Lumber Processing Law Prepared

(SALEM AP) — Three Southern Oregon House members said Monday they are preparing a bill for introduction that would require that timber purchased from state forest land be processed within the United States.

Rep. Clarence Barton, D-Coquille, and Rep. W. O. Kelsay and Rep. Sidney Laken, both D-Roseburg, expressed alarm over the present practice of exporting logs to foreign nations.

The proposed bill would prohibit the sale of logs from timber sold by the state of Oregon for delivery beyond the continental limits of the United States.

Kelsay said the bill would be aimed at Japanese timber companies who come into Oregon, bid on the trees, ship them to Japan and then bring the processed lumber back and sell it.

He said this forces the price of the timber up and because of cheap labor the Japanese producer can pay a higher price, ship it back and forth and sell it more cheaply.

Barton said the practice is growing more prevalent every day and may result in temporary economic activity in Oregon over the long haul which would adversely affect the economy.

"Timber grown in Oregon should be manufactured and processed in Oregon for that is where the chief payroll dollar is to be found," Barton said.

"It is easy to foresee the day when Oregon mills will be closed down and Oregon workers will be idle through this short-sighted policy of shipping logs from the United States to be processed by cheap foreign labor," he said.

The three said they felt passage of the proposed legislation would act as a curb on the log export practice and may also be a stimulus to Congress to impose some sort of export controls on federal and privately owned timber.

Maurine Asks Bids On Ships

By THE ASSOCIATED PRESS

Sen. Maurine Neuberger, D-Ore., says she hopes Oregon firms will submit bids for construction of two steel survey ships for the Federal Maritime Board.

The ships will cost an estimated \$150,000 each.

Mrs. Neuberger said that Portland's classification as a class D labor surplus area will not give the city preference over other Pacific Coast cities when the time comes for awarding the contracts.

McArthur In New Charges

NEW YORK (AP)—General of the Army Douglas MacArthur Monday blamed the failure of the United States to follow up its military advantage in Korea for the emergence of Communist China "as a mighty military colossus to threaten the future freedom of all men."

The prepared statement was read by Gen. Courtney Whitney, MacArthur's aide, at a "Soldier for Freedom" award luncheon.

The luncheon honored MacArthur and Philippine Ambassador Carlos P. Romulo, who received "Soldier for Freedom" plaques from the Morris Morgenstern Foundation.

MacArthur's statement said, in part: "... A great nation which voluntarily enters upon war must fight it through to victory or eventually suffer all of the consequences of defeat. We failed to follow that immutable principle and thereby established Red China as a mighty military colossus to threaten the future freedom of all men, when we had within our grasp the control of its ability to wage modern war for generations to come. Let us not make such a mistake again, lest we perish."

It was a difference of opinion between MacArthur and former President Harry Truman over the grand strategy for fighting the war in Korea that led Truman to relieve MacArthur from his Far Eastern commands.

MacArthur advocated bombing China and Manchuria and attacking the Chinese Red mainland with Chinese Nationalist troops. He also wanted a naval blockade of China.

Truman said if MacArthur's policy were followed "we would be running a very grave risk" of starting world war III.

The awards were presented MacArthur and Romulo at MacArthur's apartment in the Waldorf Towers. The luncheon, which MacArthur did not attend, followed.

More than 1,000 patents were issued to inventor Thomas A. Edison.

Beck Indictment Upheld

WASHINGTON (AP)—The Supreme Court Monday reinstated an indictment charging Dave Beck, former teamsters union president, violated the Taft-Hartley Act by accepting a \$200,000 loan from trucking interests.

U.S. District Judge Sidney Sugarman in New York ordered dismissal of the indictment on Feb. 18, 1960.

He also dismissed accusations against two trucking company officials and three companies named in the indictment.

Justice Frankfurter delivered the 8-1 decision. Justice Stewart dissented on the ground the high court should decide whether the loan came within proscriptions of the law.

Sugarman ruled that a Taft-Hartley law amendment in 1959, to prohibit passage of loans or other things of value between an employer and a union official, did not apply to the Beck loan which was made in 1954.

The Justice Department, appealing directly to the Supreme Court, argued that the 1947 Taft-Hartley law covered the transaction by making it unlawful for an employer to pay or deliver to a union official "any money or other thing of value."
