

# First-Born Of 1961 'Steals' Spotlight

A first child for Mr. and Mrs. Raymond (Rosella) Hinshaw of Keno took the New Year's baby spotlight from a family of girls and a family of boys.

Young Michael Ray Hinshaw, born just 14 minutes after midnight on Jan. 1, won the Herald and News Stork Derby for his parents. The healthy 7 pound, 3 ounce boy was the first child for the Hinshaws, who came to Klamath Falls from Roseburg seven months ago. Hinshaw is a night janitor for Weyerhaeuser.

The closest challenger to the Hinshaw baby was Russell Leon Casteel, who joins three sisters in the Kenneth Darrell (Carol) Casteel family. Russell, who

weighed 8 pounds, 3 ounces, was born at 3:44 a.m. The Casteels came to Klamath Falls from Greeley, Colo., a year ago. He is a business teacher at Klamath Union High School. The Casteel girls are Christy, 4; Cindy, 2, and Cherie, 1. They live at 184 Dahlia Street.

The third baby of the new year was born to Mr. and Mrs. Leo J. (Margie) Bocchi. He was Thomas Robert Bocchi, who weighed in at 6 pounds, 13 1/2 ounces. He made his initial appearance at Klamath Valley Hospital at 4:44 a.m.

Baby boys are not exactly new and startling for the Bocchis — they already have five: Tony, 8; Jay, 6; Randy, 5; Stevie, 4, and John, 2. Bocchi is a co-owner of the Klamath Falls Pepsi Cola plant. The longtime residents of Klamath Falls live at 5325 Bryant Street.

The Hinshaw baby was born by Caesarean section; the other two were natural childbirths. Herald and News prizes for the first 1961 child included a box of cigars, 48 cans of baby food, gift certificates, two free theater passes, free baby sitting, a deluxe diaper bag, two baby cups, shoes, a baby blanket and three dozen gauze diapers.

"I never thought anything like this would happen to us," Mrs. Hinshaw said. "We are certainly grateful for the useful prizes."

The final baby of 1960 was born to Mr. and Mrs. Ray M. Hoefler, 3128 Crest Street. Little Miss Hoefler, a 6 pound, 15 1/2 ounce girl, was born at 9:05 p.m. Dec. 31. When she is older, she will be happy to learn that 20 more boys than girls were born in Klamath Falls in 1960.

Little Miss Hoefler was the 567th girl of 1960, but she had already been preceded by 587 boys. Klamath Valley Hospital scarcely had time to record its 1,154th baby of the year, when Michael Ray Hinshaw showed up to start proceedings for another year.

# Farmers Gain On Expenses

WASHINGTON (AP) — An Agriculture Department report showed Thursday farmers made some progress in 1960 in overcoming a rising level of prices paid for items used in the production of farm commodities.

The general level of these costs — machinery and other supplies, taxes, interest, and wage rates — ended the year at 304 per cent of the 1910-14 base average. This was an increase of about two-thirds of one per cent during the year.

But the level of prices received by farmers for their crops and livestock and livestock products ended the year up 5 per cent from a year earlier.

The level of these prices was 242 per cent of the 1910-14 base average compared with 230 at the end of 1959, an increase that works out to 5 per cent of the total.

In other words, prices farmers received went up 5 per cent while prices they paid increased less than one per cent. Hence, a given amount of farm produce would buy more at the end of 1960 than at the end of 1959.

Prices paid for goods and services used in the farm family's living ended the year down slightly from a year earlier. These prices were 290 per cent of the 1910-14 base average compared with 291 per cent in December, 1959.

The report said prices paid by farmers for motor vehicles in December averaged about 6 per cent under a year earlier.

Farm wage rates were one of the exceptions in the cost situation. They went up nearly 3 per cent during the year. Interest costs increased about 9 per cent.

**Letters Flay Ann's Advice**  
By ANN LANDERS  
Dear Ann Landers: I'm sure my wife wrote that letter complaining because she ran out of gas three times last month — once on the bridge. Why didn't you tell her that women who share the family car should also share in the responsibility for keeping it going? Most dames don't know anything about a car except how to start it, steer it and stop it. They never pay any attention to the tires, the oil, water or gas. So long as the four wheels move they are satisfied.

