

U.S. Census Shows Fewer American Farms, Females Outnumber Males

Today, one in 12 Americans is a farm resident. Four decades ago, when separate figures for the farm population first were published by the Bureau of the Census, about three in 10 Americans lived on farms.

The ratio of males to females in the U.S. population is 97 to 100. One hundred years earlier, males outnumbered females 105 to 100, according to records of the Bureau of the Census.

The Bureau of the Census has published 1960 Census of Population figures for each of 18,088 incorporated places, whose combined population was 115.9 million, nearly two-thirds of the 50-state total of 179.3 million.

According to the 1960 Census, the median age of the U.S. population is 29.2 years, 28.3 years for men and 30.1 years for women. The median age of men in the Armed Forces abroad is 24.3 years.

The 1960 Census recorded 108.5 million persons of voting age in the United States.

The average size of 3.7 million farms counted in the 1959 Census of Agriculture was 302 acres. In 1900, the average size of 5.7 million farms was 146 acres. The Bureau of the Census found the average age of farmers to be 59 1/2 years.

The 1960 Census accounted for 53 million households with an average population of 3.29 persons. The Bureau of the Census reports that of these, 44.7 million were family households and the remainder were maintained by individuals, or groups of unrelated individuals.

Married women outnumbered married men, 42.7 million to 42.4 million, in the U.S. in the 1960 Census count. Most of the difference is attributable to the absence of married men in the Armed Forces abroad and married crewmen of merchant vessels at sea or in foreign ports, the Census Bureau says.

The American Indian population of the United States in 1960 was 523,591, according to the 1960 Decennial Census. This was more than double the 1900 count of 237,196 reported by the Bureau of the Census.

Additional census information is available from the Portland Field Office of the U.S. Department of Commerce, 520 S.W. Morrison, Portland 4, Ore.

Land Use Survey Shows Reservation Irrigation

Some 400 acres of land within the Klamath Indian Reservation has been put under irrigation from surface stream since 1957, according to a survey of land use in the reservation.

The survey, just completed, was conducted by William L. Wales Jr., consulting engineer. Wales was engaged for the study by the Klamath River Compact Commission in January, 1960.

The report shows that, prior to 1957, the effective date of the Klamath River Basin Compact, 130,574 acres of reservation land were irrigated.

A breakdown of land within the reservation indicates a total of 5,982 acres irrigated from wells, 12,500 acres of nonirrigated farm land, and 1,200 acres devoted to urban areas. Total acreage of all land inventoried in the survey is 150,397 acres.

Wales is currently engaged in surveying lands within the basin in Oregon which are not part of the Klamath Indian Reservation.

Purpose of the surveys is to determine acreages within the basin under irrigation from surface waters prior to 1957. The two-state compact provides for a maximum of 200,000 additional acres in Oregon and 100,000 acres in California which can be put under irrigation within the basin after the effective date of the compact.

Merrill Girl Wins Honors

Patty Burleigh of Merrill High took first place honors for the second consecutive year in the Soil Conservation speech contest held at Midland Grange Hall Thursday evening.

In her talk she described problems of land use, irrigation and drainage on her parents' farm near Merrill. She went on to explain how these problems are being solved and production increased by changes from dryland to irrigation and other conservation practices.

She and second place winner Gayle Brotherhood of Klamath Union High will compete in the semifinals at Ashland on Oct. 24. Third place was taken by Lois Hobson, also of Merrill High.

Ten speakers from Klamath and Lake County schools took part in the meet. Coming farthest to participate was Marvin Markus of Silver Lake School. He used illustrations and examples from neighbors' farms in his talk.

The contest is sponsored by the Oregon Association of Soil Conservation Districts each year with finals held at the association's annual convention. This year the convention will be in Klamath Falls on Nov. 9 and 10.

