 124 factories and \$50 million in loans from Communist countries.

An account of Guevara's mission published Monday by the pro-government newspaper Revolution said Russia alone plans to build 100 industrial plants in Cuba under the terms of a trade agreement which is expected to make the Kremlin this country's "major economic partner."

Revolution said Guevara also expects Red China to install 24 factories. Czechoslovakia has promised a \$40 million loan which will be used for still more factories and East Germany has promised to lend \$10 million, the official paper said.

In addition, Revolution said, Cuba expects to sell at least 4 million tons of sugar to the Communists at prices above the world market if the United States persists in its refusal to buy Castro's sugar at premium prices.

It was uncertain whether the Castrolites could expect to pick up much actual cash from their trade with the Reds. The terms of the Soviet trade agreement in particular suggested that it would follow the traditional Russian pattern of virtual barter dealings with little cash changing hands.

# Cuba's Economic Leader Tells Of Red Promises

French military authorities refused to say what sort of device it was. It probably was an aerial one, but so small as not to affect aircraft flying in the vicinity. No warnings were issued to airlines flying routes over the Sahara, stirring speculation of an underground blast.

Not A Weapon

The sources said the device was not a weapon in itself but just a stage "before reaching the final size and shape of a tactical weapon."

France is the only nation in the world known to be continuing nuclear device tests. The United States and Russia have agreed to hold off resumption of atomic explosions at least until next spring. Britain also has ended its tests.

The official French announcement said the test was carried out "in the framework of the implementation of the French military atomic program."

# Race Reference Is Eliminated

NEW YORK (AP)—"Race or color" references will be omitted from birth certificates on all babies born in New York City after New Year's Day.

The city will become the first community in the United States to adopt this policy, Health Commissioner Leona Baumgartner said Monday.

The action was taken following protests that color or race information could be used to discriminate against minority groups.

However, the Board of Health will keep the color or race items in confidential medical records of each birth. This will permit public health workers and scientists to make necessary racial and ethnic studies.

# Flemming Is Offered Oregon Post

EUGENE (AP)—The state Board of Higher Education has approached Arthur S. Flemming about becoming president of the University of Oregon.

Flemming has been secretary of Health, Education and Welfare in President Eisenhower's cabinet since 1952. Before that he was director of Defense Mobilization. He will leave the Cabinet next month.

Board and university representatives met in Chicago last week with Flemming, also a former president of Ohio Wesleyan University. Board president Henry F. Cabell of Portland said no decision has yet been reached.

In Washington, D.C., Flemming said the talks were "strictly exploratory on both sides."

If appointed, he would succeed Dr. O. Meredith Wilson, who resigned the Eugene position last July to become president of the University of Minnesota. Since then the acting president has been William C. Jones, the dean of administration.

# Noted Newsman Is Dead

CHEYENNE, Wyo. (UPI)—Tracy S. McCracken, a hustling newsman who built a publishing empire and dominated the Democratic party in Wyoming for two decades, died Monday night—less than a month after he turped down an appointment to the U.S. Senate because he loved his state and his profession. He was 66.

The handsome, gruff-voiced McCracken was the victim of an intestinal attack that struck Christmas Day. Three attending physicians, who had not completed a diagnosis, were preparing him for emergency surgery when he died at 10:10 p.m. MST.

He became ill about noon Sunday and was hospitalized at 10 o'clock that night. He was given almost continuous transfusions of blood until his death. His wife and two sons were with him at the time.

McCracken, once referred to by a national magazine as Wyoming's "Mr. Big," was Democratic national committeeman for Wyoming since 1942. His last year
