ACE TV LOOKS AT

- EXPERIENCE**—Each partner (shop) at ACE TV has over 25 years electronics experience, over 20 years each in Radio-Electronics in the U.S. Navy. We built our first 12" TV set in 1948, about six years before it was introduced to this section of the country, and have been servicing TV-Radio and consumer electronic equipment ever since. We are preparing for full color servicing, NOW!
- EQUIPMENT**—Our modern shop at 1140 Riverside Drive was designed for TV and Radio servicing. We have TWO fully equipped service benches, with the latest in transistor checkers, B & K Analist components, Hi-Fidelity service instruments and complete service data for all type sets. There is no better equipped shop in Southern Oregon. We stock over 350 different types of tubes.
- PRICES**—Frankly we think tube prices are too high (but so is gasoline, haircuts, etc.) and we are unable to sell PREMIUM tubes cheap, and honestly, no one else does. Our \$5.00 service call gives you up to one hour service in the home, and, until expenses and taxes go down, we can't. When possible, bring your set to our shop. Our bench work is the most reasonable in town, as thousands of our customers will attest.
- INTEGRITY**—We back up our work 100%. All parts and labor are unconditionally guaranteed for 90 days, picture tubes for one full year. As authorized Zenith dealers we offer a free 90 day service warranty on all new Zenith sets. This INCLUDES Service calls, labor and parts. Our guarantee really is a guarantee. We install ONLY what is required, and charge ONLY for what we install. We deplore the trend in TV sets that use the PRINTED CIRCUIT and sadly admit labor is generally higher on this type snafu, regardless of what the manufacturers' claims are.
- IN CONCLUSION**—We have given full satisfaction to over 95% of our some plus 6,000 different customers in the past 3 1/2 years. We would be an error to claim 100%. There is always a fraction who CAN NOT be pleased. Some expect a \$130 portable to perform like a \$400 console. Some complain about TV service AND the grocer AND the weather AND the Cardistick maker. A few want \$50 of service for \$50. The decimal jumpers claim 20 tubes were replaced for \$50 when the bill shows only 2 for \$5. A very few simply do not believe in paying their legitimate bills.

We are proud to have settled in the Klamath Basin and to progress with this strong, honest and vigorous community. We humbly thank all our customers for the privilege of serving them, past, present and future.
