WALL STREET

NEW YORK (AP)—The stock market closed higher today as it extended its rally through the second day. Trading was active. Gains of fractions to about a point or more were scattered throughout the list of key stocks. The market was higher from the start, extended its gains in early afternoon and then backed away from its top as profit taking built up. The ticker tape ran late in the final minutes of trading as traders cashed profits on the gains made since Wednesday morning. American Motors was off about a point, weakening late in the day on news of a week's suspension of production. Volume for the day was estimated at 4 million shares compared with 3.84 million Wednesday.

Goldwater Is Chosen

WASHINGTON (UPI) — Senate Republicans today unanimously renamed Sen. Barry Goldwater of Arizona as their campaign chairman. He was reelected after an "air-clearing" exchange with Sen. Jacob K. Javits, New York. Javits told newsmen after a GOP conference had approved Goldwater's reappointment that he is "satisfied that under the ground rules Sen. Goldwater and the leadership laid down we will get along." Goldwater said that the party session "cleared the air" and all of the GOP senators agreed that the Republicans should "go out and elect Republicans and beat Democrats." No opposition candidate to Goldwater was nominated at today's meeting. Goldwater is his party's outspoken conservative and at today's session criticized New York State's "poor" election showing for Republicans under Gov. Nelson A. Rockefeller.

INTER-AGENCY COUNCIL members moved into action for 1961 with the election of new officers at the January meeting in the YMCA headquarters. Left is Naomi French, secretary-treasurer; center, Julius D. Giuntoni, president, and Virginia Dixon, vice president and program chairman.

Council Talks About Projects

Two community projects to be sponsored this year by the Inter-Agency Council, continuance of the annual operation of the Christmas Clearing Bureau and the Christmas Store, were on the agenda of the first of the year meeting Wednesday. The council, which has successfully sponsored the bureau for five years, recommended an earlier opening of the program this season, possibly in mid-November. The store, for those who have the need of aid in the way of clothing and toys, was piloted in 1959 by the Klamath County Welfare Commission. A permanent committee for action on the store during 1961 was named with Wilbur Womert, chairman, to be assisted by Isabelle Brixner and Julia Brown. Work on plans for this year's Christmas season will begin at once. Interesting educational programs for the monthly meetings are planned for the year. Julius D. Giuntoni was vice president; Virginia Dixon, named secretary, and Naomi French, secretary-treasurer.

Klamath Falls Police Arrest Mishap Suspect

A 62-year-old Bonanza man arrested late Wednesday for being drunk on a public highway is suspected by state police of having been involved in a traffic accident that injured a Klamath Falls grandmother and her 5-year-old granddaughter. Willa Maye Smith, 46, 2608 Eberlein Street, and Clara R. Ray, 5, were treated for cuts and bruises at Klamath Valley Hospital and released after a two-car collision just west of the Klamath River Bridge near Kenos. They were passengers in a car driven by William Edward Smith, 51. Smith contacted state police and told them he had been struck by another car. He said his wife and granddaughter had been thrown against the windshield. Investigating officers found a bumper and license plate at the scene of the accident and shortly thereafter found Allie Beavers, 62, Bonanza, and William F. Gray, 83, asleep in a car near the bridge. Beavers admitted that the car had been in a wreck but said another unknown man had been driving. Beavers said the driver left on foot for Medford.

Sen. Morse Is Disturbed Over Break With Cubans

WASHINGTON (AP) — Sen. Wayne Morse, D-Ore., apprehensive over the break in diplomatic relations with Cuba, today sought further information about it. Morse, chairman of the Senate's Latin-American Affairs subcommittee, planned to discuss the matter with Assistant Secretary of State Thomas C. Mann later in the day. "Our relations with Cuba have deteriorated sadly in the last eight years," Morse told the Senate Wednesday. "I think it is unfortunate that in the closing days of this administration, it goes out of office possibly leaving for the new administration a time bomb." Morse said he is not criticizing the government but wants it to "come forward immediately with the facts about this matter, and what our future course of conduct is going to be in regard to our Cuban relationships." He said that a whole complexity of Latin American problems is involved in dealing with Cuba. "Therefore, I sincerely trust that an overwhelming case can be made in support of the course of action which has been taken in breaking diplomatic relations with Cuba," he added.

