

# Atom-Fearing Families Head For West Coast

SMITHTOWN, N.Y. (AP)—The vanguard of about 50 families in this Long Island community, seeking a better chance of survival in case of nuclear warfare, leaves this weekend to take up residence in Chico, Calif.

Alvin Bauman, 43, spokesman for the group, married and the father of two children, said Thursday: "We've been thinking this over for some time now. What finally provoked us to action was the present war scare. Some people may think it's foolish but we see nothing foolish in facing a real situation."

Bauman said Chico had been chosen, after exhaustive research, as one of the few areas in the United States that would remain habitable after atomic attacks. Other areas considered were elsewhere in Northern California, Oregon and Montana.

About 30 persons, including several children, will make up the initial contingent. A Chico real estate firm has leased 12 houses to the New Yorkers.

## Atom Tests To Be Mum

WASHINGTON (AP)—America's new nuclear tests will be conducted in complete secrecy except for such announcements as the White House makes, and some shots may not be announced at all.

White House press secretary Pierre Salinger said today there will be no news coverage of the tests slated to begin in a week or 19 days.

This is a departure from the practice during the Eisenhower administration and in the Truman administration when tests in Nevada and the Pacific were open to newsmen.

President Kennedy himself apparently made the decision. In any event, it was a White House ruling rather than one of the Pentagon or the Atomic Energy Commission.

Kennedy announced Sept. 5 that he had ordered resumption of nuclear tests, in the laboratory and underground, with no fallout, because the Soviet Union had resumed testing.

The Soviets fired the tenth in a series of test blasts Thursday, all of them having been in the atmosphere with attendant fallout.

## "DENNIS THE MENACE"

MY DADS ASLEEP, BUT I'LL BE GLAD TO WAKE HIM UP!

## First Witnesses Heard In Shipley Murder Trial

NEWPORT (AP)—The first prosecution witnesses were heard Thursday in the first degree murder trial of Larry West Shipley, 20, McMinnville.

Dist. Atty. A. R. McMullen called police officers and hospital attendants to the stand.

They told of finding the bullet-riddled body of Linda Jean Stevens, 16, on a forest trail north of Otis Junction some five weeks ago.

The witnesses described the site where she was found, the condition of the body, and transporting the body to the hospital.

Shipley and Glenn Dixon, 18, McMinnville, are charged with the slaying. Dixon's trial will start Oct. 10.

In his opening argument Thursday, McMullen said the prosecution would prove that car trouble caused change in the murder plans of Shipley and Dixon.

He said the girl crawled out of a window in her foster parents' home to meet the youths on Sunday, Aug. 6. The next day, McMullen said, the two picked her up and drove toward Pacific City.

McMullen said Shipley and Dixon had planned to kill the girl and bury her in the sand at Otis because of car trouble. Shipley shot her after the trio had hiked up a forest trail, McMullen said.

He said the prosecution would prove that Shipley and Dixon planned to kill the girl to avoid facing arrest for kidnap or statutory rape. McMullen said the slaying followed a series of intimate relationships between the girl and the two youths.

## Nancy Near Jap Coast

TOKYO (AP)—Twenty-foot waves and violent rains hit southern Japan today, heralding the approach of Typhoon Nancy. Two merchant vessels were in distress and one was missing with 28 aboard.

The rains had already produced widespread flooding. Police reported one person killed, one missing and 11 injured on the southern island of Kyushu.

After causing widespread crop damage Thursday night on the U.S. fortress island of Okinawa, the storm swept up from the Ryukyu Islands and headed for Kyushu.

Weathermen predicted it would then swerve northeast across Shikoku Island and on through populous western Honshu. It is expected near the industrial city of Osaka Saturday afternoon and Tokyo in the evening.

Nancy's winds had abated from Tuesday's high of 230 miles an hour to 144 miles an hour, but this was small comfort to millions of Japanese in their flimsy, boarded-up homes. Thousands carried their belongings to public buildings and took shelter.

The Greek freighter Tinos radioed she had been disabled by the storm and was drifting out of control 100 miles north of Minami Daito Island. Contact was lost after that and the 7,130-ton ship was listed as missing somewhere south of Kyushu.

