Race Driver Talks To OTI

Jack Turner, veteran Indianapolis Motor Speedway driver, will speak to the Oregon Tech student body at 9:40 a.m. on Thursday, Nov. 2.
Turner is one of a team of seven Indianapolis race drivers who have presented the award-winning Champion Highway Safety Program to more than three million teenagers in the last five years. His subject will be, "Highway Safety Is No Accident."
The Indianapolis race driver compares driving on the big speedway with everyday operations on our highways and insists if every motorist would be as courteous and as alert as the race driver and keep his car in as good condition there would not be the heavy traffic fatality toll being experienced today.
A sound and color movie made at the Indianapolis Speedway especially for use of the highway safety team will be shown.
The assembly program will be sponsored by the Auto Mechanics class. All persons whose lot it is to drive in today's heavy traffic will appreciate the valuable suggestions. The public is invited according to Ben Morrison, automotive instructor. (The National Safety Council has recognized the program by presenting its public service award to Champion Spark Plug Company for developing and maintaining the presentation to the public.)

4-H NEWS

POE VALLEY
Our first meeting of the year was held on Oct. 12 at the home of Mrs. Harold Campbell.
There was no old business so we got started off with new business which was the election of officers. They are as follows: Nyna Payne, president; Scott Skinner, vice president; Debra Kennedy, secretary; and Mary Drace, news reporter.
For planning the calendar we decided to have a fund raising project instead of paying monthly dues. This will be a baked food sale sometime before Thanksgiving. We have not set a date as of yet.
There were many ideas for tours and these will be looked into further and dates will be set.
We received our record books and our order was put in for some other interesting pamphlets.
At our next meeting it was decided upon that Judy Preim will give a demonstration on cake decorating. We are all looking forward to this very much.
Mrs. Payne was our only guest at this meeting. The meeting was adjourned and refreshments were served.
Mary Drace, News Reporter.

FOR PHYSICS TEACHERS

NEW YORK (UPI) — The Carnegie Corp. awarded a three-year grant of \$67,000 Sunday for a program designed to honor outstanding teachers of high school physics.
The experimental project is being conducted by the American Association of Physics teachers, which will issue the first merit awards in 1962.