Benson Hands In Resignation

WASHINGTON (AP) — President Eisenhower today accepted the resignation of Secretary of Agriculture Ezra Taft Benson, effective Jan. 20, and thanked him "for the many contributions you have made to the nation, and especially to its rural population." In submitting his resignation, Benson told Eisenhower, "The groundwork has been laid for the kind of prosperous, expanding and free agriculture that is so basic to a strong, virile, secure America." Benson said agriculture still faces many problems. He said the many farm families and surpluses of a few commodities are heavily excessive.

Lab Talked For Oregon

SALEM (AP) — Oregon stands a good chance of getting a federal research laboratory, Gov. Mark O. Hatfield has said in a letter to the state's congressional delegation. The state's two senators and four congressmen were urged to join in seeking for Oregon a proposed U. S. Public Health Service regional water supply and pollution control laboratory. It would be at Oregon State College. Bills were introduced in the House to establish five regional laboratories, including one in the Northwest, Hatfield said. "I have asked the state Department of Planning and Development to coordinate activities of other agencies in obtaining information to assist in the successful accomplishment..." Hatfield said. The laboratory could be "of great significance to all phases of Oregon's economy, including fisheries, industry, forestry, agriculture and recreation," Hatfield said.

Jobseekers Stamped Oregon's Legislators

SALEM (AP) — The deluge of persons seeking jobs with the legislature was described Wednesday as one of the heaviest in many years. Both House Speaker Robert Duncan, D-Medford, and Sen. Harry Boivin, D-Klamath Falls, said they had received numerous job applications. Boivin is expected to be named president of the Senate. There are 275 positions to be filled including the 80 secretaries for the legislators. Some of these traditionally go to the wives of legislators. Some key workers already are on the job. The chief clerk of the Senate, Meda Cole of Portland, moved in Tuesday along with Assistant Clerk Twyle Zinn, Journal Clerk Christine Helland, Calendar Clerk Jane Watkins and Reading Clerk Rex Adolph, all of Salem. Vern Drager of Salem will be back at the Senate sergeant at arms post. The House will have a new sergeant at arms because Patrick McCarthy of St. Paul was sworn in Tuesday as a Marion County commissioner. Duncan said he was recommending Harry Wells, La Grande, for sergeant at arms. Wells was assistant rules clerk at the last session. He also announced the appointment of Mrs. Jean Birrell, Salem, as chief clerk of the House bills and mailing room. Dr. Frank Roberts, Portland, will move up to the House chief clerk replacing Ruth Renfroe, who is not returning. Richard Kennedy, Eugene, will be reading clerk, replacing Roberts. Other jobs to be filled include some 30 doorkeepers, assistants, pages, clerks and messengers.

Spud Farms Looking To Machinery

SALEM (AP) — Mechanized equipment and local labor will harvest a bigger share of Oregon's potato crop in the future, a state Department of Employment survey shows. The survey, released Wednesday, was compiled from the results of a questionnaire mailed to potato farmers in the state's three main growing areas. A machine salesman in the Central Oregon area estimated that it is about 30 per cent cheaper to harvest potatoes by machine than by hand, the department said. In the Klamath Basin potato area, the survey showed production dropped from 1,960,000 hundredweight in 1959 to 1,606,265 hundredweight in 1960. The total number of workers fell from 1,000 to 588. About 90 per cent of the area crop was machine harvested. An estimated 7,500 acres are expected to be harvested by 1963 by 600 persons in the Klamath Falls area, an increase of 30 acres from the 1960 harvest completed by 588 workers. The survey brought out that employment of potato harvest workers will be more on a local basis. This, it said, is because a more skilled worker is required to man the machines. This was expected to bring a decrease in the need for migrant workers and along with this a decrease in the problems of recruiting and housing the migrants.

Democrat Supports Board Plan

PORTLAND (AP) — Gov. Mark Hatfield's plan for removing state institutions from supervision of the state Board of Control, Wednesday drew the support of Sen. Alfred Corbett, D-Portland. Hatfield's plan calls for putting mental institutions under a division of mental health and the penal institutions under a division of corrections. This plan, said Corbett, is "sensible and administratively sound... it should have strong support among Democrats."

Cafe To Mark Its Reopening

CHILQUIN—Coffee and doughnuts will be served to the public all day Friday, Jan. 6, to mark reopening of Marie's Cafe in its present location. Mr. and Mrs. W. T. Oates bought the Paul Mudge building several months ago and moved the cafe business during the holidays. A dining room to be opened in the near future will be available for meals and meetings for special groups.
