National Guard Manpower Boosted In Shakeup

WASHINGTON (UPI)—National Guard divisions will get an increase in strength as well as additional equipment under the new reorganization plan announced last weekend, the Army disclosed today.

A spokesman said the manpower authorizations will be based on an average full strength of about 13,000 men each, as compared to 13,700 for infantry and 14,600 for armored divisions at present.

In high-priority National Guard infantry divisions, which are to be maintained at 75 to 80 per cent of full strength, this will be several hundred additional drill-pays berths for civilian soldiers.

The new reorganization plan was announced Saturday as a last-minute concession to the National Governors Conference before it withdrew its collective resistance to the guard reorganization.

Some individual states still may veto the changes.

For the first time, the new plan includes the guard divisions in a system called "ROAD" (Reorganization Objectives for Army Divisions) which is also being applied to regular troops.

All divisions, both regular and guard, are to be given missions for fighting in Europe, Asia or other parts of the world.

If the plan is fully carried out, guard infantry divisions assigned to Europe will be converted into mechanized outfits.

This will mean three tank battalions instead of two, and will substitute seven mechanized battalions for the present infantry units.

FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just smile a little. PASTETECH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor breath." Get PASTETECH at drug counters everywhere.

Bomb Explodes Near President

ACCRA, Ghana (UPI) — Police questioned an unidentified man today about a bomb explosion in a crowd of 25,000 persons cheering President Kwame Nkrumah.

The bomb went off Tuesday while Nkrumah drove from the Accra sports stadium after a celebration marking the 13th anniversary of action that led to independence from Britain.

Nkrumah was not in the area where the bomb went off. The unidentified suspect was arrested immediately after the incident. Several injured were reported hospitalized.

It is estimated that about 90 per cent of the heat striking the outside of a house is concentrated on the roof.
