

Ike Denies Cuban Fiasco Blame

GETTYSBURG, Pa. (AP)—Former President Dwight D. Eisenhower may have started a new round of post-mortem on the Cuban invasion by declaring that his outgoing administration had not drawn up an invasion plan.

Ever since the invasion was crushed at the Bay of Pigs last spring, it has been reported that President Kennedy inherited a detailed invasion plan with many armed units poised throughout the Caribbean area. All that remained for Kennedy, these reports said, was to give the go ahead signal.

But Eisenhower told a group of 38 freshman Republican congressmen Monday, "we had done nothing except to recognize that these Cuban refugees had a great desire to go back to Cuba, so we began organizing them and giving them weapons and training them. But beyond that we could not do anything because at that time we did not recognize the leader among the (refugee) Cubans."

He added, "I was not a consultant or adviser to the (Kennedy) administration in any way, of course."

A reporter went back to the question later, and Eisenhower amplified, "In March, 1960, we had a little meeting in my office as to whether to go ahead and train these people. We set up a little group to keep in touch. It was never any more than that. The Central Intelligence Agency has been widely credited, without contradiction, with starting to line up the ill-fated invasion as much as a year before the landing."

Asked about his views on the Soviet Union's resumption of nuclear testing in the atmosphere, Eisenhower said he believed the Soviets have been secretly testing nuclear weapons during the three-year moratorium which ended Sept. 1 with the first shot in their new series.

Eisenhower covered a wide range of subjects in a setting strongly reminiscent of the news conferences he used to hold in his White House days. One difference was that the first-time GOP congressman asked none of the questions.

Temporary Job Now Permanent

By ANN LANDERS

Dear Ann Landers: I've been married for 15 years to a man who has no bad habits and is a good father. The problem is I can't get a dollar out of him.

We own a four-family flat. Six years ago when our janitor and maintenance man quit I took over "temporary" work. Well, I'm still at it with no relief in sight. I'm a plumber's daughter so I know how to fix everything in that line. I can even fix the air-conditioners, and do a little carpenter work. I've painted and painted, varnished and laid linoleum when tenants have moved out so the flats would be rentable.

We have a vegetable garden in back and every year I put up 200 quarts of beans, tomatoes, carrots, dill pickles and asparagus. I do all this in addition to taking care of my own family which numbers six. When I ask my husband for a few dollars to get a permanent wage or a new pair of shoes he says "Wait till I do. You'll get everything." What can I do?—Getting Tired

Dear Getting: Take on one more job—collect the rent. At the rate you're going, Lady, you'll die—and he'll get everything.

Dear Ann Landers: I used to think well of your advice but no more. In your column you always advise people to study through church clubs, organizations and share all church groups. My daughter, Mester, was an avid fan. She took your advice and joined a church group and that's where she met this man. She devoted herself to him completely for 18 months. Then his wife showed up and threatened Mester with an alienation of affection suit. He had three children and a police record.

We were stunned. He seemed so respectable and decent. From now on you'd better think twice before you advise nice girls to meet men through church groups. A church offers an ideal front or scoundrel to hide behind.—STUNNED MOTHER

Dear Mother: Churches have rules, too, but that doesn't mean your daughter ought to go out with them.

No safeguard can match common sense and judgment. A girl who could go with a man for 18 months and not pick up a single clue to his double life must be less than bright.

Does almost everyone have a good time but you? If so, send for Ann Landers' booklet, "How To Be Well-Liked," enclosing with your request 20 cents in coin and a long, self-addressed, stamped envelope.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped, self-addressed envelope.

Pentagon May Push 2,000 MPH B-70 Bomber

WASHINGTON (AP)—A strong possibility arose today that the Pentagon may reverse itself to recommend buying more B-52 bombers and pushing development of the 2,000 m.p.h. B-70 bomber.

Final decision will be up to President Kennedy, acting on any recommendation Secretary of Defense Robert S. McNamara might make.

The matter is under study, the Pentagon said in response to a query from a reporter who noted that almost a month has passed since Kennedy signed the \$46,682,356,000-defense appropriation bill.

Since the bill took effect Aug. 18, there has been so much work on what would be done with the nearly \$700 million Congress added on for more long-range bombers, which the administration said were needed, and for accelerated development of the B-70, that the administration sought to cool back.

Air Force officials said they were optimistic that McNamara would change his opposition to spending more millions for these purposes.

While Congress was considering the bill, McNamara let it be known he was inclined to recommend against spending this money to impose funds Congress votes for programs he deems are not necessary.

The Air Force, it was understood, has been presenting its arguments for another wing of B-52 nuclear bombers—about 50 planes—to Defense Department Comptroller Charles J. Hitch.

The United States now has about 580 B-52s.