## Bay Plans To Appeal Board Act

LA GRANDE, Ore. (AP)—The denial of a teaching certificate to Dean Bay, 32, Weston, Ore., will be appealed to Union County Circuit Court, Bay's attorney said Thursday.

The Oregon State Board of Education voted 4-3 Wednesday night to deny Bay a teaching certificate. He taught in Weston last year on a temporary certificate.

The denial was made as a result of Bay's prison record. He was convicted of grand larceny in Goldendale, Wash., eight years ago, and served a term of 18 months in the Washington State Reformatory.

The State of Washington has given Bay a full release from parole and restored his civil rights.

Bay, a father of five children, said he hopes to teach this fall in Washington State.

His attorney, Willard K. Carey, said Bay told him he was willing to have the case appealed because of the principles involved.

Carey said interested citizens of La Grande and Weston would finance the court action.

## Danger Seen In Policy

DENVER, Colo. (AP)—Former President Harry S. Truman told the American Legion convention Thursday its resolution calling for liberation of peoples behind the Iron Curtain would lead to war if it became U.S. policy.

In a question-and-answer session at the final convention meeting, Truman said: "I don't know what you know about the policy of containment, but I started it. If you want to go to war, do what you're crying about. That's the way to start it."

The legionnaires, in one of some 500 resolutions adopted, called for abandonment of efforts to contain international communism. It proposed instead the liberation of captive peoples by any means, including military.

Charles L. Bacon of Kansas City, Mo., became the national commander of the 2,800,000-member veterans organization and pledged to lead it in an attack on communism.

"If we fail to maintain our position in the forefront of an all-out attack on communism, then I say to you that all of the sacrifices of the past will be meaningless and future generations could well name us as their betrayers," Bacon said as he became the Legion's 45th commander.

Bacon promised to carry out the Legion program which, among other things, asks the United States to resume nuclear testing underground and in space and calls for a halt to trade with Communist nations.

Bacon, 51, a lawyer, was elected by acclamation at the closing session of the convention. During World War II he was a naval officer. He succeeds William R. Burke of Long Beach, Calif.

## Nixon Quiet On Campaign

SAN FRANCISCO (AP)—Another effort by California Republican leaders to get former Vice President Richard M. Nixon to run for governor ended just like the others—with a question mark.

Twenty-four Republicans talked to the 1960 GOP presidential candidate for 2½ hours Thursday. All urged him to run, a spokesman said.

The spokesman offered his impression that Nixon knows what he's going to do but said he didn't commit himself.

Three candidates have announced for the Republican gubernatorial nomination. They are former Gov. Goodwin J. Knight, former Lt. Gov. Harold J. Powers and Assemblyman Joseph C. Shell of Los Angeles.

Gov. Edmund G. Brown, a Democrat, is expected to seek re-election.

## Normal Life For Bright Boy

LOS ANGELES (AP)—Sylvia Kerr took her son, Lance, 12, to register at school Thursday.

He has normal interest for his age—baseball, basketball, Boy Scouts.

Nothing unusual—except the school he's entering is UCLA.

Lance, who graduated from high school last June, plans to complete his undergraduate work and gain a least one graduate degree in physics.

UCLA said he is the youngest student ever to enroll there, and was admitted chiefly on a basis of high college board test scores.

## Memorial Services For Bright Boy

PALO ALTO, Calif. (UPI)—Memorial services will be held Saturday for Rex E. Halliwell, retired general manager of the Southern Pacific Company. He died Wednesday of a cerebral hemorrhage.

## Thoughtless Hubby Forgets Birthday

By ANN LANDERS

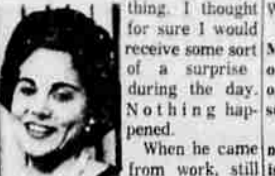

Dear Ann Landers: Today was my birthday. When my husband left for work he didn't say anything. I thought for sure I would receive some sort of a surprise during the day. Nothing happened.

When he came from work, still nothing. Finally after dinner I said to him "Do you know what day it is?" He said "Of course, it's Friday." I asked "Is there anything special about this Friday?" He answered "Yeah, there was less smog than usual."

