### City Fathers To Change Street Numbers To Names

DUNSMUIR — Three streets in North Dunsmuir will be changed from numbered streets to names of historical interest at the next city council meeting if no valid objections are called to the attention of the council before that time.

A 21-name petition was presented to the council at its last meeting suggesting First Street be renamed Stagecoach Road, Second, Pioneer Way, and Third, Buckboard Lane.

Mrs. Robert Berryhill presented the petition saying names on the petition were those of persons living in the area.

The council favored the change but delayed formal action until the next meeting.

Business firms, including out-of-town firms making regular deliveries by truck in the city, will be publicly discussed by name if they are delinquent in paying city license or garbage fees, it was decided at the council meeting.

City Clerk Elizabeth Gavin was instructed to write those firms whose city license fees are in arrears one year or more informing them that the council will discuss invoking the penalty clause of the licensing ordinance at the next council meeting. It is a misdemeanor to conduct a business in Dunsmuir without a license.

Creation of a public park as a memorial to the Masson family, Dunsmuir pioneers, was suggested to the council by Judge A. A. Smith.

Smith read a letter to the council that he and Carl Clement had written to Nellie Masson asking that she consider sale of the Masson property at upper Soda

### Grange News

**SCOTT VALLEY**  
Six packages of canceled stamps were sent to the tuberculosis hospital in Norway at the January meeting of the Scott Valley Grange Home Economics Club.

Readings from Callie Gordon, Mazie McFall and Bevil Sheffield were the highlight of the program. The members voted to send \$5 to Meals for Millions. The closing verse was read by Sadie DeNure.

Refreshments were served by Mrs. Callie Gordon and Mrs. Cecile Davis.

### School Board Must Announce All Decisions

DUNSMUIR—Decisions made by school boards in non-public sessions must be announced publicly, the board of trustees of the Dunsmuir Joint Union High School has been informed by the district attorney's office. Mike Hennessy, assistant district attorney, confirmed the decision today.

Fred Drake, a parent, informed the board at the December meeting that hazing had taken place at an initiation into an athletic honor society.

At the January meeting the board members issued a statement announcing the matter had been considered at an executive session of the board and "disciplinary action had been taken to the satisfaction of the board."

Board members defended their action saying they had met under terms of the Brown Act which allowed governmental bodies to meet in executive session to consider the qualifications of an individual employee or the hiring or firing of an employee.

Board members acknowledged receiving the letter and stated the matter would be concluded at the next board meeting.

### Fee Hike In Offing

SACRAMENTO (UPI)—An increase in student fees at 13 state colleges is in the offing next fall if Gov. Edmund G. Brown's 1961-62 budget is approved by the legislature in its present form.

The governor set aside \$78.5 million for operating costs at the colleges, a boost of 13.8 per cent, and \$40.4 million for campus buildings.

His budget anticipates an enrollment of 76,900 regular and limited students at the colleges next fall, an increase of 11.5 per cent over current enrollment.

To meet higher costs of such services as health, counseling, testing and placement, Brown proposed an increase in the regular student fee from \$66 a year to \$72 a year. Limited students would pay \$37 a year rather than \$34 a year.

The colleges' \$40.4 million construction budget listed these major projects in Northern California (with capital outlay totals at each campus in parentheses):

- Alameda: (\$9,115,300)—fine arts building \$2,356,500 and science building \$5,415,000.
- Chico: (\$702,440)—Remodel administration building \$410,700.
- Fresno: (\$244,150).
- Humboldt: (\$1,355,815)—Corporation yard \$480,000; outdoor physical education facility \$226,400; parking \$133,500; equip education-psychology building \$115,200 and equip library building \$122,100.
- Sacramento: (\$225,685).
- San Francisco: (\$375,875).
- San Jose: (\$2,818,390)—Working drawings for science building No. 2, \$500,000.
- Cal Poly (\$2,347,075 at both campuses)—San Luis Obispo: remodel administration building \$115,000; site development \$243,000; equip food processing building \$256,900; equip engineering building \$260,100.

### State Would Start Park Program Under Budget

SACRAMENTO (UPI)—The state would take a modest step toward a completely revitalized five-year program for development of the state's beaches and parks under Gov. Edmund G. Brown's new budget.

But total spending on these recreational facilities actually will be about \$7 million less than the \$24 million being spent this year.

Brown suggested a major change in the handling of beach and park projects next year. His budget provides that the projects be paid for from the state's general treasury.

He said the beach and park fund, now built up by oil royalties from state-owned tidelands, will be abolished because this has not provided enough money.

The new 1961-62 budget provides \$17.3 million for beaches and parks next year to start off the \$150 million five-year plan.

The budget for operation of the park system totals \$9,115,366, including \$6,211,666 from the general fund and \$2,903,700 earned from fees at the parks.

The operations budget is \$750,000 above last year's reflecting increases in personnel and workload in such cases as the new operations at Thornton Beach in San Mateo County and Woodson Bridge in Tehama County.

It also includes the maintenance at Squaw Valley State Park, which totals about \$400,000 as balanced against an estimated in-

come of \$100,000 from the con-

session there.

The expansion proposed in the budget includes \$8,137,674 for park programs and \$460,000 for the first phase of Shelter Cove small craft harbor in Humboldt County, expected to cost \$4 million eventually.

The budget includes \$3,727,500 for property acquisition, all of it for expansion of present state

holdings, including: General augmentations for purchases now in progress, \$525,000; Natural Bridges State Park, \$60,000; San Mateo Beaches State Park, \$120,000; Twin Lakes Beach State Park, \$100,000;

Humboldt redwoods, \$329,858; Big Basin redwoods, \$500,000; Bon-die State Historical Monument, \$183,341; Fort Ross State Historical Monument, \$53,812; Grizzly

Creek redwoods, \$170,950; Prairie Creek redwoods, \$181,760; and Sonoma coast \$350,000.

Major improvements and equipment acquisitions for other parks included:

Brannan Island State Park, \$128,776; Columbia Historic State Park, \$184,875; Hearst San Simon State Historical Monument, \$95,000; Hendy Woods State Park, \$293,767;