Any female who is so dumb that she would drive around and ignore the gas gauge deserves to be stuck. Why didn't you tell the wife off like you do the husbands when they behave like fools? You're so biased against men in your column you make me sick.

—BOW TIE

Dear Bow Tie: You have an excellent point—and I agree I let the dizzy dame off too easy but please read the next letter. It may improve your health.

Dear Ann Landers: Why don't you ever give us wives a break? One more piece of advice against us and I'm going to stop taking the paper.

First you say women ought to iron sheets. Then you come out in favor of ironing our husband's shorts. With these two columns you added three extra work hours to my ironing day. I have six beds going in my house and it's no joke.

The final straw was when that woman wrote and complained because her husband stopped in at a bar every night after work. Sometimes he'd get home three hours late—loaded, of course.

I really did a slow burn when you asked the woman if she was anything special to come home to. Darned if you didn't take the husband's side and say that men who hate to go home usually have a good reason. All a lot of rum-buckets needed was a little encouragement from you, Ann Landers—and you gave it to 'em.

# Hoover Hits Soft Attitude Toward Teen Criminals

WASHINGTON (UPI)—FBI Director J. Edgar Hoover has branded as "muddle-headed sentimentalists" adults who use the term "juvenile delinquent" to describe youngsters committing vicious crime.

The veteran crime fighter said these adults were weaving a "protective cocoon" when they described murder, rape and other violent crimes as juvenile delinquency.

"As a representative of law enforcement, I would like to see the term 'juvenile delinquency' banished forever from our language as a description for vicious acts," Hoover wrote in the January issue of the FBI's Law Enforcement Bulletin.

A better term for youngsters committing serious crimes might be "teenage brigands," Hoover suggested.

He said juvenile delinquency to most persons meant youthful pranks while many of the acts committed by teenagers actually were "nothing less than youthful criminality."

# Will Seek Egg Law Amendment

SALEM (AP)—An amendment to strengthen Oregon's egg inspection laws will be sought from the legislature, James Short, director of the state Department of Agriculture said Wednesday.

"We feel that the inspection and regulation of egg breaking plants should be strengthened for the benefit of the public," Short said, adding that an inspector should be in the plants full time when eggs are being broken.

Such plants take eggs over and above the retail market need and break them up. Some are frozen, some dried, and they are used by bakeries, candy makers and other commercial users, Short said.

This gives an outlet for eggs that are cracked, ill-shaped, oversized and too little.

Law now requires that the plant operator be licensed by the department and that his facilities pass a sanitary inspection.

The plants operate only when such eggs are available, and that often makes it difficult to have an inspector be on hand for breaking.

The plants, he said, would pay the cost of the inspector, who would watch for such things as blood spots or any other unwholesomeness.

# Northern California Senators Hit Gov. Brown's Water Assumption

SACRAMENTO (UPI)—Six Northern California senators Wednesday expressed surprise and disappointment that Gov. Edmund G. Brown's message to the legislature "gave little if any recognition" to water problems.

"The governor seemed to imply that Proposition 1 (a \$1.75 billion bond issue approved in November) contains the answers to the broad range of water needs in the state," the lawmakers said.

But they asserted: "Even if it can be financed and completed, the system outlined in Proposition 1 serves a very narrow number of interests. As outlined by consultants to the state, the system merely is a transmission project to bring water to areas of deficiency."

They charged that the program does not provide for flood control, water conservation, water pollution control, fish and wildlife, public recreation, and development and protection of the Sacramento-San Joaquin Delta.

The senators reiterated an earlier statement that Oroville Dam must be built both for flood control and water conservation purposes.

The senators were Stanley Arnold, D-Susanville; Carl L. Christensen Jr., D-Eureka; Randolph Collier, D-Yreka; George Miller Jr., D-Martinez; Virgil O'Sullivan, D-Williams; and Stephen P. Teale, D-Westpoint.
