Sure, I guess I can go a little faster, Mac, but I hate to get out of the cab and leave you here!"

Mr. Strei, a graduate of the University of Wisconsin, has been associated with several missile bases where he obtained much of his information.

Strei showed the students how the country's space program is operated. The ballistic capsule, which is used by the astronauts now, the Gemini, capsule, which will carry two astronauts, and the Apollo - lunar craft, which will be used to send men to the moon within the next few years were explained by the scientist. explained by the scientist.

by these satellites.
