## POLLY'S POINTERS

The Shape Of Things

POLLY CRAMER  
Newspaper Enterprise Assn.

**DEAR POLLY**—Pad coat hangers with discarded shoulder pads. This helps keep the shape in the shoulders of clothes that have just come back from the cleaners on wire hangers.

To use enameled thumbtacks in hardwood, cover the hammer head with adhesive tape and then drive in the tack so that the finish is unharmed.

Clean adhesive on a hammer head would be a protection to walls, woodwork, etc., when used for many household tasks.

**DEAR POLLY**—My grandmother came up with the idea of poking holes in her plastic soap dish so that the excess water on the soap would drain off, thus preventing the soap from becoming soggy, soft and wasted. She pierced the holes with an ice pick, heated over the fire. When the pick is really hot, the job is fast and easy.

**MISS L. H.** **DEAR POLLY**—Repair broken tape on a Venetian blind with ad-

hesive tape on the reverse side. Whiten the tape with a small amount of white canvas shoe polish, applied with a sponge.

**DEAR POLLY**—A small bucket and a plumber's friend (plunger) make laundering a few hand washables easier on the clothes and saves manures, too. Work the plunger up and down in both suds and rinse water. Sent both of my kids off to college with a set.

**MRS. R. M. P.** **GIRLS**—A plunger also comes in handy for washing scatter rugs in the bathtub.

**DEAR POLLY**—This morning I went to my closet to get out a skirt and found the eye fastener missing. The hook was there, so I picked up my staple gun and stapled me an eye. It worked fine all day long and was a great solution in a pinch.

**GIRLS**—Quickies like this are great for emergencies and tide us over until more permanent repairs can be made.

**DEAR POLLY**—I love all those workable ideas! Here is one of my favorites. I use old gloves with holes in the finger tips, while vacuuming. It is easy to wipe the hose and cords, and I finish with clean hands and a clean vacuum.

I keep pen and scissors near the chair where I read newspapers and magazines. This way it

is easy to cut out and date any wanted items and not have to search back through the papers.
