

Unemployment Declines

WASHINGTON (UPI)—Both the number of workers drawing unemployment checks and the number applying for them declined for the second consecutive week Friday night that insured unem-

ployment went down by 62,300 for the week ended March 4. The previous week it had gone down by a thin 13,000.

The 3,346,500 persons drawing jobless benefits at the beginning of March was still a record high for that time of year. It was pointed out that during the depression, the jobless insurance program covered only a fraction of the work force it now protects.

Another indication of recent leveling-off trends was that initial claims for unemployment benefits continued to shrink, falling by 42,000. That was believed due largely to outdoor jobs opening up and "slackening of layoffs in the automobile industry" and other fields.

The department said that about 192,500 persons exhausted their benefits in February, approximately the same number in January.

Forty states, led by New York, California, Illinois, New Jersey and Pennsylvania, reported the reductions in their unemployment insurance rolls.

Michigan, under the impact of early auto layoffs, reported an increase in insured unemployment also reported the largest drop in initial claims, an indication that the heavy auto production and employment cutbacks of February were easing.

The initial claims total for the week ended March 11 was 333,000. In January, claims reached a high of 565,000 in one week.

Grange News

MIDLAND GRANGE
 Incoming marches were exemplified when the Midland Grange met March 15 at 8 p.m. with Master Alex Cammock and officers presiding.

The obligation was given to three new members, Alma and Carl Ewing and Stephen Walker. Leon Andrieu, chairman of the building committee, reported that both oil stoves have been cleaned and 50 new chairs were purchased by the subordinate grange and the juvenile grange.

Grange insurance was explained to members by Earl Sheridan, insurance agent.

Two letters were read by the secretary regarding taxes on fraternal organizations and a committee assignment for master or delegate for State Grange at Beaverton June 12 through 16.

Ida Scala received an achievement award as secretary in 1960.

The literary program was given by Laura Walker and Ruth Andrieu.

Master Cammock announced that plans are being made to have the first, second, third and fourth degrees exemplified in the near future.

A no-host lunch was served by Kathryn Smith, Grace Stork and Alice Hoover.

The next meeting will be held April 5 with Ida Scala as hostess.

"Multitudes, Multitudes In the Valley of Decision..."
 —The Book of Joel

The 79 million people living in the Iron Curtain countries on the border of Soviet Russia... these are the Multitudes... and Eastern Europe has become a VALLEY OF DECISION.

From Russia they hear that the free World is dying. RADIO FREE EUROPE broadcasts the good news of hope that helps these 79 million resist communist deceit and falsehoods.

RADIO FREE EUROPE speaks from 28 transmitters in Western Europe. It reaches 90% of the people despite communist jamming. The memory of freedom will never die where the truth is heard.

RADIO FREE EUROPE needs your help, now! It depends on the contributions of private citizens like you for its very existence. Tell the world that freedom is more than a memory. Answer communist lies.

Boeing Plans Impress State Legislators

SEATTLE (AP)—The Boeing Airplane Co.'s plans for the Boardman Bombing Range in Oregon are impressive, two Oregon legislative leaders said Friday night.

"We were impressed by the attitude of the Boeing people and their statements to us," said Harry Boivin, Oregon Senate president from Klamath Falls.

He and five other Oregon legislators spent the day touring Boeing installations and talking to Boeing officials.

"Our legislature, representing the people of Oregon, wanted to know what sort of an operation Boeing has," said Boivin.

Rep. Clarence Barton, Coquille Democrat, also said he was impressed.

The legislators will report to the legislature their observations.

Boeing has proposed leasing the 96,000-acre bombing range for 80 years. The Oregon Legislature is considering a plan to appropriate \$900,000 to acquire the range.

The legislators said Boeing does not plan to "go into the real estate business" although it might consider sub-leases which would not conflict with Boeing programs.

Barton said the use Boeing will make of the Boardman range probably will depend on what government contracts Boeing lands.

He compared the research he saw Friday with what he had seen in visits to the Bell Telephone Co. laboratories in New Jersey.

Pauling Threatens Lawsuit

CLEVELAND, Ohio (AP)—If U.S. senators who called him "pro-Soviet" will waive their congressional immunity and repeat the charge, Dr. Linus Pauling will sue them, he says.

The Nobel Prize-winning chemist made this promise here Friday night in a speech to the American Humanist Association convention which Saturday honored him as humanist of the year.

Earlier Friday the Senate's internal Security subcommittee, headed by Sen. James O. Eastland, D-Miss., had accused Dr. Pauling of displaying "a consistent pro-Soviet bias."

Pauling said that if the senators would repeat the charge and waive immunity he would sue them, just as he and his wife last week sued the Bellingham (Wash.) Herald and four individuals. He said that in that suit he was asking \$500,000 damages for publication of a similar accusation.

The Senate subcommittee said, "Dr. Pauling has figured as the No. 1 scientific name in virtually every major activity of the Communist peace offensive in this country."

Last year the subcommittee called the California Institute of Technology professor a witness. The senators demanded he reveal names of people who helped him round up names for a petition Pauling filed with the United Nations. The petition asked an immediate ban on nuclear testing.

Pauling refused to give the names, saying the subcommittee wanted only to hound the people who helped collect the signatures.

Pauling said in his address Friday night that a few months after the petition was submitted to the United Nations, more than three years ago, its principles were adopted by the Eisenhower administration and became U.S. policy.

"I want the Communists to follow my line, and I want Americans to follow my line," he said.
