Their aim: Find out what's in-side the world. Scholars have wondered for years, and the an-swers may tell us how life began and how the earth itself came into being.

so years ago.

Getting samples from that lev-el will take several years, sev-eral million dollars and consider-able experimentation.

project is Operation Mo. Late drilling will be in deeper hole, being conducted off the coast of Southern California, water—12,000 feet and more—off the coast of North America.

The first step Thursday was the lowering of more than 3,000 feet of drill pipe to the ocean bottom, then drilling a few feet into the sediment. Operations are conducted form a special drilling ship.

The goal is to drill the property of the conducted form a special drilling ship.
