Who Owns Book Is Still A Mystery

PORTLAND (AP)—An answer to the question of who owns the Timberline Lodge guest book, in which President Franklin D. Roosevelt's signature leads all the rest, got pushed back at least 10 more weeks in U. S. District Court Monday.

Attorneys and courts have been at this for six years now.

At first there was the question of who owned a lot of things that were listed as "miscellaneous" when assets of Timberline Lodge, Inc., were sold. In time, agreement was reached on everything except the guest book. It remained the sole point of dispute and claimants would not yield on it.

The U. S. government is one claimant. It says the book was put together by the Works Progress Administration and was a part of the lodge itself whose ownership indisputably rests in the government.

Reuben G. Lense is the other claimant. He bought the assets of Timberline Lodge, Inc., when that company, which operated the lodge under lease, went broke.

Lense says the guest book was included as a miscellaneous item. The government says it never was.

After a bit of legal skirmishing Monday, the case was set over to Judge John F. Kilkenny to April 10.

Western Europe Likes President's State Talk

LONDON (AP)—President Kennedy's State of the Union message won wide acclaim in newspapers of Western Europe today.

It even received a kind of pat on the back in Moscow, where newspapers published up to a half page of excerpts, including Kennedy's outline of areas where U.S. and Soviet interests conflict.

No Moscow paper gave any reaction or comment to the speech, but the range of excerpts they published were remarkable. As expected, they included in detail the President's views on the internal U.S. situation, the dollar problem, the recession and school shortages, as well as his appeal to the Soviet Union for scientific cooperation in outer space.

But they also included such items not normally found in Soviet papers as Kennedy's declaration that "we must never forget our hopes for the ultimate freedom and welfare of the eastern European peoples" and his declaration that neither the Soviet Union nor Communist China has yielded its ambitions for world domination.

AP Chief of Bureau Preston Grover cabled from Moscow that such statements were likely to provoke strong reaction in Soviet circles.

In general, the Western press expressed the view that the speech had cleared the international air and might serve to rouse the United States from a long sleep.

The London Daily Express headline — "Wake up, Americans!" — was typical.

The independent Die Welt of Hamburg, West Germany, commented: "The things Americans

Man Caught For Series Of Thefts

HOOD RIVER (AP)—Sheriff Rupert Gillmouthe disclosed today that his deputies, hiding in a farm field through the night, had fired a shot in the air and captured a man wanted for questioning in connection with 25 burglaries in Hood River and Wasco counties.

Gillmouthe said deputies arrested Donald Ray Sollman, 26, The Dalles, in a field near Odell Saturday night and added that Sollman later was charged with the burglary of a service station in Odell.

The sheriff said Sollman had been released from the state prison a year ago after serving two years for a burglary in Klamath Falls.

The vigil in the field began after a rancher found a briefcase, stuffed with items stolen in the service station burglary. Gillmouthe said deputies Arne Udellius and Bob Lynch waited for hours, and then saw a man pick up the briefcase and start to flee. Lynch fired a shotgun into the air and the man halted and was taken into custody, Gillmouthe said.

One of the more recent burglaries in the series of 25 occurred Jan. 21, Gillmouthe said, when the Oregon Motor vehicles office here was broken into and \$372 taken.

Pen Escapee Is Captured

LEBANON, Ore. (AP)—Bernard Otto Uhing, 20, Lebanon, who escaped from the Oregon State Penitentiary annex at Salem Monday afternoon, was recaptured here early Tuesday by guards from the penitentiary.

Prison officials said Uhing apparently had headed home after he walked away from the minimum security institution.

Uhing had been returned to the prison Oct. 14, 1960, as a parole violator after having previously been sentenced to two years in prison for burglary in a dwelling.

Bill Would Require Jury To Indict Without Delay

SALEM (AP)—Chairman George Van Hoomissen of the House Judiciary Committee said Monday he would introduce a bill to require grand juries to return all indictments at once in cases involving multiple crimes.

He strongly criticized Multnomah County authorities in connection with the Garrett murder-arson cases, involving three victims.

The defendant, he said, is being indicted for one death at a time. The first indictment was dismissed, so she was indicted for a second one.

He called this a "shotgun approach."

Van Hoomissen is a Portland Democrat, and a former deputy district attorney in Multnomah County.

The Garrett case to which he referred charged Mrs. Joseph Garrett with murder in the fire death of one of her children, then charged her again in the death of another child when the first case was dismissed.

A third child and their governess died in the October fire at the Garrett home, which the state contends was set deliberately.

Task Force Recommends Land Retirement To Cut Surplus

WASHINGTON (AP)—A special task force has recommended to President Kennedy that the government attack the farm surplus problem through a greatly expanded land retirement program.

The committee said it believes farmers are not ready to support rigid supply control programs at this time.

During the campaign Kennedy had outlined a rigid control program to bring supplies into balance with market demands and to raise farm prices.

The report was prepared by Lauren K. Soth, editor of the Des Moines Register and Tribune; J. Norman Efferson, dean of the College of Agriculture of Louisiana State University; and Jesse W. Tapp, vice president of the Bank of America at San Francisco.

Kennedy went over the agricultural situation Tuesday with members of this task force, as well as with heads of special groups assigned to problems affecting wheat, feed grains and cotton.

The Soth-Efferson-Tapp group report said that if the grain surplus is not brought under control by means of land retirement, it will spill rapidly into the livestock industries, resulting in expansion of meat, dairy products and poultry products and sharply lower prices and net incomes for the producer of these products.