It was expected that any new bomber purchases would be accompanied by procurement of additional KC-135 jet tankers to fuel them in flight.

In a parallel action, the Air Force has been making presentations to McNamara backing up its contention that the B-70 should be replaced to a full-scale development program.

The Berlin crisis and the prospect of S-Sov tensions for some time to come undoubtedly were factors. Display by the Soviets of some advanced planes at an air show in late June also may have prompted second thoughts about further U. S. bomber purchases.

Trucker Gets 3 Years For Worthless Checks

A Roseburg truck driver was sentenced Friday afternoon to a three-year penitentiary term on a third check charge.

The truck driver, Dalevar K. McMullen, 48, had pleaded guilty to a charge of obtaining money and property by false pretenses before being sentenced by Judge David R. Vandenberg.

District Attorney Dale T. Crabtree said McMullen had been charged in connection with a series of small worthless checks passed in late June in Klamath Falls.

In another circuit court action, Jerry N. Puseer, 31, 1906 Fremont Street, pleaded not guilty to the crime of contributing to the delinquency of a minor.

Judge Donald A. W. Piper set the trial date for Nov. 6. Puseer is accused of committing an immoral sex act May 28 with a 9-year-old girl. He asked for several continuations before finally entering his plea and is free on \$7,500 bond.

OSU Awards Given Pair

Ronald Dean Metcalf of Crater Lake and Robert Louis Brown of Malin have been awarded scholarships to enter Oregon State University Sept. 25.

They were among 106 top Oregon high school graduates awarded scholarships by the State Scholarship Commission.

Metcalf, son of Mrs. Louise Metcalf, will major in mechanical engineering. Brown, son of Mr. and Mrs. Gerald G. Brown, will major in civil engineering at OSU. Both boys received a \$500 grant.

The grants are renewable every year, providing students maintain high grades.

87 Pass Bar Exam

SALEM (AP)—Eighty-seven persons of a total of 139 who took the most recent Oregon State Bar examination were recommended Monday for admission to the Bar.

The 87 included 41 from Portland, 21 from Salem, 8 from Eugene, 11 from other Oregon cities, and 6 from outside the state.

Those who passed include 45 law school graduates and two attorneys. Fourteen of them took the test for the second time.

About two-thirds of both attorneys and students who took the test passed.

University of Oregon students had the best record for passing. Nineteen, including one repeater, passed out of 23 taking the test for a total of 82.6 per cent passing.

Willamette and all out-of-state schools combined had percentages of 67.7. Only 50 per cent of the Northwestern College of Law students passed.

Tigard Votes Incorporation

PORTLAND (AP)—Tigard, a fast-growing community near Portland's western city limits, soon will be incorporated as a city.

Residents voted 249-231 in favor of the move at a special election Monday. That renewed speculation that Tigard might eventually become part of Portland.

Tigard residents now must elect a city council to formulate plans for a municipal government. These will be submitted to the voters.

The Capital Highway Water District between the Portland limits and Tigard also would have to decide to be annexed by the city. Annexation petitions are being circulated in the district.

Portland Mayor Terry Schruck, in announcing last week that the City Planning Commission had made an annexation study at the request of residents of the area, said he believed the "most logical step" for Tigard and the Capital District would be annexation.

Pisa Blast Rumor Told

PISA, Italy (AP)—Reports circulated in this central Italian city today that saboteurs might try to blow up the famed leaning tower of Pisa.

The rumors spread after a weekend of terrorist bombings in Rome and half a dozen other cities. Government officials blamed the bombings on German-speaking extremists seeking greater autonomy in South Tyrol.

City authorities in Pisa said they felt normal security measures around the leaning tower are adequate. The monument, a 14th century bell tower standing next to the Cathedral of Pisa, is constantly guarded by at least two policemen.

Copter Crash Hurts Teacher

CHICAGO (AP)—A high school science teacher was injured Monday when his homemade helicopter crashed into a field.

Chester Bera, 45, a teacher at West Leyden High School in Northlake, a Chicago suburb, was riding in the 240-pound aircraft when a tow rope broke, plunging the craft to earth.

Officials said the machine crashed apparently because its engine had not achieved enough power to keep it airborne without the tow rope.

Bera had built the machine from a \$1,100 "do it yourself" kit.

Good Food is My Line

Do you ever wonder why it was that our fathers and mothers didn't have a coffee-break in the middle of the morning? Was it just because the boss in those days was more of a boss? Many people who should know, think just in fact, distasteful think there's something wrong with in a d d r. up-in-date. They've pinned the blame on the gulp-and-as-modern breakfasts we're eating these days. The "old-fashioned" breakfast that our parents put away in preparation for the day's work was far more practical than just cereal and coffee. Breakfast should contain one quarter of your daily calorie requirements. Stock up on fuel before you use it.