After about an hour I decided if I didn't say something I'd blow up, so I screamed "Today is my birthday!" His comment was "I knew it was some time in September but the day always slips my mind. Buy a nice present for yourself, Honey, and give me the bill."

I'm hurt, angry and disappointed. What shall I do?—GEORGE'S WIFE

Dear Wife: Buy yourself a nice present and give him the bill.

MIAMI, Fla. (AP)—Hurricane Esther, packing winds up to 130 miles per hour near the center, continued on a west-northwest course in the Atlantic today with indications that it might turn toward the Northwest.

Forecaster Raymond Kraft said there were "slight indications" that Esther might take a turn toward the Northwest in the next day or two, but he emphasized it was too early to say definitely.

Esther was expected to continue on a west-northwest path at about 10 miles per hour for the next 24 hours, with little change in size or intensity.

At 5 a.m., Eastern Standard Time, air reconnaissance located Esther near latitude 21.7 north, longitude 54.7 west, or about 800 miles east-northeast of San Juan, Puerto Rico, and 1,650 miles east-southeast of Miami.

Gale force winds extended outward 230 miles from the center and small craft in the Leeward Islands were advised to remain in port because of rough seas in that area.

Hurricane Betsy followed a path similar to that of Esther 10 days ago, veering northward from a point about 2,000 miles east-southeast of Miami. Betsy roared up the North Atlantic and died in the cold northern air.

## Korean Vets Get Dividends

WASHINGTON (UPI)—About 333,000 Korean War veterans will receive special GI insurance dividends under a new law signed Wednesday by President Kennedy.

John S. Gleason Jr., administrator of veterans affairs, said Thursday the dividends will go to those who have converted or exchanged their old policies for new ones now in effect. An additional 234,000 who have not converted may receive the benefits if they convert within two years.

Dear Ann Landers: Is it all right for a wife to open mail which is addressed to her husband? This matter has been unresolved in our home for ten years. You are going to settle it.

I was raised never to open mail which was not addressed to me. In my wife's family the first person to get his hands on the mail opened everything. My wife knows it irritates me when she opens my mail but she continues to do it. I still do not open hers. She claims you will be on her

## Crooked River Murder Fate In Hands Of Jury

MADRAS, Ore. (AP)—A Circuit Court Jury was to begin deliberation today in the first degree murder trial of Jeanace Freeman, 19.

Circuit Judge Robert H. Foley when court opened today.

Miss Freeman is charged with the slaying of Larry Jackson, 6, The nude bodies of the boy and his sister, Martha, 4, were found May 12 at the bottom of the 350-foot deep Crooked River Gorge in Central Oregon.

Special prosecutor John Copenhaver Thursday asked the death penalty for Miss Freeman, who claims that the children's mother, Mrs. Gertrude May Nunez, 33, was responsible for both killings.

Copenhaver took an hour and 35 minutes to sum up the testimony linking Miss Freeman with the slaying.

Mrs. Nunez has admitted killing her daughter. Earlier, she testified that Miss Freeman wanted to get rid of the children because they interfered with a relationship between the two women. She said Miss Freeman threw the boy into the canyon.

Thursday, Miss Freeman said she and Mrs. Nunez were on their way to Madras when they got into an argument and stopped the car at the gorge.

She said Mrs. Nunez became furious at the boy after he awoke, grabbed a tire iron and struck him on the back of the head. Miss Freeman said the boy's mother then threw him into the gorge.

Defense Attorney William M. Holmes asked her: "Why didn't you stop this?"

"I was scared," she said.

Now-A Polaroid Electric Eye Camera for Only \$93.50

The Polaroid J66 costs less than the first Land Camera model introduced more than 12 years ago!

It takes the same large pictures—but with what a difference. It's fully automatic. There are no settings you have to make. An electric eye chooses the exposure. You don't even have to focus. You don't need an expensive light meter. The flash gun is built in too. And your picture is ready in just 10 seconds.

There are 12 years of improvements, refinements and brand new ideas in this camera. And yet it actually costs less than the first Land Camera on the market.

If you've always wanted a Polaroid Land Camera—and who hasn't?—this is your chance. Come in for a free 10-second demonstration today.

**COMPLETE J66 KIT \$110.95**

Terms if desired!
