

The Truth About Radiation

ARE WE ENDANGERING OUR CHILDREN'S CHILDREN?

By MILTON J. E. SENN, M.D.

with Evan McLeod Wylie

*Here is an article no responsible American can ignore;
it is not just for today's reading but for tomorrow's living—a living
in peril unless we face facts and take action*

EDITORS' NOTE: No problem facing the new administration is of more vital importance to our own and future generations of Americans than the proper control of X-ray and fall-out radiation. For that reason, FAMILY WEEKLY publishes this

Dr. Milton J. E. Senn

fearless discussion of the dangers of radiation and proposed solutions by the director of the world-famous Child Study Center at Yale University. We firmly believe this is one of the most important articles you will ever read.
