

# Modoc County Festival For Students Scheduled

ALTURAS — Modoc County's unique and third annual academic festival for elementary school students will be conducted the afternoon of March 17 at Veterans Memorial Building and Alturas Elementary School.

The event has been planned to include four major areas of study. They are arithmetic, penmanship, science and spelling.

The first festival was conducted in the spring of 1959, as an extension of the annual county spelling bee. About 150 youngsters participated then.

Last year's festival attracted more than 300 youngsters, and school authorities are hopeful of a corresponding increase this year.

testants. The test will be entirely written and will include addition, subtraction, multiplication and division of whole numbers, fractions, mixed numbers, decimals and percentages.

The test will examine fundamental knowledge more than speed. Thirty minutes will be allowed for completion of about 50 problems. The order of finish, however, will be noted as papers are turned in. The earliest paper will win in event of a tie.

The penmanship exhibit: Each teacher may submit one example of a student's work from each level he or she supervises. Any subject matter may be submitted and the subject should fit the age level involved.

The exhibit should measure about 8 1/2 inches by 11 inches. Work need not be signed, but the student's name should be written on the back. Exhibits will be returned only on request.

The math and written spelling contests will begin at 2:30 p.m. in Veterans Memorial Building and the oral spelling test for finalists at 3:15 p.m. there. The science fair and penmanship exhibit will be open to the public in the elementary school on Fourth Street from 3 to 9 p.m. in the multipurpose room.

Awards will include the Modoc Record Spelling Bee Trophy to be kept for a year by the winning school, the Veterans of Foreign Wars Math Match Trophy, also to be kept for a year by the winning schools, and gold, silver and bronze medals for first, second and third place winners, respectively.

Each participant or group of participants will receive an appropriately inscribed certificate of recognition.

Science fair exhibits should be in place by 3 p.m. March 17 at the elementary school. The multipurpose room will be open for placement the previous day from 2 to 6 p.m.

Penmanship exhibits should be brought or sent to the county instructional materials center by Monday, March 13.

Science contestants are warned not to display dangerous chemicals. Open flame, explosives, poisonous snakes and animal starvation experiments will not be allowed.

The math match: Students are eligible in the same manner as spelling bee con-

## Jenott Elected Employe Chief

YREKA — John D. Jenott, an employe of the county assessor's office, was reelected president of the Siskiyou County Employes' Association recently.

Results of the election were announced last week.

Kenneth Bley of the county recorder-auditor's office was elected vice president; Mrs. Betty Pitman, secretary; Helen Solus, treasurer, and Gerald DeRose, Don Carey, Mrs. Wand Whitman, Mrs. Cathy Solus, Mrs. Frances Lowell, Mrs. Mary Jane Corcoran, Cliff Geibner, Harry Solus and Garland R. (Bob) Eastlick, Executive Committee members.

## Railway Lists Profits Decline

SAN FRANCISCO (UPI) — Southern Pacific today reported consolidated net income for 1960 totaled \$66,425,000, or \$2.41 per share of capital stock, as compared with 1959 earnings of \$69,750,000, or \$2.57 per share.

President D. J. Russell said the net income in 1960, without tax referrals, would have been \$1.95 per share as compared with \$2.13 a share in 1959.

Russell said the drop in earnings resulted primarily from smaller revenues as carloadings fell off after the first quarter of 1960, reflecting declines in general business and construction activity.

The popular early American flintlock called the "Kentucky Rifle" actually was developed in what is now the state of Pennsylvania.

# Siskiyou Road Fund Determined

YREKA — State Department of Public Works announced recently apportionment of \$12,555,333 in state and federal funds to California counties for construction of county roads included in the federal aid secondary system. Siskiyou County's share for 1961-62 amounts to \$288,529, of which \$188,529 is federal money. A total of \$100,000 is supplied from the state highway budget.

The 1961-62 allocation includes \$8,457,807 from the federal government and \$4,097,000 in state matching funds.

The federal funds are allocated to the various counties according to a formula used by the federal government in distributing federal aid secondary road funds to the states and to mileage of certain classes of rural mail routes.

The money from state sources is for the use of counties in matching federal funds on basis of approximately 60 per cent federal to 40 per cent local funds.

According to state law, \$100,000 is the maximum amount which may be made available to a county in any fiscal year for use in matching federal allocation.

McCLOUD — John Peracchino, McCLOUD Junior High School principal, said the eighth grade mathematics class had been divided into two groups in the local school. Purpose of the division was to place the more advanced group in an advanced class and to place the other students in a regular class.

The teachers have asked the parents' cooperation in the project and are making plans for a parents' workshop session one night a week for a four-week period. They will explain the eighth grade program and better equip the parents to understand what they are trying to accomplish, Peracchino said.

## Advance Class Is Arranged

The money from state sources is for the use of counties in matching federal funds on basis of approximately 60 per cent federal to 40 per cent local funds.

According to state law, \$100,000 is the maximum amount which may be made available to a county in any fiscal year for use in matching federal allocation.

**"I tell you, Orville, it will never fly!"**

But Orville was right — it flew — and today man is conquering space.

You, too, are conquering space . . . in a different way . . . when you use the advertising columns of this newspaper. For many years, a newspaper's circulation was what a publisher said it was. Advertisers like you had no way of knowing where or to whom their messages were going.

With the help of ABC\* facts . . . and your merchandising experience . . . it is a relatively easy job to place your advertising program into an effective sales orbit.

ABC helps to safeguard your advertising dollars by auditing — actually verifying — our circulation. In auditing and through a published report, ABC provides a great many facts on our circulation . . . facts to help you know and understand our circulation audience . . . facts to help you use our advertising space more effectively.

Not all printed publications that solicit advertising are able to supply ABC facts. Some can't meet the exacting membership standards. Others feel advertisers should be satisfied with unverified claims.

We are members of ABC and would be pleased to show you a copy of our latest circulation report. It will quickly demonstrate how you, too, can conquer space.

# Herald and News

\* This newspaper is a member of the Audit Bureau of Circulations, an association of nearly 4,000 publishers, advertisers, and advertising agencies. Our circulation is audited regularly by experienced ABC circulation auditors. Our ABC report shows how much circulation we have, where it goes, how obtained, and other facts that tell you what you get for your advertising money when you use this newspaper.
