

FOOD DONATIONS for the public fund-raising banquet at Klamath Union High School's cafeteria Monday, beginning at 5:30 p.m., are mounting up, say the sponsoring parents of KUHS a cappella choir and string orchestra members. Pictured with Ron Carter, left, in his grocery store, left to right, are Mrs. R. J. Riley, general banquet planning chairman; Sharon Vinze, a member of the choir committee; Jack Riley, choir president, and Joan Wisner, a member of the choir committee. Funds will help send the youngsters to the Northwest Biannual Conference of National Music Educators Association during spring vacation.

Thirteen Join National Honor Society Group

LAKEVIEW—Five seniors and eight juniors were received into membership in Lakeview Chapter, National Honor Society, at installation ceremonies Wednesday, Feb. 1, in Lakeview High School auditorium.

The seniors were Sharon Drinkwater, Linda Dubose, Nina Evans, Claudia Harris and Carol Kelso. Juniors were Vicki Carlson, Charles Cossey, Nancy Galovay, James Griener, Marvis Klawer, Craig MacKay, Ellen Louise North and Tom Tooke.

Jim Clinton, president of the chapter, was master of ceremonies. Members who look part in the ceremonies were Arpad Kovacs, vice president; Marian Angeles, secretary; Margery Blair, Mike Counts, Mary Jo Deely and Sherry Jarman.

Principal Delbert Milholland gave the history of the local chapter since its inception in the high school in 1935 and emphasized the standing of members in scholarship and school activities.

An innovation this year was the invitation to freshmen and sophomores who had made the semester honor roll. Parents were also invited.

Entertainment was furnished by members selected from the thespian group — James Griener, Mary Lee Scoville and Pete Kimzey. A vocal group made up of Mary Jo Deely, Kerry Adams, Marian Angeles, and Mary Lee Scoville sang three numbers.

The guests were invited to refreshments afterward. Miss Laura Waterman and Mrs. John Blair were in charge.

Winners Named In Klamath Dental Contest

A second grade taught by Mrs. Lucille West at Merrill Elementary School and one taught by Mrs. Betty French at Conger School were named winners of the annual oral hygiene contest sponsored by the Klamath Dental Society with cooperation from the Klamath County Health Department.

Contest results were announced Tuesday. The youngsters were treated to a train and foot tour of Southern Pacific Company facilities here Wednesday noon.

Second place winners were classes at Chiloquin and Mills School, taught by Mrs. Nancy Morgan and Mrs. Julia Cullen, respectively. Chiloquin youngsters toured a South Sixth Street dental office Tuesday noon and city school children will tour a East Main Street dental office Thursday at noon.

Third prize winners received apples donated by a local fruit distributor. They were a class taught at Fort Klamath School by Mrs. Anna Strahan and one taught at Fremont School by Leora Repp.

The contest, say society members, is not to locate dental defects but to encourage good dental hygiene practices in children. It was exclusive this year to second graders.

The contest is local recognition of National Children's Dental Health Week. The theme this year was "A Smile Is To Keep."

PLANS BLAST TEST

LONDON (UPI) — The British Atomic Energy Commission announced plans Tuesday to explode a series of conventional blasts as part of a study of seismic reactions. The explosions, which would not involve nuclear weapons, would be set off in abandoned mines and quarries, and in the English Channel.

Udall Forsees An Era Of Leadership By BPA

WASHINGTON (AP) — Secretary of the Interior Stewart L. Udall said Tuesday he foresees a new era of leadership by the Bonneville Power Administration in economic development of the Pacific Northwest.

"I feel there is a great opportunity for BPA to emerge once again — and as it once was — as a great planning agency and one that is at the economic heart of the Pacific Northwest," Udall said at a news conference.

The secretary described Charles Luce, Walla Walla, Wash., designated to be Bonneville's new administrator, as a top-notch man who will provide outstanding leadership.

"If the Canadian-U.S. treaty is ratified the door will be wide open for a great new era for BPA," Udall continued.

He said he had not considered any proposals which would involve any revenue bond issues by the agency to finance expansions.

"I expect Luce to have a lot of new ideas," Udall said. "I look for great activity in BPA."

The secretary also said: "The Kennedy administration is inching along toward a program to help domestic lead and zinc industries."

He has taken no action on a request by Columbia River basin water user organizations for a moratorium on repayment of some drainage costs. He expects to confer with Sens. Warren G. Magnuson and Henry M. Jackson, Washington Democrats, this week in connection with possible proposed legislation.

He still favors a high priority for authorization of construction of the Burns Creek reclamation project in Idaho and the San Juan-Chama project in New Mexico.

Washington Has \$4 Billion In Refunds To Send

WASHINGTON (AP)—The Internal Revenue Service said today it is distributing more than \$4 billion in income tax refunds as rapidly as possible in an effort to stimulate the economy.

However, IRS Commissioner Mortimer M. Caplin said the job could be done faster if more taxpayers filed their returns early.

"We want very much to pay out these refunds as rapidly as possible to help stimulate the nation's economy during this period of economic slack," Caplin said.

