FIREMEN CALL TWICE - Lightning may not strike twice in the same place, but fire does, occasionally. It did Sunday afternoon when city firemen were summoned to the residence of Wayne Wolverton, 518 Doty Street, at 2:56 and again less than two hours later. The first time firemen were called to the house when an oil stove exploded, resulting in soot damage in the dwelling but no injuries. Firemen were summoned back to the house at 4:21 after Wolverton set the front of the dwelling on fire while attempting to thaw out frozen drains with a blow torch. In the meantime, a sofa had also caught fire inside the house.
