30 YEARS OF PAINTING "KNOW-HOW"!

Jack R. Roper
PARTNER

It is with confidence (and a certain amount of pride) that we look towards the 60's! With the knowledge that our past years of experience have paved the way for continued success in our chosen profession, we do not overlook the fact that it could not have been done without the help of a vibrant, growing community such as Klamath Falls. There is little doubt on our part that the great Klamath Basin will continue to grow and prosper. We're particularly proud that we have been called upon at certain times to improve the beauty of your homes and buildings.