Master of ceremonies for the area contest was by Miss Burleigh was Bob Embree of Klamath Falls, a supervisor of Klamath Soil Conservation District. Judges were Representative Carol Howe and Glen Terrier and Adolph Faler of the Modoc Toastmasters Club. Timekeeper was Don Miller, teacher in the Henley schools.

Plaques and trophies for the contestants were furnished by Simplot Soilbuilders. Cash prizes for the area contest were contributed by the three soil conservation districts in Klamath County.

portunity to lend her wealth of experience toward helping solve the problems of boys and girls. For 38 years she furthered the progress of the Klamath Falls Library as a board member. The county Child Guidance Clinic Board has benefited by her counseling.

Within the realm of women's community social and service groups, the Klamath Falls Soroptimist Club made her an honorary affiliate after many years of membership and named her "Soroptimist of the Year."

As a state honorary member of outstanding teachers in Delta Kappa Gamma, Mrs. O'Neill has been included in the honor sorority's publication, Lamplighters. . . . the Klamath Falls Branch of the American Association of University Women dedicated a Lucile O'Neill grant. . . . the Future Teachers of America Chapter of KUHS is named in her honor. In addition, her memberships are included in PEO, the Klamath Falls Library Club and the American Legion Auxiliary.

Her enthusiasm and endeavor in the teaching field have not dulled her wit nor her appreciation for the need for relaxation. She is probably best known for her love of the pun and for her light presentation of book chapters in reviews.

In recounting her wide accomplishments, on request, some time ago for a close friend, Florence Pielke, also a teacher, Mrs. O'Neill said, "Teaching is a profession, not a union. Teachers should be trained as members of a profession, paid professionally, and treated as professionals. But . . . this is no one-sided conclusion. Teachers must so conduct themselves in their work and in their private lives, that they deserve to be treated as members of an honored profession. Truth should not be considered trite no matter how often it is voiced.

"So I can say with deep personal belief to prospective teachers, that none should consider entering the teaching profession unless impelled by a deep love for children."

The board of education and the administration of the Klamath Falls Elementary Schools invites the public to take part in Sunday's fitting tribute to Mrs. O'Neill.

ROBERT E. MALONEY

R. Maloney New Trustee Of College

Robert E. Maloney, president of the Klamath Gas Company, Klamath Falls, has been named to the Board of Trustees of the University of Portland, largest college in Oregon.

The college with a student registration of 1,730 had 310 graduate students from 32 states and 15 foreign countries.

He has served as president of Calor Gas Company and its affiliates, including the Canadian Company, Calor Gas Limited. Calor was merged last year with Suburban Gas at which time he was chairman of the board and chief executive officer of the Calor group of companies. He is retained by Suburban Gas as a consultant for the next 10 years.

He is also currently president of the Domestic Gas Company, Medford and Grants Pass and of Norcal Gas Company and Basin Farm Chemicals, Inc. Through his Oregon affiliations he is well known nationally in the gas industry.

Maloney is married, has four children and is active in civic affairs, is a Rotarian and a director of United Fund.

FTC Probes Shelter Ads

WASHINGTON (AP)—The Federal Trade Commission has stepped in to protect buyers of fallout shelters from false advertising.

The FTC announced Friday that a special staff here and in 10 field offices would monitor all advertising media in an effort to check advertising for shelters and other civil defense items.

The monitors will try to detect exaggerated claims that would mislead or defraud purchasers.

The FTC said it was taking the action at the request of the Defense Department "to prevent irresponsible advertisers of shelters from damaging public confidence in the reputable manufacturers whose cooperation with the civil defense program is so necessary."

While the agency has jurisdiction only over interstate advertising, it said any questionable claims found outside its authority would be referred to the Pentagon "for further action at state and local levels."

The FTC also reported that it planned to draft special advertising guides for sellers of shelters, survival kits and related equipment.

