Girls Crack Berlin Line

BERLIN (AP)—Two attractive young American red-haired sisters breezed into East Berlin in a little red car for a night at the opera. They got out only minutes before Soviet tanks lumbered into position near the Communist opera house.

"What a panic," giggled Mary Barber, 19, surprised at all the border fuss on their return to the U.S. checkpoint Thursday night.

Mary and her sister Nancy, 22, from Joliet, Ill., went into the Communist zone to catch a performance of Handel's "Ezio." They got salutes from the East Berlin police who waved them on after they showed their passports.

"Friendly, not antagonistic at all. Nice and sort of fun," Nancy recalled in describing the Communist police.

And the girls had a wonderful time at the opera, they said. The Soviet tanks didn't pull up until shortly after they left for the Western zone. Newsmen at the border gave them their first word of how close they came to getting caught in a traffic jam.

It was their second sightseeing foray into the Communist zone of the day. The first trip over was to buy tickets.

The sisters are studying French in Paris and came to Germany last weekend in a rented car. As tourists, they were not involved in the official U.S. ban which prohibits American government personnel from producing identification at the demand of East German border guards.

Strike Talks Continue

WASHINGTON (UPI)—Representatives of the Southern Pacific Railroad and its telegraphers continued negotiations today on a dispute over job security. There was no indication of progress toward an agreement.

Negotiators for both sides maintained a cautious silence, but a union official said that earlier talks had resulted in no progress. Company officials also declined to discuss any details of the negotiations.

"Well, we're still talking," Southern Pacific General Manager William Lamprecht said. "You are always optimistic so long as negotiations continue."

Lamprecht even refused to say were present at a meeting held at the railroad officials' hotel Thursday night.

The ten negotiators, five from each side, have been meeting jointly and separately both at the

Nixon Fears Red China Acceptance

CORONADO (UPI)—"I predict that unless President Kennedy puts some backbone into Adlai Stevenson we are going to have Red China in the United Nations," said former Vice President Richard M. Nixon Thursday night in his first major address since announcing his candidacy for governor of California in 1962.

Speaking to a \$100-a-plate Republican dinner in this San Diego suburb, Nixon also called for a reappraisal of America's whole attitude toward Communism.

He accused President Kennedy of talking "big on Cuba and Laos and now we are talking big on Berlin."

Nixon said the "great lesson to learn from the first months of the Kennedy administration is that we talk bigger than we are prepared to act."

"The great danger is not war, but losing freedom without war. The United States must reprice its whole attitude toward Communism. We should take the offensive and every time Khrush-

chev makes a demand we should make a demand to free part of the slave world."

In other appearances Thursday night and Thursday in the San Diego area Nixon offered Kennedy additional advice and criticized the Democratic administration of California Gov. Edmund G. Brown.

He then left for Los Angeles and appeared in Seattle and Tacoma, Wash.

Nixon called on the Kennedy administration for an "agonizing reappraisal" of aid to the "so-called neutral nations."

On Kennedy's Peace Corps program, Nixon said it is an "idealistic concept which most Americans certainly could approve," but added that "anyone who believes the Peace Corps is the answer to tough, ruthless Communist operatives doesn't know what he is talking about."

Teasing off on Brown, who has not announced yet whether he will seek reelection, Nixon quoted California Disaster Office Director Allan Jonas as saying the state would be "completely naked" if an enemy attack occurred now.

Nixon said instead of taking state action on the vital problem of shelters, Brown is waiting to see what the federal government does on the matter.

Nixon also promised that there would be no presidential draft in 1964 "for me or anyone else" and vowed to serve a full four-year term as governor if elected.