He estimated that refunds would be paid within five weeks on returns filed now.

The deadline for filing income tax returns is April 17 this year because the normal April 15 deadline falls on a Saturday.

Eugene Youth Receives Medal

EUGENE (AP)—Everett Evenson, 16, Monday night received an honor medal "for heroic action at the risk of his own life" in a special ceremony at Washington school.

The award came from the national Boy Scout office as the result of Evenson's action last July 7 when he plunged into the McKenzie River to rescue a struggling swimmer.

The girl he saved was Paula Reed, 16, who was caught in a swift current some 30 or 40 feet from shore near Armitage Park, north of Eugene.

Evenson is the son of Mr. and Mrs. Paul Evenson, Eugene.

Still Mum On Jewel Theft

ZURICH, Switzerland (UPI) — Patricia Lawford, sister of President Kennedy, began a 10-day vacation today in this Alps resort where the snow was as deep as her silence on the theft of \$31,000 in cash and jewels from her New York hotel room.

Mrs. Lawford left New York without filing a robbery complaint in the theft making it impossible for police to prosecute four suspects who allegedly looted her hotel room.

She said nothing in response to questions about the robbery when she arrived here with her sister and brother-in-law, Mr. and Mrs. Steven Smith. Her husband, actor Peter Lawford, was not with them.

New York police had tried all last week to contact Mrs. Lawford, who had reported the loss only to private detectives at the swank Savoy Hilton Hotel.

"She has shown no inclination to cooperate," Detective Chief James Walsh said in New York. "There's nothing more we can do."

Walsh said the police department had turned the case over to Dist. Atty. Frank S. Hogan. The four alleged thieves will be prosecuted on a shoplifting charge unless Mrs. Lawford files the more serious burglary charge against them.

Convict Killed

LANCASTER, England (AP) — Ronald Sheldon, 36, was killed by a train today a few hours after he and three other convicts escaped from Lancaster Prison. Two of his companions were recaptured.

OTI Receives New X-Ray Equipment

The X-ray technology Department at Oregon Tech has received a new mobile X-ray machine. X-ray students Don Garrett, Salem, and Mary Rhea, daughter of William D. Rhea, 2108 Madison, state that while it may be moved from room to room, it is not to be compared with the much lighter portable machine.

This machine has almost all the features of the large stationary machine and is more flexible in that it has a tube that will turn in any direction. The \$3,700 piece of equipment has a 3 millimeter focal spot which is smaller than any of the other X-ray machines in the department.

"This unit has a fractional focal point which will permit magnification without blur," Instructor Charles Jacobi stated.

"This machine has a direct kilovolt reading meter which tells exactly what we are going to get before we get it," the students said. "On other machines you set what you want but that is not necessarily what you get."

The machine has an automatic transformer which automatically compensates for the variations of electricity coming into the machine.

Kennedy's Desk Was Made From Old Sailing Ship

WASHINGTON (AP) — A desk fashioned from the timbers of a British sailing ship of more than a century ago will be used by President Kennedy as his personal desk.

Since her husband is an ex-naval officer, Mrs. Kennedy ordered the massive, richly carved desk made from the Resolute moved from a lower floor of the White House to the President's office.

Former President Dwight Eisenhower used the desk early in his first term during a broadcast from a ground level room in the White House.

An inscription on the desk notes that the president and people of the United States purchased the ship and presented it to Queen Victoria as a token of friendship. The desk was made from the timbers when the Resolute was broken up and presented to the president by Queen Victoria.

Lakeview Man Seeding Area

BEATTY — Mike Deely of Lakeview has been seeding the area burned west of town last August.

Deely is planting various types of grass suited to local range conditions. He uses machinery to plant and cover the seed.

The fire burned through brush and timber from Highway 66 south of the Dice Crane ranch and devastated vegetation on about 3,000 acres.

"A Sweetheart of a Meal" OREGON Fresh FRYER CHERRY JUBILEE

DIFFERENT - DELICIOUS - and TIMELY

- 1 fresh Oregon Fryer—cut up
- 1/2 cup lard
- 1 tsp. salt & pepper
- 1/4 cup melted butter
- No. 303 can red sour pitted cherries
- 1/2 cup sugar
- 1 tbs. cornstarch
- 1 tsp. clove—1/4 tsp. nutmeg
- 1/2 tsp. cinnamon
- 1 tbs. lemon juice
- 1 tsp. red food coloring
- 1/4 cup brandy

Combine flour, salt and pepper in paper bag—add chicken and shake. Arrange chicken in one layer in shallow baking pan. Drizzle 1/2 cup melted butter over chicken and bake at 350 degrees F. 45 to 50 min. Turn as needed. Blend sugar, cornstarch, cloves, nutmeg and cinnamon with cherries, lemon juice and food coloring. Boil til slightly thickened. When chicken is done, place in serving dish and pour cherry sauce over it and serve.

TO FLAME—Place brandy in small cup and warm over hot water. Pour over chicken and light (sugar cubes dipped in lemon extract may be used instead of brandy).
