

Uneasy Wife Needs Help

By ANN LANDERS
Dear Ann Landers: Is it possible that I am allergic to my husband? I'm perfectly fine every day after he leaves for work. I hum and sing as I do the housework. The minute I hear his key in the lock my heart begins to pound like a hammer. I feel faint and sometimes I get dizzy. Often during dinner I am nauseated and can only pick at my food.

house since I was six years old and I love it. I've grown up with the same kids and our high school is the greatest. My father's business is 10 miles away. Suddenly he has decided he hates to drive so much and he wants to move. The thought of not graduating with my friends makes me sick. I've tried to make my dad see how important this is to me but he says it's childish and that once I'm in another school I'll forget all about this one. Please, Ann, help me. I am getting physically ill over this. — CRACKING UP

Dear Cracking: If this means so much to you why not ask for permission to room and board with a close friend's family five days a week and go home weekends? Such an arrangement would let you finish high school with your friends and would solve your problem neatly. Good luck.

When we visit friends or relatives together I feel uneasy and sometimes I shake for no reason. When I see these people without him I'm perfectly at ease. My husband is a domineering man. His relatives call him "Mr. Always Right." It seems as if I am always on the defensive. What does this sound like to you? — ALWAYS WRONG

Dear Always: You're on the right track. Your awareness that the presence of your husband has a harmful physical effect on you is a good beginning. Many women go through life half sick, with the foggiest notion of what ails them. (Sometimes it's a mother, a mother-in-law, a brother or a Dutch uncle.) You need outside help. Ask your doctor to have a talk with your husband. And ask him if he thinks both you and your husband need therapy—or just you.

Are you tempted to smoke because the crowd does? If so, send for Ann Landers' booklet, "Teenage Smoking," enclosing with your request 10 cents in coin and a long, self-addressed, stamped envelope.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped, self-addressed envelope.

Dear Ann Landers: The other evening I wandered into a cocktail lounge and seated myself next to an attractive woman at the bar. She seemed friendly so I was friendly, too. After about 10 minutes of conversation she made it plain that she'd like dinner and a night on the town. I was interested in a more intimate evening. She called the manager and asked that I be thrown out. I was.

What I want to know is this: I've always understood that a single woman in a bar who is easy to talk to is fair game for a proposition. Why should she be "insulted" and ask the manager to throw out a guy who asks? She could decline the offer without raising a fuss, couldn't she? Your opinion, please.—PLAYING IT STRAIGHT

Kennedy Tops In Publicity

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON (AP) — President Kennedy may someday get political pneumonia from over-exposure in public. But not now. Meanwhile, he is doing a unique job of public relations in the White House.

A president's popularity is at first ways at a high mark in his first few months. So any danger that Kennedy will wear out his welcome must come later.

What is unique is that he is trying to establish as much personal contact as possible with the people on TV, before news cameras and in public statements. No matter what his purpose, he is also providing an education in the presidency.

Last week, for instance, TV showed him in his office conferring with his budget bureau aides and talking on the phone during the Congo crisis with Ambassador Adlai E. Stevenson at the United Nations.

Sunday the New York Times magazine section had four pages of pictures of Kennedy at work in the White House with his assistants, advisers and department heads.

He already has had four televised news conferences, three of them live.

There was no TV in President Roosevelt's time. He couldn't get

around much because of his confinement to a wheel chair. His only direct contact with the masses was as a voice over the radio.

Thus he had to depend mostly on the magic of his voice to create a sense of himself. His news conferences, which he used for all they were worth to get his ideas across, appeared only in print.

President Truman completely lacked a dramatic sense. He, too, had to depend on news conferences and almost entirely on radio to reach the public directly.

President Eisenhower had TV, which he used from time to time to make statements or explanations. Otherwise, his public appearances were mostly on journeys or on TV news conferences shown hours after they occurred.

Any sight of Eisenhower in the White House was usually formal.

Kennedy's attempts to make the country conscious of him as an individual and as a president parallels in a way the public appearance technique he used when he represented Massachusetts in Congress.

When he ran for the House he

used neighborhood receptions to meet a lot of people personally at one time. He did the same on a statewide scale when he ran for the Senate.

For some years before he sought the presidency he was forever moving around to meet people, individually or in groups, to establish personal contact and build an image of himself as a man for the White House.

He is not running for anything now. But he is trying to establish himself clearly as a leader, particularly when dealing with Congress. If he can line up wide public support, his task with Congress will be easy.

In addition, his activity gives a sense of movement, which is important for him to get across to the vast and slow-moving government bureaucracy.

Kennedy is said to have been greatly impressed by Richard E. Neustadt's acute book, "Presidential Power." He has brought the Columbia professor into his camp as an adviser on government.

Neustadt went into great detail on a president's public relations

Solons Ask Travel Gap Be Closed

WASHINGTON (UPI) — The Senate called up for debate Monday the administration-backed proposal to close the "travel gap" causing a \$1 billion a year overseas drain on U.S. gold reserves.

The bill has the bipartisan sponsorship of 29 senators, including Commerce Committee Chairman Warren G. Magnuson, D-Wash. A similar measure passed the Senate last year, but died in the House.

It calls for establishment of a \$5 million Office of International Travel within the Commerce Department to be headed by an assistant secretary.

The function of the new agency would be to lure foreign tourists — and their money — to American vacation spots through a "hard sell" promotional campaign.

President Kennedy urged such action in his State of the Union Message and in a letter to Magnuson saying the plan would "ease the balance of payments deficit."

Other congressional news: Spending: Chairman Harry F. Byrd of the Senate Finance Committee urged Congress to tighten the reins on federal spending by using an annual general expenditure authorization bill. Byrd said in a prepared Senate speech that he was introducing the necessary legislation.