Aloha Chapter Sets Reception

Aloha Chapter, No. 41, Order of the Eastern Star, will hold a reception in honor of Mrs. Martha Powell, grand representative of West Virginia in Oregon, at 8 p.m. Tuesday, Oct. 24, at the Masonic Temple.

Friendship night and a special program will also be featured at the event.

G. E. Nelson Dies Friday

Funeral services are to be announced by Ward's Klamath Funeral Home for Gardie E. Nelson, a resident of Klamath Falls for 38 years. Mr. Nelson, a rip saw operator for the Weyerhaeuser Company for many years, died Oct. 20 at Hillside Hospital following a long illness. He was 57.

He was a member of the Eagles Lodge, No. 2090, and of the Methodist Church.

Survivors include a sister, Sophia M. Young of Klamath Falls; a brother, James A. Nelson of Louisville, Ky.; nieces, Mrs. Lois Parks, Klamath Falls, Mrs. Ruthie Priddy, Boise; nephews, James M. Young, serving in the Air Force, and James W. Nelson of Salem, Ind.

State Board Of Education Slates OTI Visit

The State Board of Higher Education will make its first appearance Monday and Tuesday at Oregon Technical Institute after assuming its administrative responsibility. The visit will coincide with the board's determination of long-range curriculum goals for the institute.

The nine-member board follows a policy of rotating meetings on the campuses of the various institutions and at Salem.

Regular meetings are held at six-week intervals through the year and special meetings are often interspersed between regular meetings. Board members follow a very demanding schedule of both time and effort.

At Klamath Falls the board will act on building programs for the various institutions including the University of Oregon, Oregon State College, Oregon Tech, and others, according to Dr. W. D. Purvine, director of the institute.

Several architects will attend to present preliminary schemes, preliminary plans, and final plans for various projects. Their considerations will include building of facilities from state appropriations and from self-liquidating, non-tax funds, Purvine stated.

The State Board moved into a curriculum study of Oregon Tech programs in June, 1959, following the legislature's enactment providing for the transfer of Oregon Tech into the System of Higher Education. The study has been maintained to the present, but the date of determination of changes has moved from January, 1962, to October, 1961.

The board's intent is to expedite new facility planning through the development of explicit objectives. Four curricula at Oregon Tech were selected for special study. The institute director stated. These were courses in medical technology, medical X-ray technology, secretarial technology and auto body. In addition a new program of physical education will be projected to the time of occupancy of the new campus.

Members of the State Board of Higher Education who are expected to attend are William E. Walsh, president of the board, Coos Bay; Mrs. Cheryl S. MacNaughton, Portland; A. S. Grant, Baker; Allan Hart, Portland; Charles R. Holloway Jr., Portland; J. W. Forrester Jr., Pendleton; Douglas McKean, Beaverton; Dr. Ralph E. Purvine, Salem, and the newest member, John Merrifield.

UF Dinner Hears SOC Professor

"How will the United Nations meet the present crisis?" is the title of a talk by Dr. Clifford Miller, professor at Southern Oregon College, to be given at the United Nations Day dinner scheduled for the First Presbyterian Church on Tuesday, Oct. 24, at 6:30 p.m.

The potluck dinner is being sponsored by the Klamath Chapter of the United Nations Association, Mrs. Isabelle Brixner, president.

Dr. Miller received his BA and MA degrees in the social sciences from the University of Illinois and his Ph D in history and political science from the University of Oregon in 1955.

He has been on the staff at SOC since 1955 and is now an associate professor of social science.

Dr. Miller spent five years overseas teaching in a high school in East Africa, and has done extensive traveling. He is the adviser to the campus International Relations Club at SOC.

Reservations may be made for the dinner by calling Mrs. Charles Johnson TU 4-8779 or Mrs. Kenneth Lambie TU 4-8050. They urge those planning to attend to make reservations so that a tentative number can be determined.

Those who cannot make the dinner, but wish to hear the speaker may come at 7:30 p.m. The dinner and meeting is open to the public.
