

Teen-Aged Terrorists Ordered Out Of San Francisco

SAN FRANCISCO (UPI)—Mayor George Christopher today ordered police to clean up teen-aged terrorism on the city's buses and streetcars.

He was told Tuesday by business agent Tom McGrath of the Carmen's Union that knife-wielding hoodlums were running wild on the city's transit system and needed police action.

Police Chief Thomas Cahill said he would meet with muni, school and police officials today map out action against the offenders.

in which the passengers just stood there and watched an operator beaten."

Official records seem to support McGrath, who is business agent for Carmen's Union No. 1380. Vandalism last year cost the city, which operates the Municipal Railway, \$66,372.94.

The price tag for cleaning buses and streetcars defaced with obscene words and smeared with fruit, eggs and anything else that was handy came to more than \$11,000.

Many Buses Damaged

Rocks thrown by the juveniles smashed or cracked 3,000 windows and nearly 4,000 seats were slashed with knives or razors.

Muni manager Vernon Anderson cited two incidents. Last Thursday, he says, two junior high school students boarded a

bus, dropped several pennies in the toll box, and ran toward the rear of the vehicle where they let some friends in through the window.

The operator protested, but the youngsters "called him the most vile names and practically dared him to come back to do anything about it," said Anderson. The driver completed his run and then put in for a transfer.

Another driver was threatened with bodily harm under much the same circumstances, according to Anderson.

McGrath reported another incident Tuesday. He said a gang of youths told an operator he "would get sliced up" if he came to work today.

Wants Tough Cops

McGrath asked the Public Utilities Commission to put some "rough, tough" cops on the buses. He said every major city has its own force of special policemen to combat such hoodlums except San Francisco.

IN ALASKA — Dr. Paul Mossberg, formerly of Bonanza, now of Portland, was recently transferred to Anchorage, Alaska. He completed basic training at Fort Ord, Calif.

Little Damage Seen From Fallout

WASHINGTON (AP)—Any genetic damage caused by fallout from the current series of Russian nuclear explosions will be so slight, in the opinion of a Public Health Service physician, that it may not be discernible even after several generations.

The physician in the service's division of radiological health gave his views in this reporter today but declined to permit identification by name.

He said the radiation dose to reproductive cells from radioactivity of levels measured in this country since Sept. 1 will not be as large as that received over a long period from natural background radiation.

There is a considerable variation worldwide in the amount of natural background radiation. For instance, the expert said that in the Monazite Sands areas of India it is possibly 20 times the usual maximum in this country.

The official said it is not thought that any genetic changes caused by radiation of the levels recently recorded in this country would show up in the nation's younger people or in their immediate offspring.

"If changes do occur in far-distant generations, they may be in conditions not identifiable to radiation exposure," the doctor added. He said genetic alterations would not of necessity mean there would be deformed babies. There are hundreds of identifiable genetic characteristics and any of these could be affected.

The doctor's opinion was sought following a statement Sunday by Dr. Ralph E. Lapp, a physicist who helped develop the atomic bomb, that fallout from the Russian explosions in his opinion exceeds what was established by a group of scientists in 1957 to be the "safe annual limit."

The Public Health Service is concerned not only with the possible genetic effects of fallout radiation but also with the possible effects on bone, bone marrow, thyroid glands and tissues.

It is known, the doctor said, that fallout contains certain specific radionuclides which affect these.

Boy's Murder Trial Opens

PORTLAND (AP) — Opening arguments were heard Monday in the first degree murder trial of a Portland teenager, charged with shooting his mother.

David H. English, 18, has been held without bail since his mother, Mrs. Catherine C. English, was shot April 18.

Deputy Dist. Atty. Oscar Howlett said he would prove the shooting was premeditated. Defense counsel said it would show young English fired the fatal shot accidentally after searching the family property for prowlers.

"We'll soon get rid of these punks on the buses," he said.

But Police Chief Thomas Cahill said his department lacked the men and the money for a special force. He told newsmen the police department could not afford to assign officers "just to ride buses."

The PUC directed muni authorities to investigate how other cities meet the juvenile problem in their transit systems.

"These incidents are shocking and will not be tolerated," said President Don Fazackerly. He suggested that muni officials bring up the problem at the convention of the American Transit Association next week in Dallas.
