

# Soil Expert To Speak At Meeting

FORT ROCK — Dr. A. L. Hafnerichter of Portland has accepted an invitation to be guest speaker at the annual meeting of the Fort Rock-Silver Lake Soil Conservation District here on March 7 at 7 p.m.

Dr. Hafnerichter is Soil Conservation Service Plant Materials Technician in the nine Western States, including Alaska and Hawaii. He heads activities of six Plant Materials Centers including one at Pullman, Wash. It is from this center that grasses and other seeds for trial plantings in this SCD have been made available.

Of greatest service to this area is Dr. Hafnerichter's long experience in working with the development of plants suitable to cold climates and short growing seasons. He and his co-workers are greatly responsible for potential improvements in forage in the Fort Rock - Silver Lake SCD.

Having visited this district on several occasions, the speaker will apply information to the needs and conditions of the area. He will illustrate his talk with color slides.

He has a wide background of service as a college professor before joining the SCS in 1933. He is the author of numerous publications in his field. In 1947 he received a superior service award from the USDA for outstanding work in assembling, testing and developing plants usable in intermountain and Pacific Coast agriculture.

His most recent service to overseas grassland agriculture was during 1960 when he visited experiment stations in England, Wales, France, Switzerland and Italy.

In addition to the presentation by Dr. Hafnerichter there will be the annual speaking contest, with two representatives from Fort Rock, Silver Lake and Summer Lake schools. The public is cordially invited to attend the meeting at the Fort Rock Grange Hall.

# School Notes

**KENO**  
The students are looking forward to Friday, March 10, when they will attend the Klamath County Speech Festival to be held at Henley High School.

After tryouts held last week, the following students were chosen to represent Keno School:  
Larry Nauta, story telling; Norma Sanders, serious speaking; Rick Trullinger, humorous speaking; and Ruth Dempewolf, poetry.

The entire seventh and eighth grades will participate in choral reading competition.

Interest is high in basketball, now. The school's "A" team has won four games and lost three. Members of the first team are Dave Anderson, Chuck Clark, Karl Kerns, Rick Trullinger and Bill Hersford.

The spring project is selling all-purpose cards. Boxes of these cards may be purchased from any member of the upper four grades.

The main activities taking place now are the basketball intramurals, with Chuck Clark's team in the lead.

Students are also practicing folk dancing and will perform before the Parent-Teacher Association during the April meeting.

Iceboats can skim over lakes at speeds up to 150 miles an hour.
