

Jewel Thief Captured Near Border After Prison Break

SEATTLE (AP) — Jewel thief Thomas R. Fasnemeyer, who made a spectacular escape from the county jail in Seattle Sunday night, was captured Thursday at Blaine, on the Canadian border.

Two Border Patrol inspectors on a routine check found the 32-year-old son of a wealthy Kansas City auto dealer hiding in brush in a city park on the northeast outskirts of the border town.

He offered no resistance and denied he was the fugitive until after fingerprints were taken.

Despite his exposure to wintry wet weather, Fasnemeyer said the only things that really bothered him were his feet—from his long getaway walk.

He said he drove a stolen car from Seattle to Marysville, walked north to Mount Vernon, took a bus to Bellingham and stole another car there, abandoning it near Blaine.

He told officers he broke into a

cafe in Mount Vernon and stole candy and some money and broke into a private garage and took a sleeping bag near Marysville.

Fasnemeyer, who pleaded guilty to jewel thefts from prominent Seattle residents, was one of eight men who tried to escape last Sunday. They climbed out a window of the jail on the 10th floor of the County-City Bldg., slid down a rope made of sheets to a window on a lower floor, and then went down an elevator the rest of the way.

One of the eight was killed when he fell nine stories. Five were captured within a short time.

The one still missing is Arthur St. Peter, 37, held as an habitual criminal.

Fasnemeyer is back where he started.

TEHRAN, Iran (AP) — Tehran University students demonstrated Tuesday for elections soon and shouted anti-government slogans.

The students pounded the car of Premier Ali Amini, who had attended United Nations anniversary celebrations at the university.

Dr. Amini said later that the demonstrations were instigated by Communist agitators and that the situation was under control.

Has Burgie flipped its lid?

SOME of our friends in the beer business think so. And here's why: there are *two* ways to make a beer light. But only one way to make a beer light and not watery. That one way takes money. And Burgie spends it... by buying almost twice as much of the one choice and costly brewing grain that makes beer *naturally light*. Why spend more? Because it makes today's Burgie light. And not watery. Makes it refreshing. And not wishy-washy. Tell you what — flip the lid off an ice-cold Burgie and see for yourself!
